INTEGRITY OF QUALITY & SERVICE

QINGDAO SUNTEN PLASTIC CO., LTD

COMPANY PROFILE

Sunten Plastic is a professional company dedicated to the research, production, and export of Plastic Net, Rope, Twine, Line & Thread, Fabric, Film, Bags and Artificial Landscaping Products etc.

***Safety Net:** Knotless & Knotted Safety Net, Cargo Net, Container Net, Elastic Net, Pallet Net, Hammock Net, Yacht Net, Glider Net, UHMWPE Net, Aramid Net, etc.
***Fishing Net:** Nylon Mono Fishing Net, Multi Fishing Net, Raschel Fishing Net, PE Fishing Net(Twisted), Braided Fishing Net, Multi-monofilament Nylon Fishing Net, Aquaculture Net, Seine Net, Cast Net, Fishing Cage, Sponge Net, etc.
***Construction Net:** Scaffolding Net, PVC Mesh Sheet, Alkali Resistant Fiberglass Mesh, PVC Coated Fiberglass Net, etc.
***Agriculture & Garden Net:** Bale Net Wrap, Shade Net, Insect Net, Drying Net, Shade Sail, Trellis Net, Anti Hail Net, Olive Net, etc.
***Multi-purpose Protective Netting:** Sports Enclosure Netting, Bird Net, Cat Net, Road Warning Net, Balcony Net, Poultry Net, Deer/Mole Net, Privacy Net, etc.
***Sports Net:** Pickleball Net, Volleyball Net, Tennis Net, Football Net, Badminton Net, Cricket Net,Ice Hockey Net, Basketball Net, Table Tennis Net, etc.
***Rope, Twine, Line & thread:** PP/PE/Polyester/Nylon Rope, Braided Rope, Kuralon Rope, UHMWPE Rope, Aramid Rope, Combination Rope, Elastic Rope, Natural Fiber Ropes, Fishing Twine, Fishing Line, Builder Line, Sewing Thread, etc.
***Fabric:** PVC Tarpaulin, PE Tarpaulin, Weed Mat, Non-Woven Fabric, Geotextile, Oxford Fabric, Silt Fence, Sound Barrier Sheet, etc.
***Film:** Blown & Woven Greenhouse Film, Mulch Film, Silage Wrap, Building Construction Film, etc.
***Bags:** Woven Bag, Bulk Bag, Mesh Bag, etc.
***Artificial Landscaping Products:** Artificial Grass, Artificial Hedge, etc.

Boasting strict standards regarding raw materials and stringent quality control, we have built a workshop of more than 15000 m2 and numerous advanced production lines to ensure the best product performance from the source. We have invested in numerous advanced production lines which include yarn-drawing machines, Weaving machines, winding machines, heat-cutting machines, etc. We usually offer OEM and ODM services according to customers' various requirements; besides, we also stock some popular and standard market sizes.

With steady quality and competitive prices, We have exported to over 142 countries and regions such as North and South America, Europe, South East Asia, the Middle East, Australia, and Africa.

SUNTEN is committed to becoming your most reliable business partner in China; please contact us to build mutually beneficial cooperation.

Knotless Safety Net

Knotless Safety Net is a type of heavy-duty safety net which is knitted between the connection of each mesh hole. The main advantage of this kind of safety net is that it looks very nice and neat.The knotless safety net is widely used in many different applications, such as Anti-Falling Net in construction sites, Driving Range Net, Climbing Net, Security Fence in Playgrounds or Ships(Gangway Safety Net), Sports Net(like Golf Practice Net) in stadiums, etc.

Basic Info.

Item Name	Anti Safety Net, Safety Netting, Safety Mesh, Anti-Falling Net, Safety Protection Net, Safety Protective Net, Raschel Safety Net
Structure	Knotless (Raschel Weaving)
Mesh Shape	Square, Diamond, Hexagonal
Material	Nylon, PE, PP,Polyester, UHMWPE,Aramid,etc.
Mesh Hole	≥ 0.5cm x 0.5cm
Diameter	0.5mm~12mm
Color	White, Black, Red, Yellow, Blue, Green, Orange, etc.
Border	Rope Border, Webbing Border
Corner Rope	Available
Feature	High Tenacity & UV Resistant & Water Resistant & Flame-Retardant
Hanging Direction	Vertical & Horizontal
Application	Indoor & Outdoor for Multi-Purpose

www.suntenplastic.com

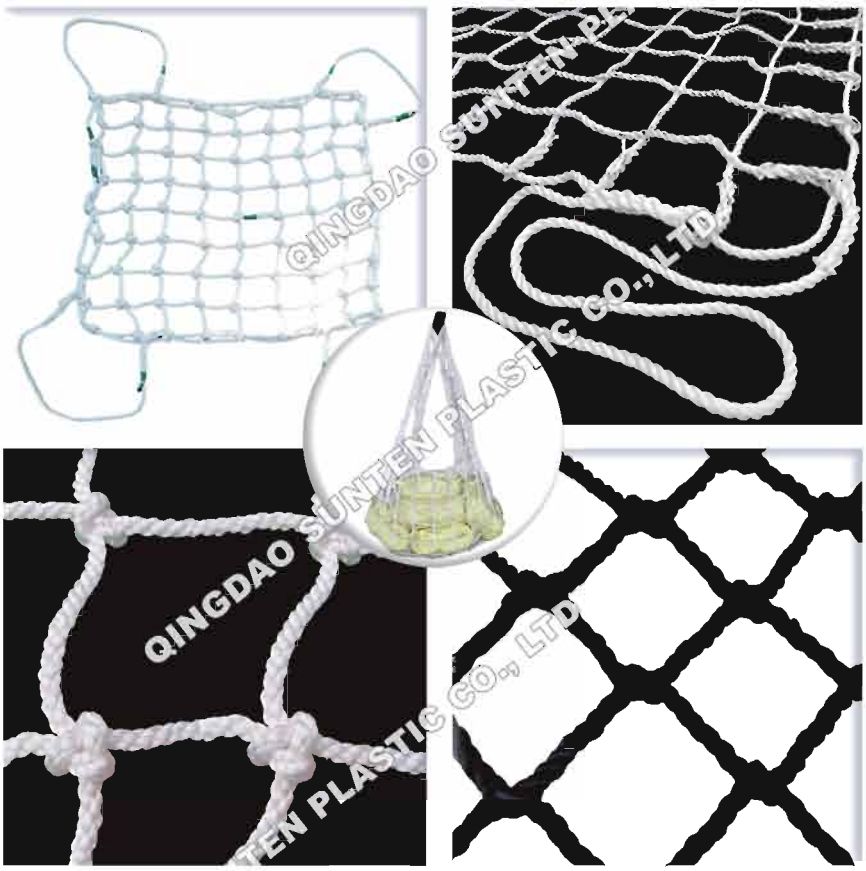

Knotted Safety Net

Knotted Safety Net is a type of heavy-duty safety net which is woven with knot connection for each mesh hole. The main advantage of this type of safety net is its high tenacity and high safety performance. The knotted safety net is widely used in many different applications, such as Anti-Falling Net in construction sites, Driving Range Net, Climbing Net, Harvest Net(Such as Durian Net for catching falling durian), Security Fence in Playgrounds or Ships(Gangway Safety Net), Sports Net(like Golf Practice Net) in stadiums, etc.

Basic Info.

Item Name	Anti Safety Net, Safety Netting, Safety Mesh, Anti-Falling Net, Safety Protection Net, Safety Protective Net, Safety Catch Net
Structure	Knotted
Mesh Shape	Square, Diamond
Material	Nylon, PE, PP,Polyester, UHMWPE,Aramid,etc.
Mesh Hole	≥ 0.5cm x 0.5cm
Diameter	≥ 0.5mm
Color	White, Black, Red, Yellow, Blue, Green, Orange, etc.
Border	Rope Border
Corner Rope	Available
Feature	High Tenacity & UV Resistant & Water Resistant & Flame-Retardant
Hanging Direction	Vertical & Horizontal
Application	Indoor & Outdoor for Multi-Purpose

www.suntenplastic.com

Cargo Lifting Net (Rope Type)

Cargo Lifting Net(Rope Type) is a type of heavy-duty safety net which is woven with knot connection for each mesh hole. It is woven from twisted rope or braided rope by machine or by hand usually. The main advantage of this type of safety net is its high tenacity and high safety performance. It is used for loading heavy goods, so this net must be made with high breaking strength for safety purpose.

Basic Info.

Item Name	Cargo Lifting Net, Cargo Net, Heavy Duty Safety Net
Structure	Knotted, Knotless
Mesh Shape	Square, Diamond
Material	Nylon, PE, PP,Polyester, UHMWPE,Aramid,etc.
Size	3m x 3m, 4m x 4m, 5m x 5m, etc.
Mesh Hole	5cm x 5cm, 10cm x 10cm, 12cm x 12cm, 15cm x 15cm, 20cm x 20cm, etc.
Loading Capacity	500 Kg, 1 ton, 2 tons, 3 tons, 4 tons, 5 tons, 10 tons, 20 tons, etc.
Color	White, Black, etc.
Border	Reinforced thicker border rope
Feature	High Tenacity & Corrosion Resistant & UV Resistant & Water Resistant & Flame-Retardant (available)
Hanging Direction	Horizontal
Application	For lifting heavy objects

www.suntenplastic.com

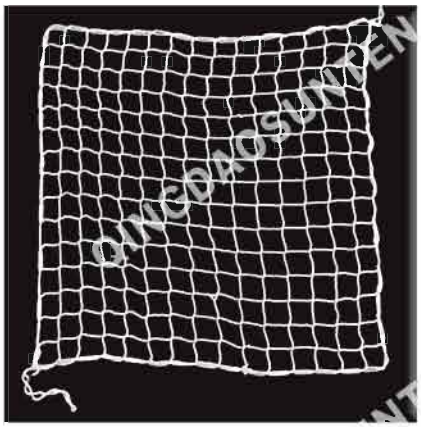

Cargo Lifting Net (Webbing Type)

Cargo Lifting Net (Webbing Type) is a type of heavy-duty safety net which is woven from flat webbing by machine usually. The main advantage of this type of safety net is its high tenacity and high safety performance. It is used for loading heavy goods, so this net must be made with high breaking strength for safety purpose.

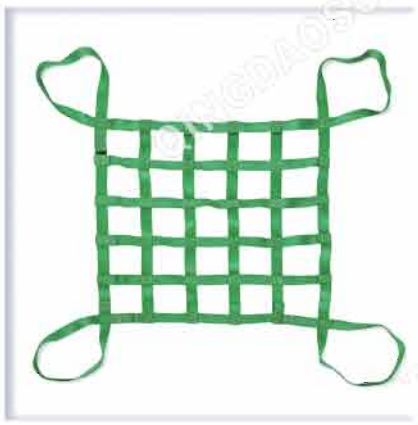

Basic Info.

Item Name	Cargo Lifting Net(Webbing Type), Webbing Cargo Lifting Net, Cargo Lifting Net, Cargo Net, Heavy Duty Safety Net
Mesh Shape	Square
Material	Nylon, PP, Polyester, etc.
Size	3m x 3m, 4m x 4m, 5m x 5m, etc.
Mesh Hole	5cm x 5cm, 10cm x 10cm, 12cm x 12cm, 15cm x 15cm, 20cm x 20cm, etc.
Loading Capacity	500 Kg, 1 ton, 2 tons, 3 tons, 4 tons, 5 tons, 10 tons, 20 tons, etc.
Color	Orange, White, Black, Red, etc.
Border	Reinforced thicker border rope
Feature	High Tenacity & Corrosion Resistant & UV Resistant & Water Resistant & Flame-Retardant (available)
Hanging Direction	Horizontal
Application	For lifting heavy objects

www.suntenplastic.com

Container Net

Container Net is a type of heavy-duty safety net which is used for preventing cargo from collapsing when opening the container door. The main advantage of this type of safety net is its high tenacity and high safety performance. There are two main types of container nets, one is rope style(knotted, knotless) which is the most widely used, and webbing style which is usually for fixing super heavy goods(such as machines, stones, etc). Sometimes, for blocking the small packages of goods in the container, they also use one 3rd type:Fabric type.

Basic Info.

Item Name	Container Net, Container Netting, Container Mesh, Container Safety Net, Container Protection Net, Container Protective Net
Structure	Rope style (Knotted, Knotless), Webbing Style
Mesh Shape	Square, Diamond
Material	Nylon, PE, PP,Polyester, UHMWPE,Aramid,etc.
Size	For 20GP or 40GP: 2.4m x 2.4m, For 40HQ: 2.4m x 2.6m, Available for size customization.
Mesh Hole	5cm x 5cm, 10cm x 10cm, 12cm x 12cm, 15cm x 15cm, 20cm x 20cm, 25cm x 25cm, 30cm x 30cm, etc
Corner	With ropes or closed loop ropes for tying into the container tightly
Color	White, Black, Red, Yellow, Blue, Green, Orange, etc.
Border	Reinforced Edge
Corner Rope	Available
Feature	High Tenacity & UV Resistant & Water Resistant & Flame-Retardant (available)
Hanging Direction	Vertical
Application	Various types of containers

www.suntenplastic.com

Elastic Net

Elastic Net is an elastic mesh composed of elastic rope forming one unit, usually in knotted and knotless types. With good elasticity, the elastic net is widely used in many different applications, such as elastic truck net, elastic trailer net, elastic motorcycle net, elastic luggage net, elastic storage net, etc.

Basic Info.

Item Name	Elastic Net, Bungee Cargo Net, Elastic Cargo Net, Trailer Cargo Net, Car Rear Cargo Net, Truck Net, Elastic Mesh
Type	Knotted or Knotless
Material	Surface: Nylon(PA, Polyamide), Polyester, PP(Polypropylene) Inner Core: Rubber, Latex
Diameter	1mm - 7mm, etc
Mesh Hole	2.5cm x 2.5cm, 5cm x 5cm, 10cm x 10cm, 13cm x 13cm, 15cm x 15cm, etc
Size	1.5m x 2m, 2m x 2m, 2m x 3m, 3m x 3m, 3m x 6m, 4m x 4m, 4m x 8m, 6m x 6m, etc
Color	Black, Green, Blue, White, Red, Yellow, Orange, etc
Accessory	Plastic hook or Metal Carabiner, etc
Feature	Excellent elasticity, High tenacity, UV Resistant, Water resistant
Application	Multi-Purpose, commonly used for fixing goods in trailers, trucks, motorcycles, luggage storage, etc.
Packing	Transparent Polybag, then Woven Bag or Box

www.suntenplastic.com

Pallet Net (Rope Type)

Pallet Net (Rope Type) is made of high-strength chemical fiber via crisscross weaving for a tough, dense mesh. Lightweight with great tear resistance, moisture and corrosion resistance, it serves long-term multi-scenario use. Fit for logistics stacking, warehousing and farm cargo transport. Foldable to save storage space. Recyclable and eco-friendly, it offers an efficient, sustainable packaging & transport option.

Basic Info.

Item Name	Pallet Net, Pallet Netting, Pallet Mesh
Style	Knotted Rope, Knotted Webbing, Knotless Rope, etc
Mesh Shape	Square, Diamond
Material	Nylon, PE, PP, Polyester, etc.
Mesh Hole	Per Requirement
Size	Euro Pallet Size, UK Pallet Size, per requirement
Color	White, Black, Red, Yellow, Blue, Green, Orange, etc.
Edge	Reinforced Edges
Feature	High Tenacity & UV Resistant & Water Resistant
Application	Packing the goods on the pallet firmly

www.Suntenplastic.com

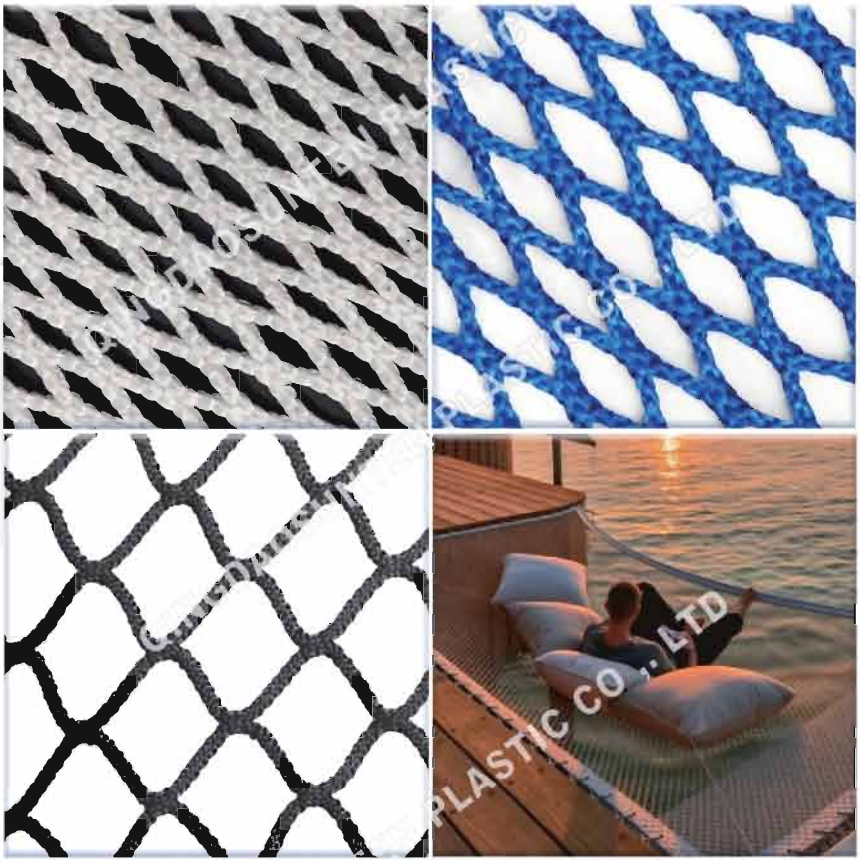

Pallet Fabric

Pallet Fabric is a type of heavy-duty Fabric that surrounds the goods on the pallet. The main advantage of this type of safety net is its high tenacity and high safety performance. Pallet Fabric provides a flexible solution which can be adapted to those with uneven or irregular goods on the pallet. The fabric can be designed to be tensioned to cover the products on the pallet and provide firm stability to the load.

Basic Info.

Item Name	Pallet Fabric, Pallet Mesh
Style	Fabric
Material	PP, PVC, Oxford, etc.
Density	Per Requirement
Size	Euro Pallet Size, UK Pallet Size, per requirement
Color	White, Black, Red, Yellow, Blue, Green, Orange, etc.
Feature	High Tenacity & UV Resistant & Water Resistant
Application	Packing the goods on the pallet firmly

www.suntenplastic.com

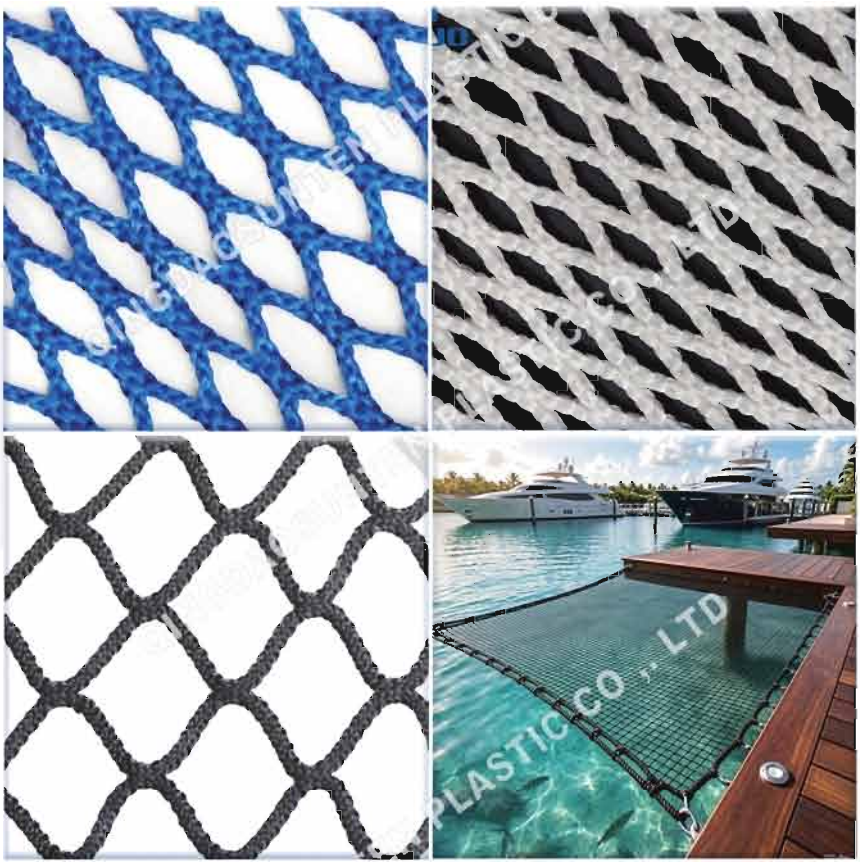

Hammock Net

Hammock Net is a type of heavy-duty net which is knitted between the connection of each mesh hole. The main advantage of this type of hammock net looks very nice and neat. The hammock net is widely used in many different applications, such as outdoor hammock, leisure rest, camping, backyard decoration, playground climbing net, etc.

Basic Info.

Item Name	Hammock Net, Anti Safety Net, Safety Netting, Safety Mesh
Structure	Knotless (Raschel Weaving)
Mesh Shape	Square, Diamond, Hexagonal
Material	UHMWPE, Nylon, PE, PP, Polyester, etc.
Mesh Hole	≥ 0.5cm x 0.5cm
Diameter	≥0.5mm
Color	White, Black, Red, Yellow, Blue, Green, Orange, etc.
Border	Rope Border, Webbing Border
Corner Rope	Available
Feature	High Tenacity & UV Resistant & Water Resistant
Application	Indoor & Outdoor for Multi-Purpose

www.suntenplastic.com

Yacht Safety Net

Yacht Safety Net is a type of heavy-duty safety net which is knitted between the connection of each mesh hole. The main advantage of this type of safety net looks very nice and neat. The yacht safety net is widely used in many different applications, such as Anti-Falling Net in construction sites, Driving Range Net, Climbing Net, Security Fence in Playgrounds or Ships(Gangway Safety Net), Sports Net(like Golf Practice Net) in stadiums, etc.

Basic Info.

Item Name	Yacht Safety Net, Anti Safety Net, Safety Netting, Safety Mesh
Structure	Knotless (Raschel Weaving)
Mesh Shape	Square, Diamond, Hexagonal
Material	UHMWPE, Nylon, PE, PP, Polyester, etc.
Mesh Hole	≥ 0.5cm x 0.5cm
Diameter	≥ 0.5cm
Color	White, Black, Red, Yellow, Blue, Green, Orange, etc.
Border	Rope Border, Webbing Border
Corner Rope	Available
Feature	High Tenacity & UV Resistant & Water Resistant
Application	Indoor & Outdoor for Multi-Purpose

www.suntenplastic.com

Glider Net

Glider Net is exclusively designed for glider protection, suitable for glider enthusiasts, training schools and aviation clubs worldwide. Crafted from high-strength, lightweight UHMWPE fiber, it features a soft, durable weave to prevent scratches, dents and debris damage to glider fuselages and wings. Anti-UV and water-resistant, it withstands outdoor conditions without fading or aging. With glider-specific design, adjustable drawstrings for a snug fit, it is easy to install and store. Customizable, non-abrasive and compliant with international standards, our Glider Net offers cost-effective, reliable protection, making it an ideal choice for global buyers.

Basic Info.

Item Name	Glider Net, Gliding net, Glider safety net, Glider storage/transport net, Glider training buffer net
Mesh Shape	Square, Diamond
Material	UHMWPE, Nylon(PA, Polyamide),Polyester(PET)
Color	White, Black, Red, Yellow, Blue, Green, Orange, etc.
Mesh Size	2"-UP
Twine Size	210D/3PLY-28PLY
Knot style	SK(Single Knot), DK(Double Knot)
Depth	0.5-6M
Feature	High Tenacity & UV Resistant & Water Resistant
Length	Per Requirement

www.suntenplastic.com

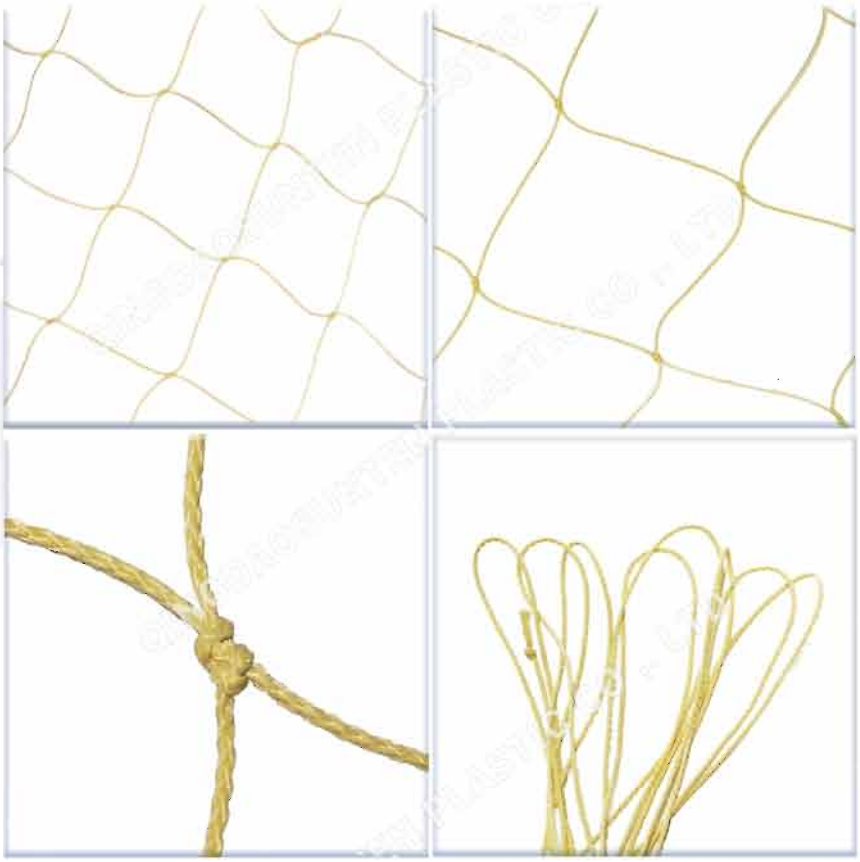

UHMWPE Net

UHMWPE Net is woven from high-performance polyethylene fibers through specialized processes. Its unique molecular chain structure provides exceptional strength and durability while remaining remarkably lightweight, allowing it to float on water. The net exhibits outstanding abrasion resistance, maintaining shape integrity under prolonged use, and withstands UV exposure and chemical erosion. Its flexibility enables high-impact absorption while remaining foldable for storage.

Basic Info.

Item Name	UHMWPE Net, HMPE Net, Safety Net, Marine Net, Protective Net
Material	UHMWPE With UV Resistant
Structure	Knotless (Raschel Weaving), Knotted
Mesh shape	Square, Diamond, Hexagonal
Color	White, Black, Red, Yellow, Blue, Green, Orange, etc.
Mesh Hole	> 0.5cm x0.5cm
Diameter	≥0.5mm
Border	Rope Border, Webbing Border
Corner Rope	Available
Feature	High Tenacity & UV Resistant & Water Resistant
Application	Indoor & Outdoor for Multi-Purpose

www.suntenplastic.com

Aramid Net

Aramid net is made of high-performance aramid fiber. Boasting high tensile strength, light weight, flame retardancy and heat resistance, it outperforms common nets in abrasion, cut resistance, aging and chemical corrosion resistance. Low elongation ensures stable shape under heavy loads. Suitable for construction, industry, firefighting, marine and high-risk work sites. Complies with international safety standards to deliver reliable long-term protection.

Basic Info.

Item Name	Aramid Safety Net, Safety Netting, Safety Protection Net
Material	Aramid
Diameter	1mm, 2mm, 3mm, etc
Mesh Size	1*1cm, 2*2cm, 5*5cm, 10*10cm, etc
Color	Yellow
Width	1m, 1.5m, 2m, 3m, etc
Length	10m, 15m, 20m, 25m, 50m, 100m, 200m, etc
Feature	High Tenacity & UV Resistant & Water Resistant & Flame-Retardant,etc
Application	Indoor & Outdoor for Multi-Purpose

Nylon Mono Fishing Net

Nylon Mono Fishing Net is a strong, UV-treated netting that is widely used in the fishing and aquaculture Industry. It is made of single nylon yarn which has high breaking strength, equal mesh, and tight knot. With these excellent features, it is also suitable for making net cages, marine trawl, purse seine, shark-proofing net, jellyfish net, seine net, trawl net, gill net, bait nets, etc.

Basic Info.

Item Name	Nylon Mono Fishing Net
Material	Nylon(PA, Polyamide)
Thickness(Dia.)	0.10-1.5MM
Mesh Size	3/8"-UP
Color	GG(Green Grey), Green, Blue, Orange, Red, Grey, Black, White, Beige, etc
Stretching Way	Length Way(LWS), Depth Way(DWS)
Selvage	DSTB, SSTB
Knot Style	SK(Single Knot), DK(Double Knot)
Depth	25MD-1000MD
Length	Per Requirement
Feature	High Tenacity & UV Resistant & Water Resistant

www.suntenplastic.com

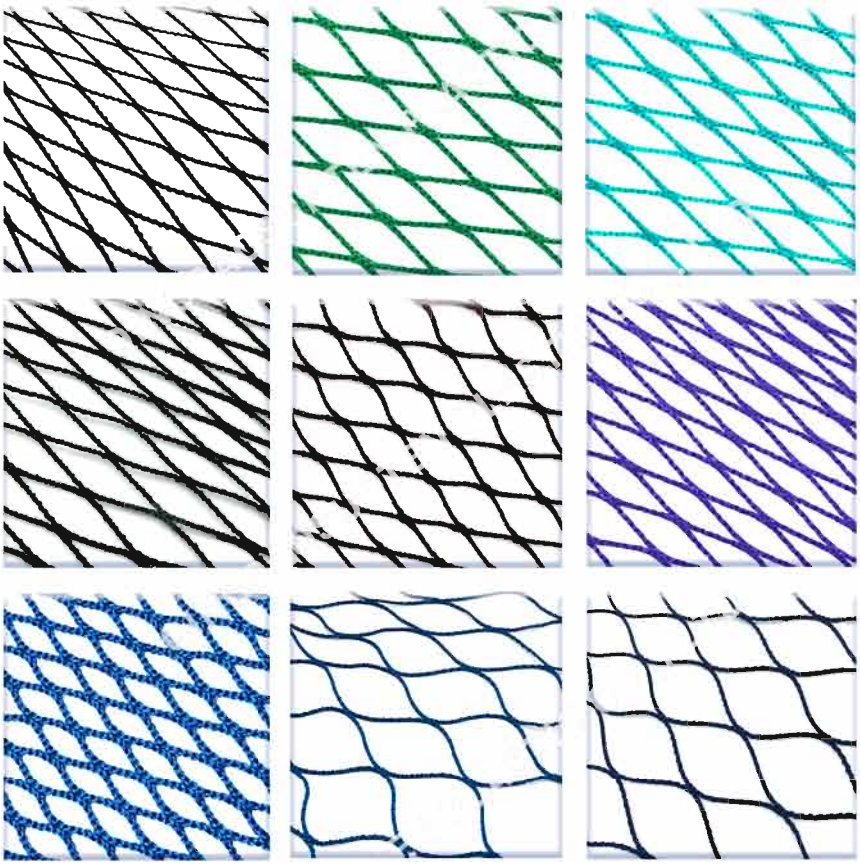

Multi Fishing Net

Multi Fishing Net is a strong, UV-treated netting that is widely used in the fishing and aquaculture Industry. It is also a comparatively softer netting than other material of fishing nets. It is made of high-tenacity of nylon or polyester multi-filament yarn which has high breaking strength, equal mesh, and tight knot. One advantage of nylon & polyester multi-filament fishing net is that it can be dyed to almost any color. With these excellent features, it is also suitable for making net cages, marine trawl, purse seine, shark-proofing net, jellyfish net, seine net, trawl net, bait nets, etc.

Basic Info.

Item Name	Multi Fishing Net, Nylon & Polyester Multi Fishing Net
Material	Nylon(PA, Polyamide), Polyester(PET)
Twine Size	210D/3PLY-280PLY
Mesh Size	3/8"-UP
Color	GG(Green Grey), Green, Blue, Orange, Red, Grey, Black, White, Beige, etc
Stretching Way	Length Way(LWS), Depth Way(DWS)
Selvage	DSTB, SSTB
Knot Style	SK(Single Knot), DK(Double Knot)
Depth	25MD-600MD
Length	Per Requirement
Feature	High Tenacity & UV Resistant & Water Resistant

Raschel Knotless Fishing Net

Raschel Knotless Fishing Net is a strong, UV-treated netting that is widely used in the fishing and aquaculture Industry. Knotless Netting is a popular netting option due to its soft, yet high strength qualities. This netting, as the name suggests has no knots, which ensures a soft-to-touch finish. One advantage of multi-filament fishing net is that it can be dyed to almost any color. Multi-filament Fishing Nets can also be supplied with a tarred coating, called a tarred net. This is achieved by applying a resin tar to the net which hardens, strengthens, and increases the lifespan of the net.

Basic Info.

Item Name	Raschel Knotless Fishing Net, Raschel Fishing Net
Material	Nylon(PA, Polyamide), Polyester(PET)
Weaving Style	Raschel Weaving
Twine Size	210D/3PLY-240PLY
Mesh Size	3/8"-UP
Color	GG(Green Grey), Green, Blue, Orange, Red, Grey, Black, White, Beige, etc
Stretching Way	Length Way(LWS)
Selvage	DSTB, SSTB
Depth	25MD-1200MD
Length	Per Requirement
Feature	High Tenacity & UV Resistant & Water Resistant

www.suntenplastic.com

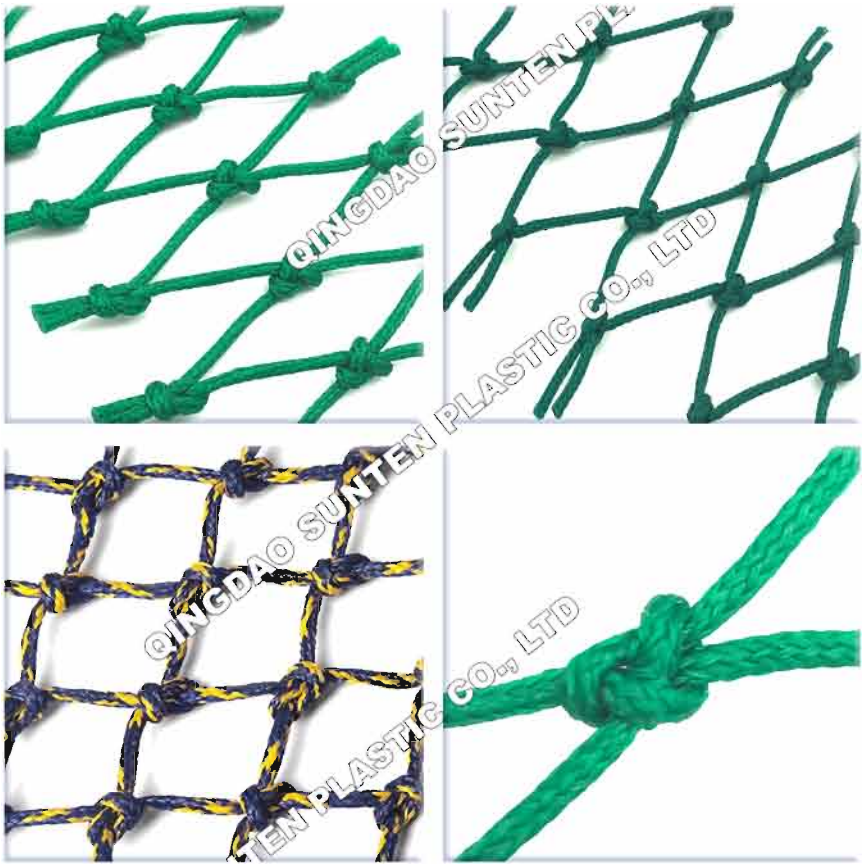

PE Fishing Net (Twisted)

PE Fishing Net (Twisted) is one type of Fishing Net which is widely used in the fishing and aquaculture Industry. It is made of high-tenacity polyethylene monofilament yarn which has high breaking strength. The mesh size is uniform and the knot is woven tightly. With these excellent features, it is also suitable for making net cages, marine trawl, purse seine, shark-proofing net, jellyfish net, seine net, trawl net, bait nets, etc.

Basic Info.

Item Name	PE Fishing Net, PE Net, HDPE Fishing Net, Polyethylene Fishing Net, PE Fishing Netting, PE Nets (Also can be used as Poultry Net, like Chicken Net).
Material	HDPE(PE, Polyethylene) With UV Resin
Twine Size	380D/ 6, 9, 12, 15, 18, 21,24, 30, 36, 48, 60, 270, 360 Ply, etc
Mesh Size	1/2'', 1'', 2'', 3'', 4'', 5'', 6'', 12'', 16'', 24'', 36'', 48'', 60'', 80'', 120'', 144'', etc
Color	GG(Green Grey), Green, Blue, Orange, Red, Grey, Black, White, Beige, etc
Stretching Way	Length Way(LWS), Depth Way(DWS)
Selvage	DSTB, SSTB
Knot Style	SK(Single Knot), DK(Double Knot)
Depth	Per Requirement
Length	Per Requirement
Feature	High Tenacity & UV Resistant & Water Resistant

www.suntenplastic.com

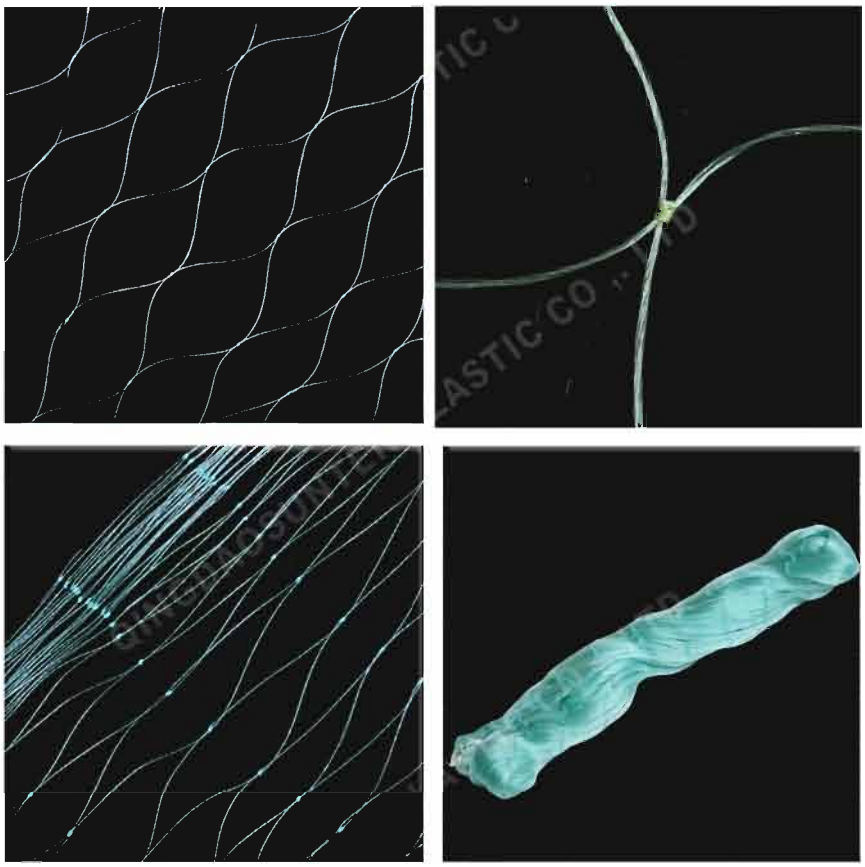

Braided Fishing Net

Braided Fishing Net is one type of Fishing Net which is widely used in the fishing and aquaculture Industry. It is weaved by the braided rope which is made of many chemical fiber yarns with high breaking strength. The mesh size is equal and the knot is woven tightly. With these excellent features, it is also suitable for making net cages, marine trawl, purse seine, shark-proofing net, jellyfish net, seine net, trawl net, bait nets, etc.

Basic Info.

Item Name	Braided Fishing Net
Material	Polyethylene, Nylon, Polyester, etc
Thickness(Dia.)	1MM-UP
Mesh Size	1/2”-UP
Color	GG(Green Grey), Green, Blue, Orange, Red, Grey, Black, White, Beige, etc
Stretching Way	Length Way(LWS), Depth Way(DWS)
Selvage	DSTB, SSTB
Knot Style	SK(Single Knot), DK(Double Knot)
Depth	25MD-600MD
Length	Per Requirement
Feature	High Tenacity & UV Resistant & Water Resistant

www.suntenplastic.com

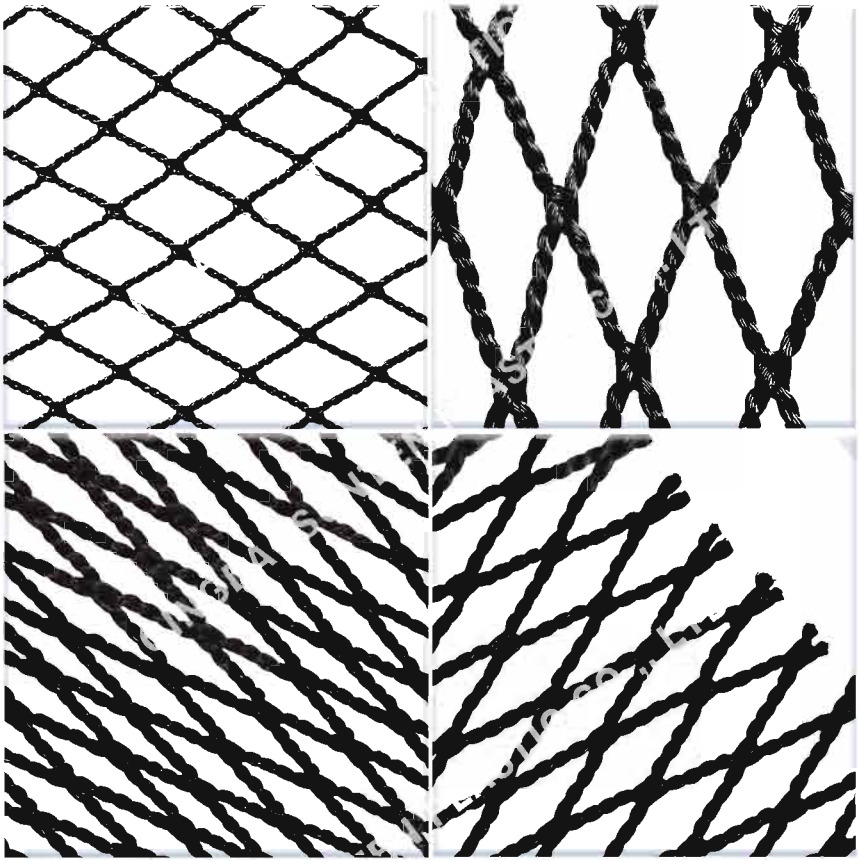

Multi-monofilament Nylon Fishing Net

Multi-monofilament Nylon Fishing Net is a heavy-duty netting solution made from multiple strands of monofilament nylon twisted into high-strength yarns, offering superior tensile strength and abrasion resistance for demanding marine use. Unlike standard single-strand nets, the multi-monofilament construction distributes load evenly across the mesh, reducing breakage under heavy catches. The net resists UV rays, seawater corrosion, and seabed wear, ensuring long service life in both commercial and recreational operations.

Basic Info.

Item Name	Multi-monofilament Nylon Fishing Net, Nylon Monofilament Fishing Net, Nylon Mono Fishing Net
Material	Nylon(PA, Polyamide)
Thickness(Dia.)	0.15×4Ply、0.18×4Ply，0.20×4Ply、0.20×6Ply，0.20×8Ply、0.20×10Ply、0.25×6Ply、0.25×8Ply、0.30×8P、0.30×10Ply 0.30×12Ply、0.40×8Ply，etc
Mesh Size	3/8”-UP
Color	GG(Green Grey), Green, Blue, Orange, Red, Grey, Black, White, Beige, etc
Stretching Way	Length Way(LWS), Depth Way(DWS)
Selvage	DSTB, SSTB
Knot Style	SK(Single Knot), DK(Double Knot)
Depth	25MD-1000MD
Length	Per Requirement
Feature	High Tenacity & UV Resistant & Water Resistant

www.suntenplastic.com

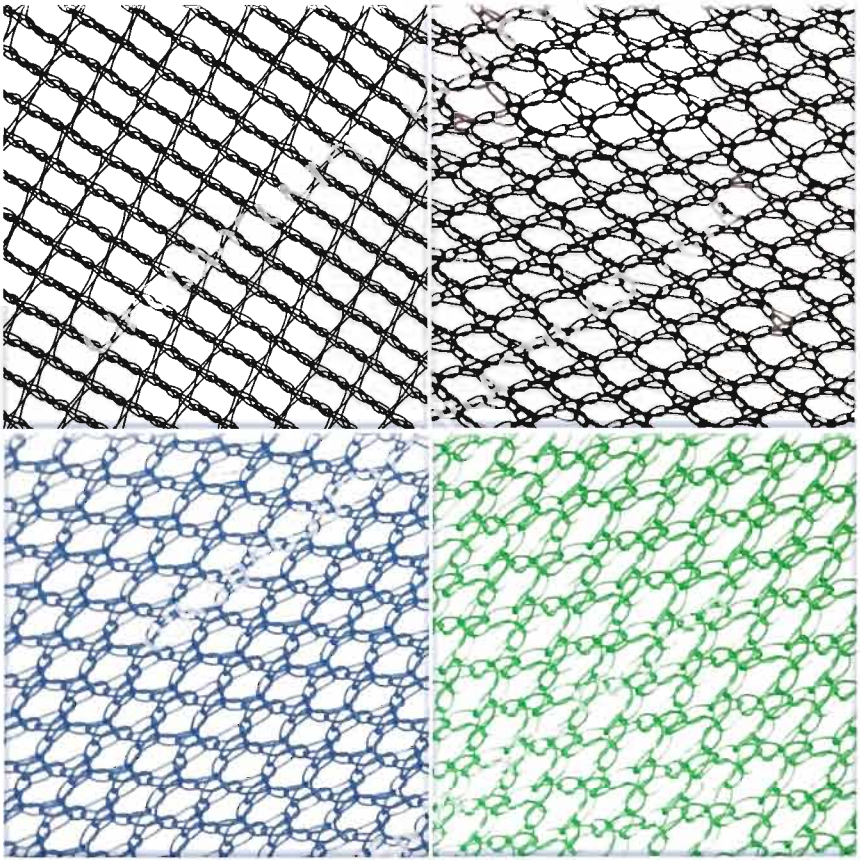

Twisted Knotless Fishing Net

Twisted Knotless fishing net is a strong, UV-treated netting that is widely used in the fishing and aquaculture industry. Knotless Netting is a popular netting option due to its soft yet high-strength qualities. This netting, as the name suggests, has no knots, which ensures a soft-to touch finish.

Basic Info.

Item Name	Twisted Knotless Fishing Net, Knotless Fishing Net, Raschel Fishing Net, Seine Net
Weaving Style	Twisted, Raschel Weaving
Color	GG(Green Grey), Green, Blue, Orange, Red, Grey, Black, White, Beige, etc
Material	PE(HDPE, Polyethylene)
Twine Size	380D/6PLY-240PLY
Mesh Size	3/8"-UP
Stretching Way	Length way(LWS)
Selvage	DSTB, SSTB
Depth	25MD-1200MD
Length	Per Requirement
Feature	High Tenacity & UV Resistant & Water Resistant

www.suntenplastic.com

Aquaculture Net

Aquaculture Net is a wear-resistant polyethylene woven mesh that is light in weight but strong in structure and not easy to deform. It is used to partition breeding areas, protect aquatic products, and also serves as a protective barrier for outdoor facilities, small warehouses, and garden green belts. This net is ideal for aquatic breeding, outdoor facility protection, warehouse isolation, and garden maintenance, suitable for various aquatic organisms, outdoor equipment, and garden plants. Besides, this net can also be used as a temporary isolation and protection net.

Basic Info.

Item Name	Aquaculture Net
Material	PE(Polyethylene) with UV Treatment
Needle	2 needle, 3 needle, 6 Needle, 7 Needle, 8 Needle, 9 Needle
Weaving Type	Warp-Knitted, available with the opening hole in the middle of the net
Color	Blue, Grey, Green, Orange, Red, Yellow, Black, White, etc
Feature	Heavy-Duty& UV Resistant & Water Resistant
Size	Width: 1m, 1.22m, 1.5m,1.83m, 2m, etc. Length: 50m, 100m, 200m,etc.
Packing	Each Roll in Polybag or Woven Bag
Hanging Direction	Vertical

www.suntenplastic.com

Seine Net

Purse Seine Net is a lightweight but high-tensile fishing net with uniform mesh and reliable structural stability. It is used to encircle and capture large pelagic fish schools efficiently during deep-sea fishing activities. This purse seine net is suitable for catching pelagic species including tuna, mackerel, sardine and other pelagic fish. Besides, this net can also be used for fish enclosure and fry protection in large water areas.

Basic Info.

Item Name	Purse Seine Net, Seine Net
Material	Polyethylene, Nylon, Polyester, etc.
Yarn count	210D/3PLY-280PLY, 380D/6PLY-280PLY
Mesh Size	1/2",1",2 ,3 ,4 ,5 ,6 ,12",16",24",30", 36" ,48",60",80',120",144",etc
Color	GG(Green Grey), Green, Blue, Orange, Red, Grey, Black, White, Beige, etc
Stretching Way	Length Way(Lws), Depth way(Dws)
Selvage	DSTB, SSTB
Knot style	SK(Single Knot), DK(Double Knot)
Depth	25MD-600MD
Length	Per Requirement
Feature	High Tenacity & UV Resistant & Water Resistant

www.suntenplastic.com

Cast Net

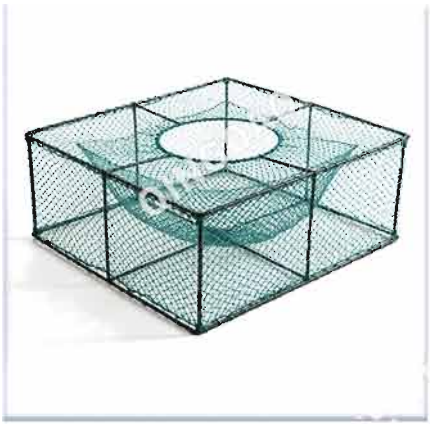

This professional hand-cast net adopts a dense mesh structure and reinforced stitching, enhancing overall strength. The heavy sinker design guarantees rapid submersion and effective fish enclosure. It is resistant to pulling, abrasion, and seawater erosion. Easy to carry and store, it fits for shore fishing, boat fishing, and leisure fishing. Anecessary accessory for anglers pursuing stable performance and great catch results.

Basic Info.

Item Name	Cast Net, Fishing Net
Material	Nylon, Polyethylene, Polyester, etc.
Knot Type	Double
Style	Multifilament/Monofilament
Color	Orange, Green, Dark(Olive Green), Black, White, Red, Yellow, etc
Length	6-12FT
Depth	6-12FT
Feature	High Tenacity&UV Resistant&Water Resistant

www.suntenplastic.com

Fishing Cage

Fishing cage is a professional tool for aquaculture and fish trapping, made of high-quality anti-corrosion and wear-resistant materials. It is suitable for rivers, lakes and seas, with stable structure and easy installation. The reasonable design ensures good water circulation, protecting fish and improving survival rate. It is widely used in commercial aquaculture and small-scale fishing, practical and durable.

Basic Info.

Item Name	Fishing Cage, Fish Cage, Aquaculture Cage, Sea Cage, Fish Trap, Net Cage
Material	HDPE, Nylon, Polyester,etc
Loading Capacity	Per requirement.
Size	Per requirement.
Color	Blue, Grey, Green, Orange, Red, Yellow, Black, White, etc
Packing	By woven bag
Application	Used to catch fish or breed fish in water, it is designed for trapping fish or aquaculture in rivers

www.suntenplastic.com

Sponge Net

Sponge Net is crafted from nylon or polyester. Its materials offer high tensile strength and excellent abrasion resistance, and resistance to UV rays and chemicals, ensuring it won't easily degrade. The net features a knotted or knotless mesh structure. This design not only prevents hair from getting caught during use but also allows for a more even distribution of pressure. As a result, when used for bathing people with thick hair and skin, it can effectively remove dirt and dead skin cells while providing a comfortable experience.

Basic Info.

Item Name	African Net Sponge, African Sponge Net, Knotless Fishing Net
Material	Nylon (PA, Polyamide), Polyester (PET)
Weaving Style	Raschel Weaving
Twine Size	210D/3PLY-280PLY
Mesh Size	3/8"-UP
Color	GG(Green Grey), Green, Blue, Orange, Red, Grey, Black, White, Beige, etc
Stretching Way	Length way(LWS)
Selvage	DSTB, SSTB
Depth	25MD-1200MD
Length	Per Requirement

Cotton Decorative Fishing Net

This cotton decorative fishing net is crafted from premium soft cotton threads, featuring fine knitting, sturdy structure and great durability. Adopting a classic nautical hollow mesh design, it presents a natural rustic and coastal style. Available in multiple classic and custom colors including beige, navy blue, sky blue and dark brown, it fits diverse decoration needs. Lightweight and easy to hang, this versatile decor is perfect for wall decoration, home styling, beach themed parties, cafe and bar ornament, effortlessly creating a fresh maritime atmosphere.

Basic Info.

Item Name	Cotton Decorative Fishing Net, Nautical Cotton Decor Net, Fisherman's Decor Net
Material	Cotton
Shape	Customized Shape
Color	Natural, Khaki, Beige, Dark Brown, Light Blue, Black, etc
Size	100 x 200cm, 150 x 200cm, 200 x 400cm, etc
Mesh Size	5 X 5cm, 10 X 10cm, etc
Diameter	≥2mm
Loading Capacity	Per requirement.
Packing	By woven bag
Application	Wall Hanging Cotton Fishing Net, Decorative Wall Fish Net, Hanging Nautical Net Decor

Construction Net

SCAFFOLDING NET (FLAT YARN TYPE)

ALKALI RESISTANT FIBERGLASS MESH

PVC MESH SHEET

SCAFFOLDING NET (ROUND YARN TYPE)

SCAFFOLDING NET (ROUND YARN & SQUARE HOLE)

FLAME RETARDANT STEEL-PLASTIC COMPOSITE SAFETY NET

PVC COATED FIBERGLASS MESH

GRASS GRID

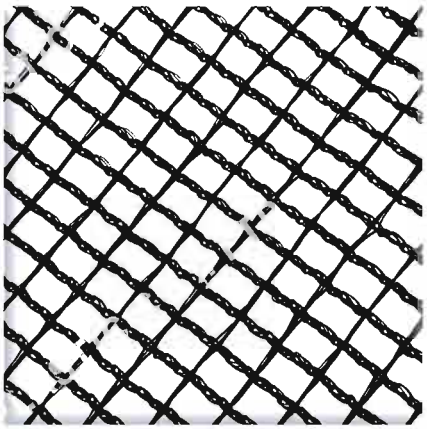

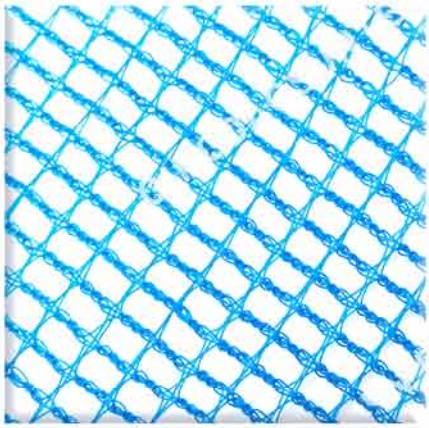

Scaffolding Net (Round Yarn Type)

Scaffolding Net (Round Yarn Type) (Building Safety Net, Debris Net, Scaffolding Net) is widely used in various construction sites, especially high-rise buildings, and can be fully enclosed in construction. It can effectively prevent the injury of persons and objects from falling, prevent the fire caused by electric welding sparks, reduce noise and dust pollution. According to the different application environments,flame-retardant construction net is needed in certain projects.

Basic Info.

Item Name	Building Construction Net, Safety Net, Scaffolding Net, Debris Net, Windbreak Net, Safety Netting, Safety Mesh
Material	PE, PP, Polyester(PET)
Color	Green, Blue, Orange, Red, Yellow, Grey, Black, White, etc
Density	40gsm ~ 300gsm
Needle	6 Needle, 7 Needle, 8 Needle, 9 Needle
Weaving Type	Warp-Knitted
Border	Available in Thickened Border, Rope-Hemmed Border With Metal Grommets, Tape-Hemmed Border With Metal Grommets
Feature	Heavy-Duty & UV Resistant & Water Resistant & Flame-Retardant (available)
Width	1m, 1.83m(6''), 2m, 2.44(8''), 2.5m, 3m, 4m, 5m,6m, 8m, etc.
Length	20m, 50m, 91.5m(100 yards), 100m, 183m(200 yards), 200m, 250m, 300m, etc.
Packing	Each Roll in Polybag or Woven Bag
Application	Construction Site
Hanging Direction	Vertical

www.suntenplastic.com

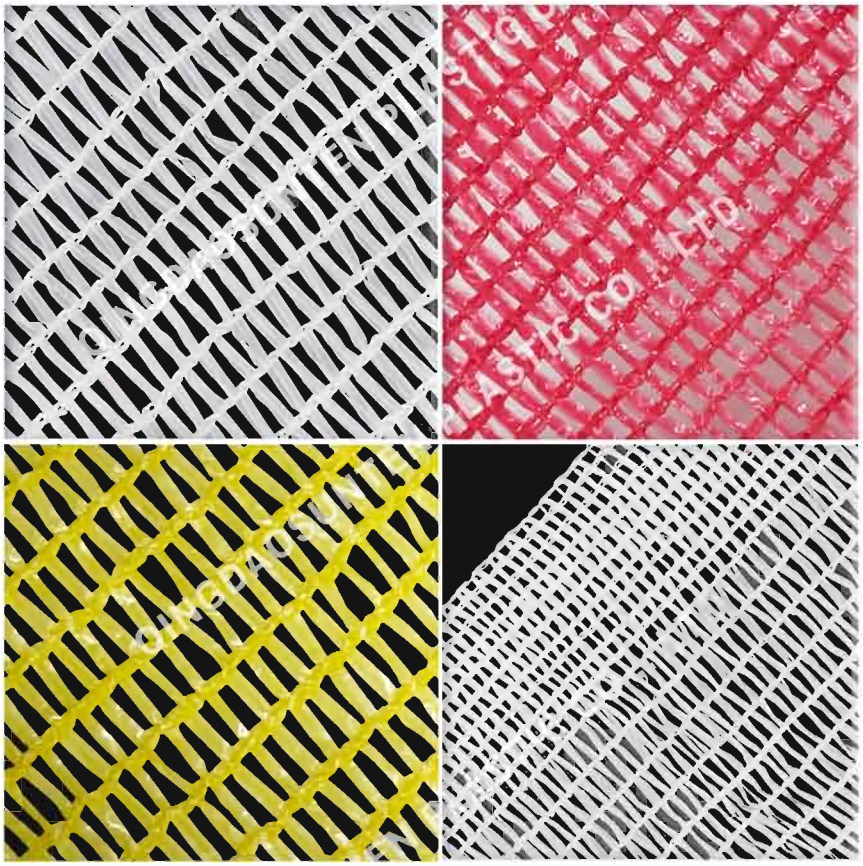

Scaffolding Net (Round Yarn & Square Hole)

Scaffolding Net (Round Yarn & Square Hole) is a type of warp-knitted polyethylene net which is weaved in grid mesh hole(Square or Rectangular mesh hole). This grid netting is widely used in many different applications, such as construction net, anti-animal net, anti-bird net, aquaculture net, fishing cage net, table tennis net, etc.

Basic Info.

Item Name	Scaffolding Net(Round Yarn & Square Hole) Grid Net, Grid Mesh, Grid Construction Net
Material	PE
Color	Blue, Green, Blue, Yellow, Orange, Red, Black, Grey, White, etc
Density	35gsm ~ 300gsm
Mesh Hole	2x2mm, 3x3mm, 4x4mm, 5x5mm, 8x8mm, 16x16mm, etc
Needle	6 Needle, 7 Needle, 8 Needle, 9 Needle
Weaving Type	Warp-Knitted
Border	Available in Thickened Border, Rope-Hemmed Border With Metal Grommets, Tape-Hemmed Border With Metal Grommets
Feature	Heavy-Duty & UV Resistant & Water Resistant & Flame-Retardant (available)
Width	1m, 1.83m(6''), 2m, 2.44(8''), 2.5m, 3m, 4m, 5m,6m, 8m, etc.
Length	20m, 50m, 91.5m(100 yards), 100m, 183m(200 yards), 200m, 250m, 300m, etc.
Packing	Each Roll in Polybag or Woven Bag
Application	Widely used as construction net, anti-animal net, anti-bird net, aquaculture netting, fishing cage net, table tennis net, etc.
Hanging Direction	Vertical

www.Suntenplastic.com

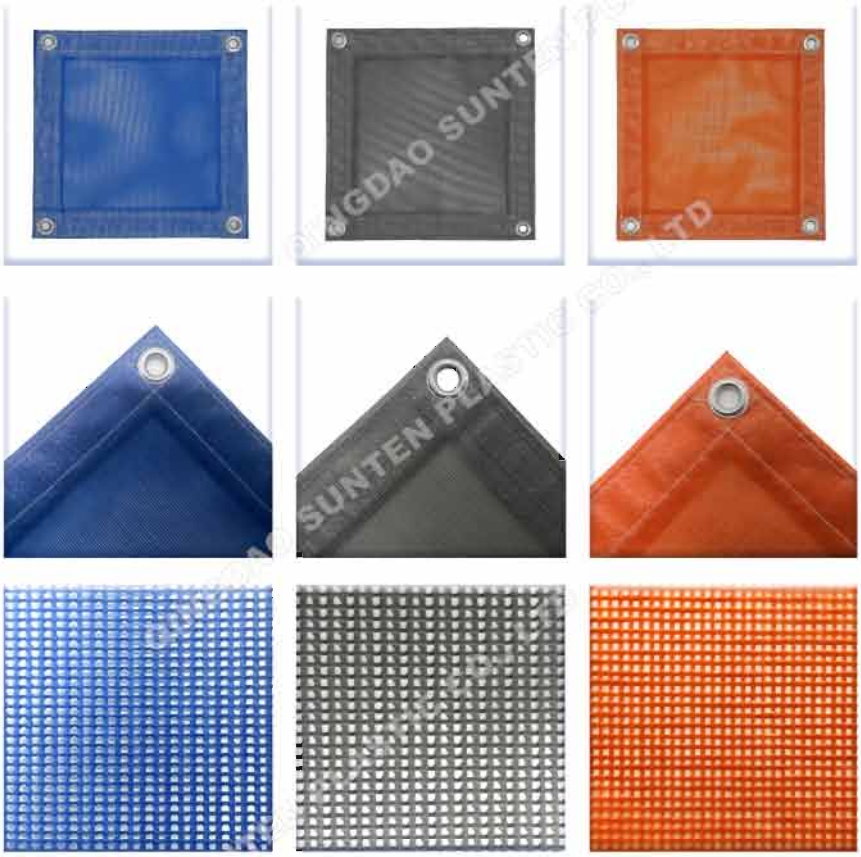

Scaffolding Net (Flat Yarn Type)

Scaffolding Net (Flat Yarn Type) is widely used in various construction sites, especially high-rise buildings, and can be fully enclosed in construction. It can effectively prevent the injury of persons and objects from falling, prevent the fire caused by electric welding sparks, reduce noise and dust pollution. Made of UV-stabilized flat yarn, the net is lightweight, strong, and easy to install, ensuring long service life in harsh weather conditions. According to the different application environments, flame-retardant construction net is needed in certain projects.

Basic Info.

Item Name	Scaffolding Net(Flat Yarn Type),Building Construction Net, Safety Net, Scaffolding Net, Debris Net, Windbreak Net, Safety Netting, Safety Mesh
Material	PE
Color	Green, Blue, Orange, Red, Yellow, Grey, Black, White, etc
Density	40gsm ~ 300gsm
Needle	6 Needle, 7 Needle, 8 Needle, 9 Needle
Weaving Type	Warp-Knitted
Border	Available in Thickened Border, Rope-Hemmed Border With Metal Grommets, Tape-Hemmed Border With Metal Grommets
Feature	Heavy-Duty & UV Resistant & Water Resistant & Flame-Retardant (available)
Width	1m, 1.83m(6''), 2m, 2.44(8''), 2.5m, 3m, 4m, 5m,6m, 8m, etc.
Length	20m, 50m, 91.5m(100 yards), 100m, 183m(200 yards), 200m, 250m, 300m, etc.
Packing	Each Roll in Polybag or Woven Bag
Application	Construction Site
Hanging Direction	Vertical

www.suntenplastic.com

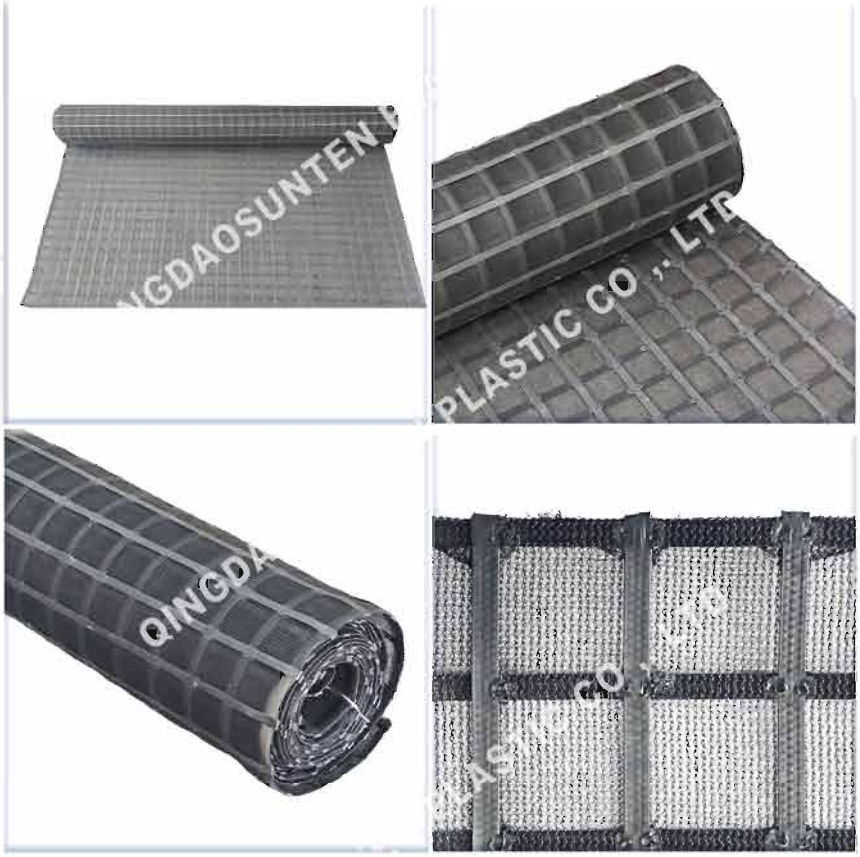

PVC Mesh Sheet

PVC Mesh Sheet (Building Safety Net, Debris Net, Scaffolding Net) is a type of high tenacity of construction net which is made from polyester yarn coated with PVC resin. It is widely used in various construction sites, especially high-rise buildings, and can be fully enclosed in construction. It can effectively prevent the injury of persons and objects from falling, prevent the fire caused by electric welding sparks, reduce noise and dust pollution.

Basic Info.

Item Name	PVC Mesh Sheet, Building Construction Net, Safety Net, Scaffolding Net, Debris Net, Windbreak Net, Safety Netting, Safety Mesh, PVC Mesh, PVC Mesh Net
Material	100% Polyester Yarn with PVC Coating
Color	Blue, Grey, Green, Orange, Red, Yellow, Black, White, etc
Weaving Type	Warp-Knitted & Plain-weave
Border	Tape-Hemmed Border With Metal Grommets
Feature	*High strength, good elasticity, excellent tensile, tear and peel resistance properties. *Good flame redundancy, anti-UV, and anti-oxidation. *High-temperature and cold resistance. *Waterproof, anti-pollution, fireproof, soundproof, dustproof.
Width	0.3m, 0.35m, 0.6m, 0.9m, 1.2m, 1.5m, 1.8m, 3.6m, etc
Length	3.4m, 3.6m, 5.1m, 5.4m, 6.3m, 7.2m, etc
Packing	10 pcs per bale
Application	*To be used as tarpaulin for construction fence, building membrane, and tents for the construction site. *To be used in outdoor advertising light boxes, and exhibition tents. *To be used as tent tarpaulin for vehicles, such as trucks, trains, etc. *To be used as sunshades and leisure tents for entertainment.

Flame Retardant Steel-Plastic Composite Safety Net

Our premium Steel Wire Composite Fencing. Engineered with high-grade steel wire and advanced composite materials using professional weaving technology, this fence delivers exceptional durability, corrosion resistance, and UV protection. Built to withstand the diverse climates it resists rust and aging while featuring an anti-climb design for enhanced security.

Basic Info.

Item Name	Flame Retardant (FR) Steel-Plastic Composite Safety Net, Fire-Resistant Steel-Plastic Composite Safety Net
Material	PP, PE, Polyester (PET)
Density	40gsm~300gsm
Width	1m, 1.5m, 2m, 3m, etc
Length	50M, 100M, 200M, etc
Feature	Heavy-Duty & UV Resistant & Water Resistant & Flame-Retardant (available)
Color	Green, Blue, White, Black, Red, etc
Packing	Each Roll in Polybag or Woven Bag
Application	Construction Site

www.suntenplastic.com

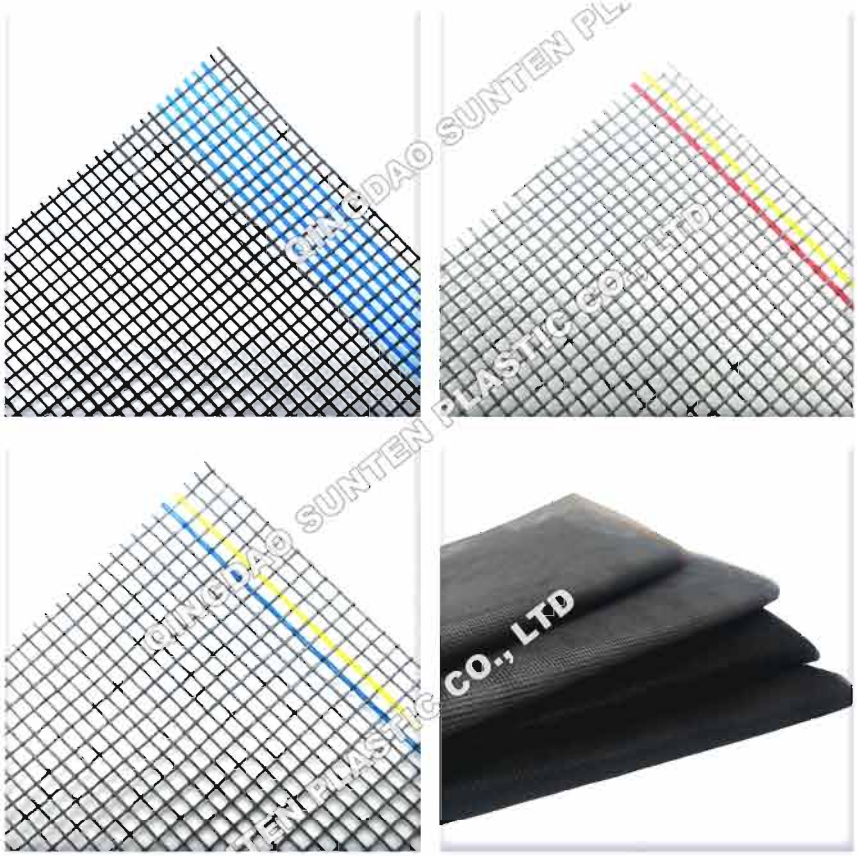

Alkali Resistant Fiberglass Mesh

High-strength alkali-resistant fiberglass mesh is a key material for construction reinforcement. It provides reliable support against cracks and deformation, ideal for external insulation, plastering, and waterproofing layers. Stable under harsh conditions, it maintains shape and performance over time. Eco-friendly, lightweight, and highly durable, it meets international standards for industrial and civil construction

Basic Info.

Item Name	Alkaline Resistant EIFS Glass Fiber Plaster Net, Fiberglass Net,Fiberglass Mesh
Yarn Type	C-Glass
Width	1m-2m
Length	50m, 100m, 200m, 2000m, etc
Color	White,Yellow, Blue, etc
Weight	75g/㎡-160g/㎡
Standing Temperature	0-100°C
Application	Wall Materials

www.suntenplastic.com

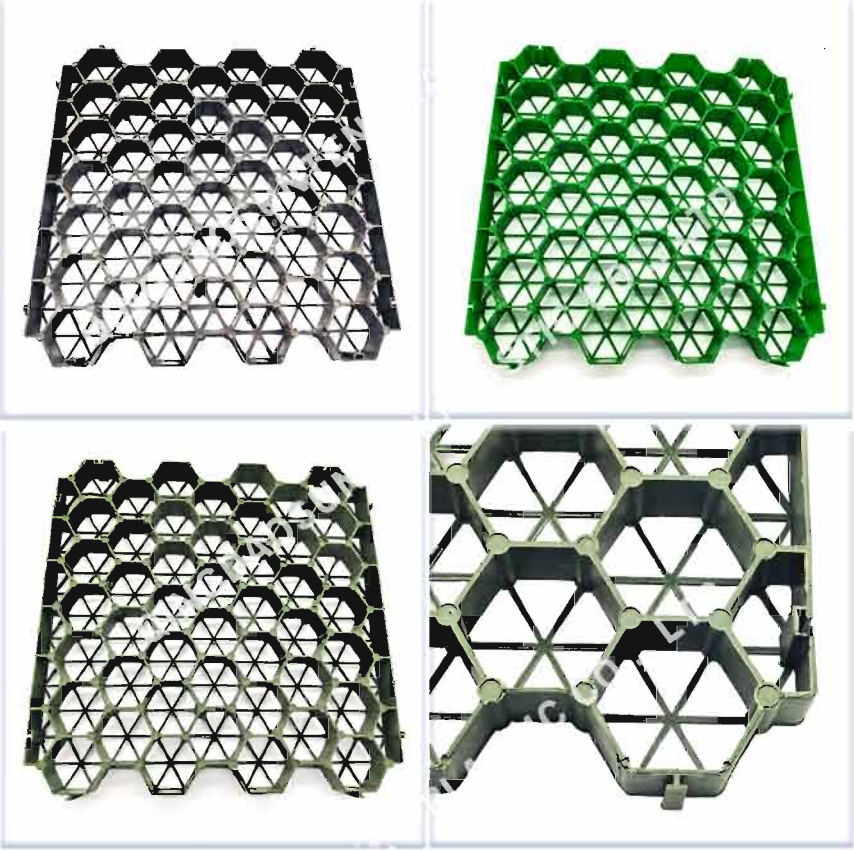

PVC Coated Fiberglass Net

PVC Coated Fiberglass Mesh is knitted by high tenacity of fiberglass yarn that is coated with protective vinyl. The good advantage of this fiberglass net is its flame-retardant feature. Fiberglass screen mesh is regarded as one good window screen material over the last several decades. It can prevent a range of insects(such as Bee, Flying Insect, Mosquito, Malaria, etc) that can be harmful. Compared with metal screen, fiberglass screen is more flexible, durable, colorful, and affordable.

Basic Info.

Item Name	PVC Coated Fiberglass Mesh, Fiberglass Netting, Anti Insect Net(Insect Screen), Insect Netting, Window Screen, Fiberglass Screen Mesh,
Material	Fiberglass Yarn With PVC Coating
Mesh	18 x 16, 18 x 18, 20 x 20, 22 x 22, 25 x 25, 18 x 14, 14 x 14, 16 x 16, 17 x 15, 17 x 14, etc
Color	Light Grey, Dark Grey, Black, Green, White, Blue, etc
Weaving	Plain-weave, Interwoven
Yarn	Round yarn
Width	0.5m-3m
Length	5m, 10m, 20m, 30m, 50m, 91.5m(100 yards), 100m, 183m(6'), 200m, etc.
Feature	Flame-Retardant, High Tenacity & UV Resistant for Durable Usage
Marking Line	Available
Edge Treatment	Strengthen
Packing	Each roll in polybag, then several pcs in woven bag or master carton
Application	*Window and doors *Porches and patios *Pool cages and enclosures *Gazebos ...

www.suntenplastic.com

Honeycomb Grass Grid

Our gravel grid is a high-strength honeycomb structured geocell made of durable polyethylene. It effectively stabilizes gravel, soil, and aggregates, preventing displacement and erosion. With excellent load-bearing capacity, permeability, and corrosion resistance, it is widely used for parking lots, driveways, slopes, and pathways. Easy to install and eco-friendly, it provides long-term stability and reduces maintenance costs for various civil engineering projects.

Basic Info.

Item Name	Honeycomb Grass Grid, Gravel Grass Grid Pavers
Mesh Shape	Hexagonal
Color	Green/Black
Material	HDPE(High-desity polyethylene)
Product Type	Virign material and Recycled Material
Size	500mm*500mm
Application	Soil Reinforcement, Packing Area,Fire Engines,etc

BALE NET WRAP
(CLASSIC WHITE)

BALE NET WRAP
(CLASSIC GREEN)

BALE NET WRAP
(MORE COLORS)

Bale Net Wrap

Bale Net Wrap (Classic White)

Bale Net Wrap (Classic White) is a knitted polyethylene netting manufactured for the wrapping of round crop bales. Currently, bale netting has become an attractive alternative to twine for the wrapping of round hay bales. We have exported Bale Net Wrap to many large-scale farms around the world, especially to the USA, Europe, South America, Australia, Canada, New Zealand, India, Japan, Kazakhstan, Romania, Poland, etc.

Basic Info.

Item Name	Bale Net Wrap(Classic White)
Brand	SUNTEN or OEM
Material	100% HDPE(Polyethylene) With UV-Stabilization
Breaking Strength	Single Yarn(60N at least); Whole Net(2500N/M at least)---Strong for Durable Usage
Color	White, Blue, Red, Green, Orange, etc (OEM in country flag color is available)
Weaving	Raschel Knitted
Needle	1 Needle
Yarn	Tape Yarn(Flat Yarn)
Width	0.66m(26''), 1.22m(48''), 1.23m, 1.25m, 1.3m(51''), 1.62m(64''), 1.7m(67"), etc.
Length	1524m(5000'), 2000m, 2134m(7000''), 2500m, 3000m(9840''), 3600m, 4000m, 4200m, etc.
Feature	High Tenacity & UV Resistant for Durable Usage
Marking Line	Available (Blue, Red, etc)
End Warning Line	Available
Packing	Each roll in a strong polybag With Plastic Stopper and Handle, Then in a Pallet
Other Application	Can also use as pallet net

www.suntenplastic.com

Bale Net Wrap (Classic Green)

Bale Net Wrap (Classic Green) is a knitted polyethylene netting manufactured for the wrapping of round crop bales. Currently, bale netting has become an attractive alternative to twine for the wrapping of round hay bales. We have exported Bale Net Wrap to many large-scale farms around the world, especially to the USA, Europe, South America, Australia, Canada, New Zealand, India, Japan, Kazakhstan, Romania, Poland, etc.

Basic Info.

Item Name	Bale Net Wrap(Classic Green)
Brand	SUNTEN or OEM
Material	100% HDPE(Polyethylene) With UV-Stabilization
Breaking Strength	Single Yarn(60N at least); Whole Net(2500N/M at least)---Strong for Durable Usage
Color	White, Blue, Red, Green, Orange, etc (OEM in country flag color is available)
Weaving	Raschel Knitted
Needle	1 Needle
Yarn	Tape Yarn(Flat Yarn)
Width	0.66m(26''), 1.22m(48''), 1.23m, 1.25m, 1.3m(51''), 1.62m(64''), 1.7m(67''), etc.
Length	1524m(5000'), 2000m, 2134m(7000''), 2500m, 3000m(9840''), 3600m, 4000m, 4200m, etc.
Feature	High Tenacity & UV Resistant for Durable Usage
Marking Line	Available (Blue, Red, etc)
End Warning Line	Available
Packing	Each roll in a strong polybag With Plastic Stopper and Handle, Then in a Pallet
Other Application	Can also use as pallet net

Raschel Shade Net ("V" Shape)

Raschel Shade Net ("V" Shape) is the net that is woven of Tape Yarn only. Sun Shade Net(Also called: Greenhouse Net, Shade Cloth, or Shade Mesh) is manufactured from knitted polyethylene fabric that does not rot, mildew, or become brittle. It can be used for applications such as greenhouses, canopies, wind screens, privacy screens, etc. With different yarn densities, it can be used for different vegetables or flowers with 40%～95% shading rate.

Basic Info.

Item Name	Raschel Shade Net, Sun Shade Net, Sun Shade Netting, 3 needle Raschel Shade Net, PE Shade Net, Shade Cloth, Agro Net, Shade Mesh
Material	PE (HDPE, Polyethylene) With UV-Stabilization
Shading Rate	40%,50%, 60%, 70%, 75%, 80%, 85%, 90%, 95%
Color	Black, Green, Olive Green(Dark Green), Blue, Orange, Red, Grey, White, Beige, etc
Weaving	Raschel Knitted
Needle	1 Needle, 2 Needle, 3 Needle, 4 Needle, 5 Needle, 6 Needle,
Yarn	Tape Yarn(Flat Yarn)
Width	1m, 1.5m, 1.83m(6'), 2m, 2.44m(8''), 2.5m, 3m, 4m, 5m, 6m, 8m, 10m, etc.
Length	5m, 10m, 20m, 50m, 91.5m(100 yards), 100m, 183m(6'), 200m, 500m, etc.
Feature	High Tenacity & UV Resistant for Durable Usage
Edge Treatment	Available With Hemmed Border and Metal Grommets
Packing	By Roll or By Folded Piece

Leno Shade Net ("I" Shape)

Leno Shade Net ("I" Shape) is the net that is weaved by Mono Yarn and Tape Yarn together. Sun Shade Net(Also called: Greenhouse Net, Shade Cloth, or Shade Mesh) is manufactured from knitted polyethylene fabric that does not rot, mildew, or become brittle. It can be used for applications such as greenhouses, canopies, wind screens, privacy screens, etc. With different yarn densities, It can be used for different vegetables or flowers with 40%～95% shading rate.

Basic Info.

Item Name	Mono-Tape Shade Net, Sun Shade Net, Sun Shade Netting, PE Shade Net, Shade Cloth, Agro Net, Shade Mesh
Material	PE (HDPE, Polyethylene) With UV-Stabilization
Shading Rate	40%,50%, 60%, 70%, 75%, 80%, 85%, 90%, 95%
Color	Black, Green, Olive Green(Dark Green), Blue, Orange, Red, Grey, White, Beige, etc
Weaving	Plain Weave
Needle	2 Needle, 1Needle
Yarn	Mono Yarn + Tape Yarn(Flat Yarn)
Width	1m, 1.5m, 1.83m(6'), 2m, 2.44m(8''), 2.5m, 3m, 4m, 5m, 6m, 8m, 10m, etc.
Length	5m, 10m, 20m, 50m, 91.5m(100 yards), 100m, 183m, 200m, 500m, etc.
Feature	High Tenacity & UV Resistant for Durable Usage
Edge Treatment	Available With Hemmed Border and Metal Grommets
Packing	By Roll or By Folded Piece

www.suntenplastic.com

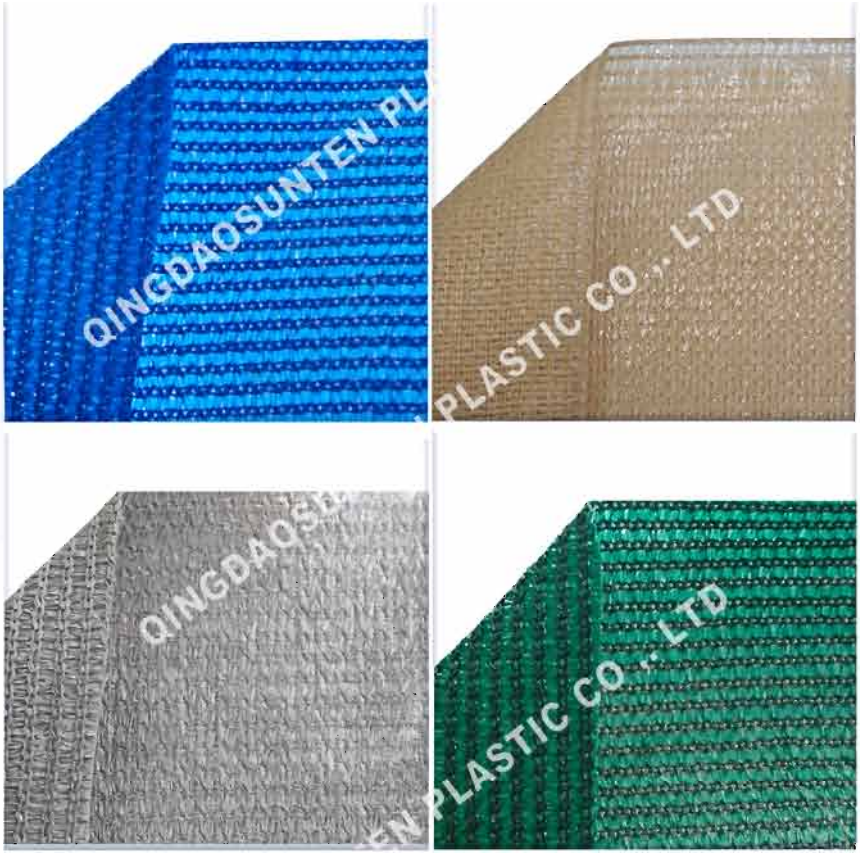

Round Yarn Shade Net

Round Yarn Shade Net is a durable knitted shade fabric made from round yarns, offering high strength, softness, and UV resistance for agricultural and industrial use. Its breathable structure promotes healthy plant growth, and UV-stabilized material ensures long service life outdoors. Available in shading rates from 30% to 95% in various colors, ideal for greenhouses, nurseries, livestock, and construction sites.

Basic Info.

Item Name	Round Yarn Shade Net, Scaffolding Net(Flat Yarn Type),Building Construction Net, Safety Net, Scaffolding Net, Debris Net, Windbreak Net, Safety Netting, Safety Mesh
Material	PE, PP, Polyester(PET)
Color	Green, Blue, Orange, Red, Yellow, Grey, Black, White, etc
Density	40gsm ~ 300gsm
Needle	6 Needle, 7 Needle, 8 Needle, 9 Needle
Weaving Type	Warp-Knitted
Border	Available in Thickened Border, Rope-Hemmed Border With Metal Grommets, Tape-Hemmed Border With Metal Grommets
Feature	Heavy-Duty & UV Resistant & Water Resistant & Flame-Retardant (available)
Width	1m, 1.83m(6''), 2m, 2.44(8''), 2.5m, 3m, 4m, 5m,6m, 8m, etc.
Length	20m, 50m, 91.5m(100 yards), 100m, 183m(200 yards), 200m, 250m, 300m, etc.
Packing	Each Roll in Polybag or Woven Bag
Application	Construction Site
Hanging Direction	Vertical

www.suntenplastic.com

Laminated Water-Proof Shade Net

Film-laminated Shading Net, also called Water-Proof Shade Net, is crafted from durable polyethylene (PE). With professional UV Resistant and anti-oxidant treatment, it boasts outstanding tensile strength, aging resistance, corrosion resistance, and radiation resistance, and is lightweight for easy handling. It effectively blocks sunlight to reduce ambient temperature, retains good air permeability for a fresh environment, and has excellent durability to resist harsh outdoor conditions without easy damage. Simple to install, maintain, cut and fix, it's applicable to agricultural planting (flowers, edible fungi, medicinal herbs), greenhouses, aquaculture, environmental soil covering, sandstorm prevention, and household sun protection for courtyards and carports.

Basic Info.

Item Name	Water-Proof Shade Net, Film-laminated Raschel Sun Shade Net, Shading Net, PE Shade Net, Shade Cloth, Shade Sail, Agro Net, Shade Mesh
Color	Black, Green, Olive Green(Dark Green), Blue, Orange, Red, Grey, White, Beige, etc
Material	PE (Polyethylene) With UV-Stabilization
Shading Rate	60%70%75% 80% 85%,90% 95%
Weaving	Raschel Knitted, Plain Weave, Interweave
Needle	6 Needle, 8 Needle,10 Needle, 12 Needle,etc
Size	Width: 1m, 1.5m, 1.83m(6'), 2m, 2.44m(8''), 2.5m, 3m, 4m, 5m, 6m, 8m, 10m, etc. Length: 5m, 10m, 20m, 50m, 91.5m(100 yards), 100m, 183m(6'), 200m, 500m, etc.
Feature	High Tenacity & UV-Resistant & Water-proof
Edge Treatment	With Hemmed Border and Metal Grommets(Available with tied rope)
Packing	By Roll or By Folded Piece

www.suntenplastic.com

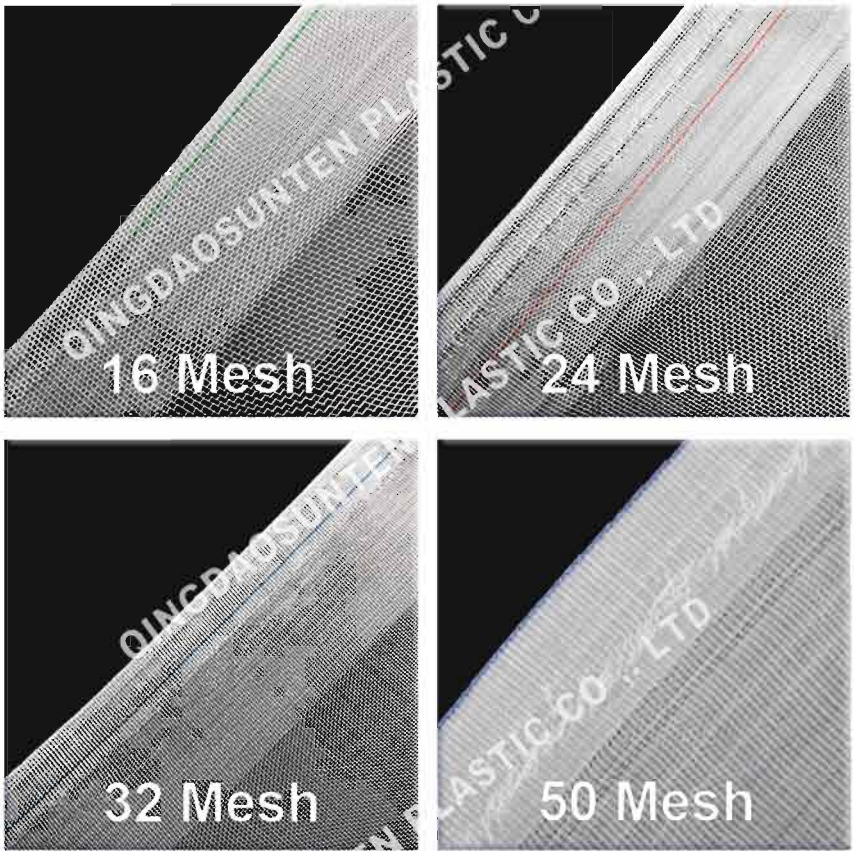

Accessory: Net Clip

Accessory: Net Clip is the clip that is made of high-tenacity plastic through injection production process. It is widely used as a fastener to tighten shade cloth, screens, tarps, and any other types of knitted fabrics. This is a fast and easy way to attach your net or fabric to a variety of fixtures due to the clips' flexible gripping teeth.

Basic Info.

Item Name	Shade Net Clip, Garden Net Clip, Shade Cloth Clip, Shade Net Pin, Shade Cloth Pin
Shape	Round, Triangle, Butterfly, etc
Color	Black, Green, Olive Green(Dark Green), Blue, White, etc
Material	Plastic With UV-Stabilization
Production Process	Injection
Size	Various sizes available for each shape
Feature	High bite force, anti-aging, acid and alkali resistant, eco-friendly and odorless
Packing	Several pieces per bag, several bags per carton
Application	For fixing any knitted fabric like shade net, fence net, insect net, hail net, etc.

www.suntenplastic.com

Insect Net

Anti Insect Net (Insect Screen) provides protection from a range of insects(such as Aphid, Bee, Flying Insect, Mosquito, etc) that can be harmful. This preventive method reduces the cost of pesticides for organic and natural crop cultivation, also widely used as window screen, Anti Hail Net, Crop Pests or Fogs Proof Net, etc.

Basic Info.

Item Name	Insect Net, Anti Insect Net(Insect Screen), Insect Netting, Window Screen, Anti Bee Net, Mosquito Net
Material	PE (HDPE, Polyethylene) With UV-Stabilization
Mesh	16mesh, 24mesh, 32mesh, 50mesh, etc.
Color	White, Blue, Black, Green, Grey, etc
Weaving	Plain-weave, Interwoven
Yarn	Round Yarn
Width	0.8m-10m
Length	5m, 10m, 20m, 50m, 91.5m(100 yards), 100m, 183m, 200m, 500m, etc.
Feature	High Tenacity & UV Resistant for Durable Usage
Edge Treatment	Strengthen
Packing	By Roll or By Folded Piece

www.suntenplastic.com

Blue Drying Net

Blue Drying Net is a durable mesh net designed for drying grains, seafood, and other agricultural products in the sun. Made of UV-resistant material, it provides excellent airflow for even, fast drying while keeping products clean and protected from dust, birds, and insects. The net is lightweight, easy to spread and roll up, and resists wear in repeated outdoor use. Available in various sizes and mesh openings to suit different drying needs.

Basic Info.

Item Name	Blue Drying Net, Multi-Purpose Nylon Net (Nylon Screen), Anti Insect Net(Insect Screen), Insect Netting, Window Screen
Material	PE (HDPE, Polyethylene) With UV-Stabilization
Mesh	16mesh, 24mesh, 32mesh, etc.
Color	Blue, White, Black, Green, Grey, etc
Weaving	Plain-weave, Interwoven
Yarn	Round yarn
Width	0.8m-10m
Length	5m, 10m, 20m, 50m, 91.5m(100 yards), 100m, 183m, 200m, 500m, etc.
Feature	High Tenacity & UV Resistant for Durable Usage
Edge Treatment	Strengthen
Packing	By Roll or By Folded Piece
Application	1. Drying rice or seafood like fish, shrimp, etc. 2. To make the fish cage, frog cage, etc. 3. To use as a barrier at the edge of the pond. 4. For building the coop to breed animals like chickens, ducks, dogs, etc. 5. For preventing insects when in growing vegetables and flowers, etc. For stock gravels in construction.
Popular Market	Thailand, Myanmar, Cambodia, Bangladesh, etc.

PE Shade Sail

PE Shade Sail is a type of very dense sun shade net . So this type of shade sail has a good sunshade and waterproof effect. This type of shade net is widely used in private gardens due to its exquisite packaging. Sun shade sail is manufactured from knitted polyethylene fabric that does not rot, mildew, or become brittle. It can be used for applications such as canopies, windscreens, privacy screens, etc.

Basic Info.

Item Name	Shade Sail, Sun Shade Sail, PE Shade Sail, Shade Cloth, Canopy, Shade Sail Awning
Material	PE (HDPE, Polyethylene) With UV-Stabilization
Shading Rate	⩾95%
Shape	Triangle, Rectangle, Square
Size	*Triangle shape: 2*2*2m, 2.4*2.4*2.4m, 3*3*3m, 3*3*4.3m, 3*4*5m, 3.6*3.6*3.6m, 4*4*4m, 4*4*5.7m, 4.5*4.5*4.5m, 5*5*5m, 5*5*7m, 6*6*6m, etc *Rectangle: 2.5*3m, 3*4m, 4*5m, 4*6m, etc *Square: 3*3m, 3.6*3.6m, 4*4m, 5*5m, etc
Color	Beige, Sand, Rust, Cream, Ivory, Sage, Purple, Pink, Lime, Azure, Terracotta, Charcoal, Orange, Burgundy, Yellow, Green, Black, Blackish Green, Red, Brown, Blue, assorted colors, etc
Weaving	Warp Knitted
Density	160gsm, 185gsm, 280gsm, 320gsm, etc
Yarn	*Round Yarn + Tape Yarn(Flat Yarn) *Tape Yarn(Flat Yarn) + Tape Yarn(Flat Yarn) *Round Yarn + Round Yarn
Feature	High tenacity & UV treatment & Water proof(Available)
Edge & Corner Treatment	*With hemmed border and metal grommets(available with tied rope) *With stainless D-Ring for corners
Packing	Each piece in PVC bag, then several pcs in master carton or woven bag
Application	Widely used in patio, garden, pool, lawn, BBQ areas, pond, deck, Kitchen yard courtyard, backyard, dooryard, park, carport, sandbox, pergola, driveway, or other outdoor occasions

www.suntenplastic.com

Polyester Shade Sail

Polyester Shade Sail is a type of shade net which is made of high-strength polyester yarn(Oxford yarn). So this type of shade sail has a good sunshade and waterproof effect. This type of shade net is widely used in like personal gardens due to its exquisite packaging. Polyester fabric does not rot, mildew, or become brittle easily, so it can be used for applications such as canopies, windscreens, privacy screens, etc.

Basic Info.

Item Name	Polyester Shade Sail, Oxford Waterproof Shade Sail, Polyester Waterproof Shade Sail, Shade Cloth, Canopy, Shade Sail Awning
Material	Polyester(Oxford) With UV-Stabilization
Shading Rate	⩾95%
Shape	Triangle, Rectangle, Square
Size	*Triangle shape: 2*2*2m, 2.4*2.4*2.4m, 3*3*3m, 3*3*4.3m, 3*4*5m, 3.6*3.6*3.6m, 4*4*4m, 4*4*5.7m, 4.5*4.5*4.5m, 5*5*5m, 5*5*7m, 6*6*6m, etc *Rectangle: 2.5*3m, 3*4m, 4*5m, 4*6m, etc *Square: 3*3m, 3.6*3.6m, 4*4m, 5*5m, etc
Color	Beige, Sand, Rust, Cream, Ivory, Sage, Purple, Pink, Lime, Azure, Terracotta, Charcoal, Orange, Burgundy, Yellow, Green, Black, Blackish Green, Red, Brown, Blue, assorted colors, etc
Density	160gsm, 185gsm, 280gsm, 320gsm, etc
Yarn	Round Yarn
Feature	High tenacity & UV treatment & Waterproof
Edge & Corner Treatment	*With hemmed border and metal grommets(available with tied rope) *With stainless D-Ring for corners
Packing	Each piece in PVC bag, then several pcs in master carton or woven bag
Application	Widely used in patio, garden, pool, lawn, BBQ areas, pond, deck, kailyard, courtyard, backyard, dooryard, park, carport, sandbox, pergola, driveway, or other outdoor occasions

Trellis Net(Knotless)

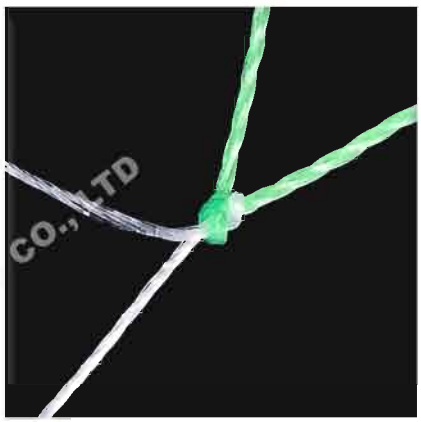

Trellis Net (Knotless) is a type of heavy-duty netting which is weaved with knot connection for each mesh hole. It is woven in twisted rope by the machine usually. The main advantage of this type of plant climbing net is its high tenacity and durability in the environment with extreme ultraviolet light. The plant support net is widely used for many different Vine climbing plants, such as cucumber, bean, tomato, french beans, chili, pea, peppers, and long-stemmed flowers(such as freesia, chrysanthemum, carnation), etc.

Basic Info.

Item Name	Trellis Net(Knotless), Plant Support Net, Plant Climbing Net, Trellis Net, Garden Trellis Netting, Trellis Mesh, Cucumber Net, PE Vegetable Net, Agriculture Net
Structure	Knotless
Mesh Shape	Square, Diamond
Material	High Tenacity of Polyester, Nylon, etc
Width	0.9m, 1.5m, 1.8m, 2m, 2.4m, 3m, 3.6m, 4m, 6m, 8m, etc
Length	1.8m, 2.7m, 3.6m, 5m, 6.6m, 18m, 36m, 50m, 60m, 100m, 180m, 210m, etc
Mesh Hole	10cm x 10cm, 15cm x 15cm, 18cm x 18cm, 20cm x 20cm, 24cm x 24cm, 36cm x 36cm, 42cm x 42cm, etc
Color	White, Black, etc
Border	Reinforced Edge
Corner Rope	Available
Feature	High Tenacity & UV Resistant & Water Resistant
Hanging Direction	Vertical, Horizontal
Packing	Each piece in polybag, several pcs in woven bag or master carton
Application	Widely used for many different Vine climbing plants, such as cucumber, bean, tomato, french beans, chili, pea, peppers, and long-stemmed flowers (such as freesia, chrysanthemum, carnation), etc.

www.suntenplastic.com

Trellis Net (Knotted)

Trellis Net (Knotted) is a type of heavy-duty netting which is woven with knot connection for each mesh hole. It is weaved in twisted rope by the machine usually. The main advantage of this type of plant climbing net is its high tenacity and durability in the environment with extreme ultraviolet light. The plant support net is widely used for many different Vine climbing plants, such as cucumber, bean, eggplant, tomato, french beans, chili, pea, peppers, and long-stemmed flowers(such as freesia, :hrysanthemum, carnation), etc.

Basic Info.

Item Name	Trellis Net(Knotted), Plant Support Net, Plant Climbing Net, Trellis Net, Garden Trellis Netting, Trellis Mesh, Cucumber Net, Vegetable Net, Agriculture Net
Structure	Knotted
Mesh Shape	Square, Diamond
Material	PE(HDPE, Polyethylene) With UV Resin, Polyester, Nylon, etc
Width	0.9m, 1.5m, 1.8m, 2m, 2.4m, 3m, 3.6m, 4m, 6m, 8m, etc
Length	1.8m, 2.7m, 3.6m, 5m, 6.6m, 18m, 36m, 50m, 60m, 100m, 180m, 210m, etc
Mesh Hole	10cm x 10cm, 15cm x 15cm, 18cm x 18cm, 20cm x 20cm, 24cm x 24cm, 36cm x 36cm, 42cm x 42cm, etc
Color	Green, White, Blue, Black, White/Green, Black/Red, White/Blue, Green/White/Red, etc.
Border	Reinforced Edge
Corner Rope	Available
Feature	High Tenacity & UV Resistant & Water Resistant
Hanging Direction	Vertical, Horizontal
Packing	Each piece in polybag, several pcs in woven bag or master carton
Application	Widely used for many different Vine climbing plants, such as cucumber, bean, eggplant, tomato, french beans, chili, pea, peppers, and long-stemmed flowers(such as freesia, chrysanthemum, carnation), etc.

www.suntenplastic.com

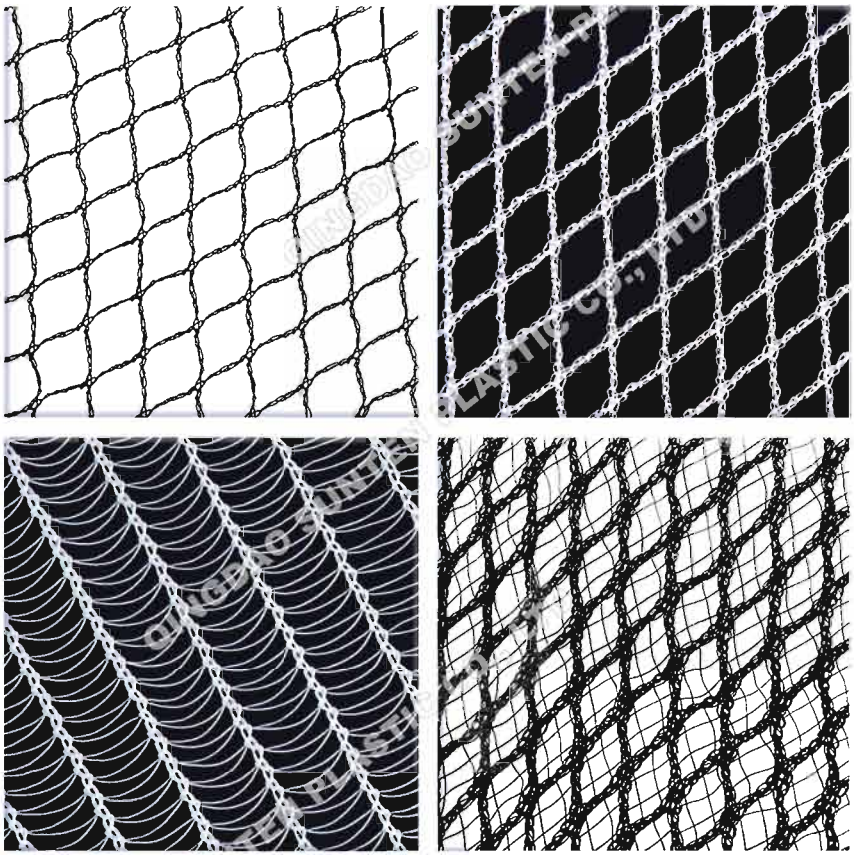

Trellis Net (Bop)

Trellis Net (Bop) is a strong vertical support net for climbing plants such as cucumbers, tomatoes, beans, and melons in greenhouses and open fields. The net guides plants upward, saving space, improving airflow, and reducing disease and pest damage for higher yields. Made of durable, UV-resistant yarn, it lasts several growing seasons and is easy to install, cut, and remove. Available in various mesh sizes, widths, and lengths to fit different crops and trellis systems.

Basic Info.

Item Name	Trellis Net(Bop), Plant Support Net, Plant Climbing Net, Trellis Net, Garden Trellis Netting, Trellis Mesh, Cucumber Net, Vegetable Net, Agriculture Net
Structure	Bop (Bi-Oriented Polypropylene)
Mesh Shape	Square
Material	PP (Polypropylene), PE (Polyethylene)
Width	0.9m, 1.5m, 1.8m, 2m, 2.4m, 3m, 3.6m, 4m, 6m, 8m, etc
Length	1.8m, 2.7m, 3.6m, 5m, 6.6m, 18m, 36m, 50m, 60m, 100m, 180m, 210m, etc
Mesh Hole	10cm x 10cm, 15cm x 15cm, 18cm x 18cm, 20cm x 20cm, 24cm x 24cm, 36cm x 36cm, 42cm x 42cm, etc
Color	White, Black, etc
Border	Reinforced Edge
Corner Rope	Available
Feature	High Tenacity & UV Resistant & Water Resistant
Hanging Direction	Vertical, Horizontal
Packing	Each piece in polybag, several pcs in woven bag or master carton
Application	Widely used for many different Vine climbing plants, such as cucumber, bean, eggplant, tomato, french beans, chili, pea, peppers, and long-stemmed flowers(such as freesia, chrysanthemum, carnation), etc.

Anti Hail Net

Anti Hail Net is high-density polyethylene mesh. It is lightweight yet features outstanding strength and flexibility. Designed to shield vine crops and fruit trees from hail damage, this hail netting is widely applied in vineyards and fruit orchards for peaches, plums, apples and other fruits. It can also serve as bird netting for multi-purpose use.

Basic Info.

Item Name	Anti Hail Net, Anti Hail Netting, Hail Protection Net(can also be used as bird net)
Material	HDPE(PE, Polyethylene) With UV Stabilizer
Mesh Shape	Diamond, Crescent, Cross, Intersecting Parallels
Size	2m x 80 yard, 3m x 80 yard, 4m x 80 yard, 6m x 80 yard, etc
Weaving Style	Warp-knitted
Color	Black, White, Green, etc
Border Treatment	Reinforced Border Available
Feature	High Tenacity & UV Resistant & Water Resistant
Hanging Direction	Both Horizontal & Vertical Direction Available
Packing	Polybag or Woven Bag or Box

www.Suntenplastic.com

Olive Net

Olive Net is a type of warp-knitted plastic net which is for catching falling olive. The olive catching net is laid around the tree to catch falling fruit during harvest, to reduce the scratching between olive and ground.

Basic Info.

Item Name	Olive Net, Olive Netting, Olive Mesh, Olive Picking Net, Olive Harvest Net, Olive Collection Net, Olive Catching Net
Material	PE(Polyethylene) With UV Treatment
Color	Dark Green(Green Grey), etc
Density	40gsm ~ 300gsm
Needle	2needle, 3 needle, 6 Needle, 7 Needle, 8 Needle, 9 Needle
Weaving Type	Warp-Knitted, available with the opening hole in the middle of the net
Border	Available in Thickened Border, Rope-Hemmed Border With Metal Grommets, Tape-Hemmed Border With Metal Grommets
Feature	Heavy-Duty & UV Resistant & Water Resistant
Size	3m x 6m, 4m x 8m, 5m x 10m, 6m x6m, 6m x 8m, 6m x 10m, 6m x 12m, 7m x 14m, 8m x 8m, 8m x 10m, 8m x 12m, 10m x 10m, 10m x 12m, 12m x 12m, 4m x 50m, 4m x 100m, 5m x 50m, 6m x 50m, 6m x 100m, 7m x 50m, 7m x 100m, 8m x 50m, 8m x 100m, etc
Packing	Each Roll in Polybag or Woven Bag
Application	Olive Garden
Hanging Direction	Horizontal

Sports Enclosure Netting (Sports Court Net)

Sports Court Net is heavy duty protective netting engineered for stadiums, backyard courts and multi sport venues. Made of chemical fibers, it delivers outstanding impact resistance, weather tolerance and anti fray performance for longterm outdoor service. This netting prevents property damage and improves player safety without blocking sightlines. Reinforced edges enhance tensile strength to withstand frequent ball strikes. Custom mesh sizes and dimensions are available to fit tennis, basketball, soccer and other sports courts. Lightweight and easy to install, it is a practical barrier solution for commercial sports facilities and private training areas alike.

Basic Info.

Item Name	Sports Enclosure Netting, Sports Court Netting, Sports Fencing, Stadium Fence
Type	Knotted or Knotless
Color	Black, Green, Blue, White, Red, Yellow, Orange, etc
Material	PE, PP, Polyester, Nylon, Aramid, UHMWPE, etc
Diameter	0.5-20mm
Mesh Hole	≥0.5 X 0.5CM
Mesh Shape	Square, Diamond, Hexagonal
Border	Rope Border, Webbing Border
Corner Rope	Available
Feature	High Tenacity & UV Resistant & Water Resistant & Flame-Retardant(Available), etc
Application	Indoor & Outdoor for Multi-Purpose

www.suntenplastic.com

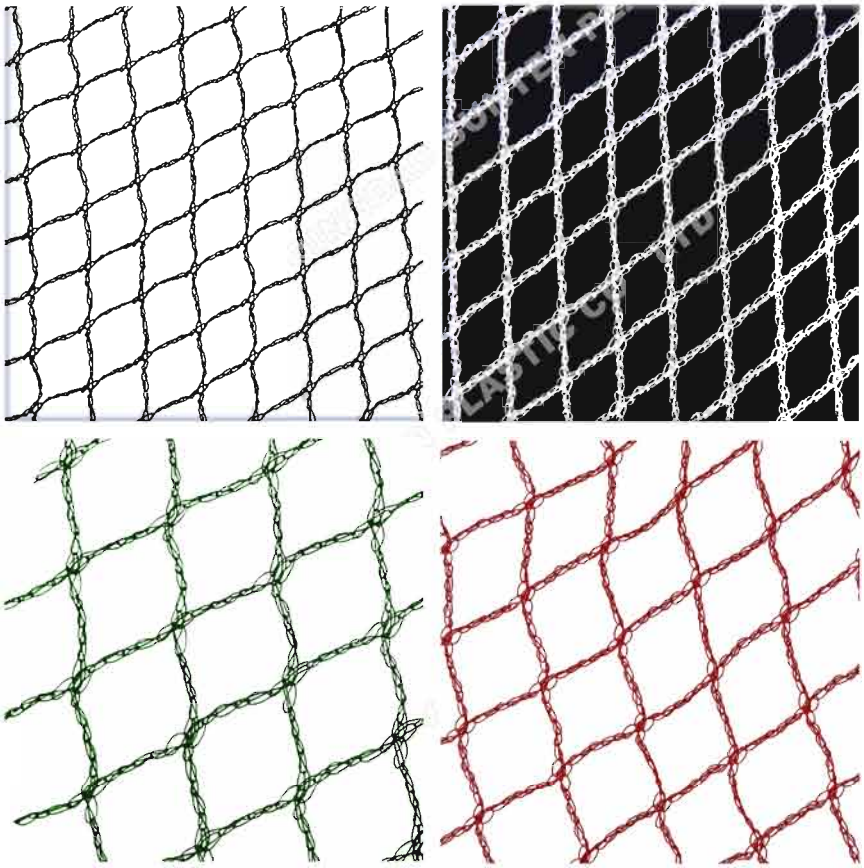

PE Bird Net

PE Bird Net (Bird Netting) is a form of bird pest control. It is a net used to prevent birds from reaching certain areas. Black Color is the most common color (as the black UV inhibitor offers the best protection against solar rays), but also may be available in other colors like white (usually white netting is made in an even smaller mesh size as it will serve as a double purpose like anti-hail net for the protection of fruits during summer hail storms or late spring during flowering) or green (usually used in home gardening and mostly sold at retail outlets for the DIY farmers).

Basic Info.

Item Name	Anti Bird Net, Anti Bird Netting, Bird Control Net, Vineyard Net, Pigeon Net, PE Bird Net, Nylon Bird Net, Poultry Net, Chicken Net
Material	HDPE(PE, Polyethylene) With UV Stabilizer
Mesh Size	For Small Bird: 1cm x 1cm, 1.5 x 1.5cm, 1.9cm x 1.9cm, 2cm x 2cm, etc. For Big Bird: 4cm x 4cm, 5cm x 5cm, etc.
Size	25ft x 50ft(7.62m x 15.24m), 50x50ft(15.24m x 15.24m), etc
Twine Thickness	1mm~2mm, etc.
Color	Black, Green, GG(Green Grey), White, Beige(Brown), etc
Mesh Shape	Diamond or Square
Border Treatment	Available In Thicker Border Rope Going Through
Feature	High Tenacity & UV Resistant & Water Resistant & Flame-Retardant (available)
Hanging Direction	Both Horizontal & Vertical Direction Available
Packing	Polybag or Woven Bag or Box

www.suntenplastic.com

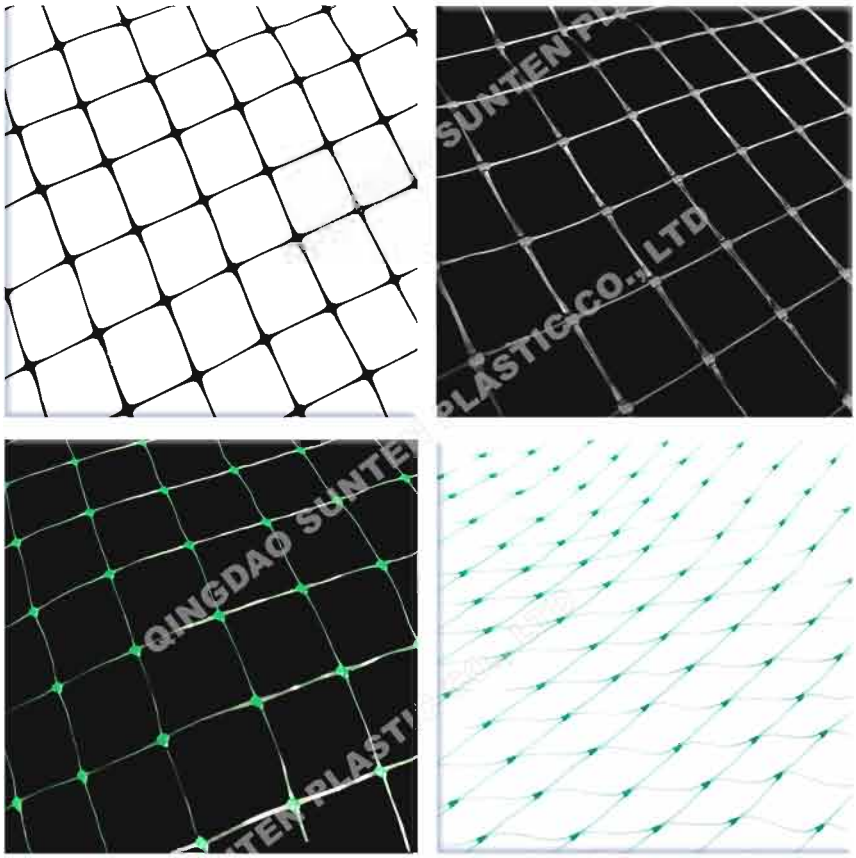

Raschel Bird Net

Raschel Bird Net is a high density of polyethylene mesh that is light but with superior strength and flexibility. It is used to protect vine crops and fruit trees against the damage that can be caused by bird. This bird netting is ideal for the protection of vineyards and fruit orchards, such as peaches, plums, and apples, among others. Besides, this net can be also used as anti hail net.

Basic Info.

Item Name	Anti Bird Net, Anti Bird Netting, Bird Protection Net, Knotless Bird Net, Knotless Bird Netting
Material	HDPE(PE, Polyethylene) With UV Stabilizer
Mesh Shape	Diamond, Crescent, Cross, Intersecting Parallels
Size	2m x 80 yard, 3m x 80 yard, 4m x 80 yard, 6m x 80 yard, etc
Weaving Style	Warp-knitted
Color	Black, White, Green, etc
Border Treatment	Reinforced Border Available
Feature	High Tenacity & UV Resistant & Water Resistant
Hanging Direction	Both Horizontal & Vertical Direction Available
Packing	Polybag or Woven Bag or Box

www.suntenplastic.com

BOP Bird Net

BOP Extruded Bird Net (Bird Netting) is an extruded plastic net that is suitable for the protection of crops against all types of birds and is also widely used in poultry containment applications. Black Color is the most common color (as the black UV inhibitor offers the best protection against solar rays), but also may be available in other colors like white or green.

Basic Info.

Item Name	Anti Bird Net, Anti Bird Netting, Bird Control Net, Vineyard Net, Pigeon Net, PE Bird Net, Nylon Bird Net, BOP Stretched Netting, Deer Net, Deer Netting, Poultry Net, Chicken Net
Material	PP(Polypropylene) or PE(Polyethylene) + UV Stabilizer
Mesh Size	1cm~4cm(15*15mm, 20*20mm, 16*17mm, 30*30mm, etc)
Width	1m~5m
Length	50m~1000m
Twine Thickness	0.5mm~2mm, etc
Color	Black, Transparent, Green, Olive Green, White, etc
Mesh Shape	Square, Diamond
Feature	High Tensile Strength, Aging Resistant, Anti-Erosion
Hanging Direction	Both Horizontal & Vertical Direction Available
Packing	Folded bale: Each piece in bag, several pieces in box. By roll: Each roll in one strong polybag.
Application	1. For anti bird in agriculture, gardening, Vineyard, etc. 2. For containment of poultry(As chicken Net, duck Net, etc) or Animal(As Deer Net/Netting, Mole Net/Netting, Rabbit Fence/Net/Netting, etc). 3. Reinforcement Ribs of Compound Materials.

www.suntenplastic.com

PE Mono Bird Net

PE Monofilament Bird Net (Anti-Bird Net) is made of high-quality HDPE via tightly knotted weaving, with uniform mesh size and tight structure, which can block birds of different sizes while ensuring air circulation. It is highly corrosion-resistant, able to resist erosion from pesticides and fertilizers, and suitable for long term use in farms and orchards. Lightweight and easy to handle, it can be quickly installed on various supports. As an essential anti-bird tool, it protects crops, aquatic products, and seedlings, reducing losses and providing reliable protection for agricultural and aquaculture development.

Basic Info.

Item Name	PE Monofilament Bird Net , Anti Bird Net, Anti Bird Netting, Bird Control Net, Pigeon Net, PE Bird Net, Poultry Net
Material	HDPE(PE, Polyethylene) With UV Stabilizer
Mesh Shape	Square Mesh
Color	Black, Green, GG(Green Grey), White, Beige(Brown), etc
Twine Thickness	0.3mm~2mm,etc.
Mesh Size	For Small Bird: 1cmx1cm,1.5 x1.5cm,1.9cm x 1.9cm,2cm x 2cm, etc.
Hanging Direction	Both Horizontal & Vertical Direction Available
Feature	High Tenacity & UV Resistant & Water Resistant & Flame-Retardant (available)
Packing	By Roll,Polybag , Woven Bag or Box

www.suntenplastic.com

Accessory: Cable Tie

Accessory: Cable Tie is a type of high-tenacity of a plastic or stainless steel tie for tying objects conveniently. It is widely used to bundle plastic nets (like bird net), cables, wires, conducts, lighting, hardware, pharmaceutical, chemical, machinery, agriculture, etc.

Basic Info.

Item Name	Accessory: Cable Tie, Cable Tie, Nylon Cable Tie, PA Cable Tie, Self-locking nylon tie
Shape	Round, Triangle, Butterfly, etc
Color	Black, Green, Olive Green(Dark Green), Blue, White, etc
Material	Nylon(PA66, PA6), Stainless Steel
Production Progress	Injection
Width	2.5mm, 3.6mm, 4.6mm, 4.8mm, 6.8mm, 7.6mm, 8.7mm, etc
Length	3.2''(80mm)~40.2''(1220mm)
Tensile Strength	8KGS(18LBS)~80KG(175LBS)
Feature	Self Locking, anti-aging, acid, and alkali resistant, eco-friendly and odorless
Packing	100 pieces per bag, several bags per carton
Application	Widely used to bundle plastic net(like bird net), cables, wires, Conductors, lighting, hardware, pharmaceutical, chemical, machinery, agriculture, etc

www.Suntenplastic.com

Cat Net

Steel Wire Reinforced Anti Fall Cat Net is the ideal solution for cat owners and pet product wholesalers in high-rise buildings. Made of high-quality PE/Polyethylene and reinforced with corrosion-resistant steel wires, this Anti-fall Cat Safety Net is tear-proof, chew-resistant and weather-resistant, ensuring strong protection against cat falls. With appropriately sized mesh, it won't block ventilation or views, and is easy to DIY install without professional tools. We offer customized options, strict quality control, and professional service. Choose it for reliable pet protection—welcome to inquire for samples and quotes!

Basic Info.

Item Name	Steel Wire-Reinforced PE/Polyethylene Anti-fall Cat Balcony/Window Safety Net
Diameter	600D/9ply+1 Piece Steel Wire, 380D/12ply + 1 Piece Steel Wire
Color	Green, Blue, White, Black, Red, etc
Material	PP, PE, Polyester, Nylon + Steel Wire
Mesh Size	1.9cm x 1.9cm, 2.0cm x 2.0cm, 3.0cm x 3.0cm, etc
Width	1m, 1.5m, 2m, 3m, etc
Length	10M, 15M, 20M, 25M, 50M, 100M, 200M, etc
Feature	High Tenacity & UV Resistant & Water Resistant
Packing	In Strong Polybag or PP Bag, then into Master Carton
Application	Cat Safety Net, Balcony Protective Net

www.suntenplastic.com

Plastic Warning Net

Plastic Warning Net is a type of plastic warning barrier which is for warning purposes. The plastic mesh(barrier netting) is widely used in many different fields, such as construction sites, warning and restricted areas, hazardous walk areas, underground utilities(protection for pipelines and cables), demolition sites, open excavations, roadways, or in the crowd control environment, stadium, fairs, concerts, etc.

Basic Info.

Item Name	Plastic Warning Net, Safety Fence, Warning Barrier, Snow Fence, Plastic Mesh, Garden Barrier Fence, Construction Fence, Road Safety Fence, Garden Fence, Farm Fence, Construction Fence, Underground Warning Mesh
Mesh Shape	Rectangular, Oval ,Diamond
Material	PE(HDPE, Polyethylene) with UV
Mesh Hole	10mm x 10mm, 20mm x 20mm, 40 x 40mm, 45mm x 45mm, 50mm x 35mm, 65mm x 35mm, 70mm x 40mm, 70mm x 45mm, 80mm x 40mm, 80mm x 65mm, 90mm x 26mm, 92mm x 40mm, 100mm x 30mm, 100mm x 40mm, 100mm x 26mm, 120mm x 26mm, 120mm x 40mm, etc
Width	0.2m-1.8m, such as 0.2m, 0.3m, 0.5m, 0.6m(2ft), 0.7m, 0.9m(3ft), 1m, 1.2m(4ft), 1.5m, 1.8m, etc
Length	15m(50ft), 30m(100ft), 35m, 50m, 100m, 300m, etc
Color	Orange, Green, Dark Green(Olive Green), Black, White, Red, Yellow, Blue, etc.
Feature	High Tenacity, UV Resistant, Anti-corrosion, Water Resistant, Re-usable, Highly Visible, Lightweight, Flexible
Hanging Direction	Vertical
Application	Barrier netting in such as construction sites, warning, and restricted areas, hazardous walk areas, underground utilities(protection for pipelines and cables), demolition sites, open excavations, roadways, or in the crowd control environment, stadium, fairs, concerts, etc

www.suntenplastic.com

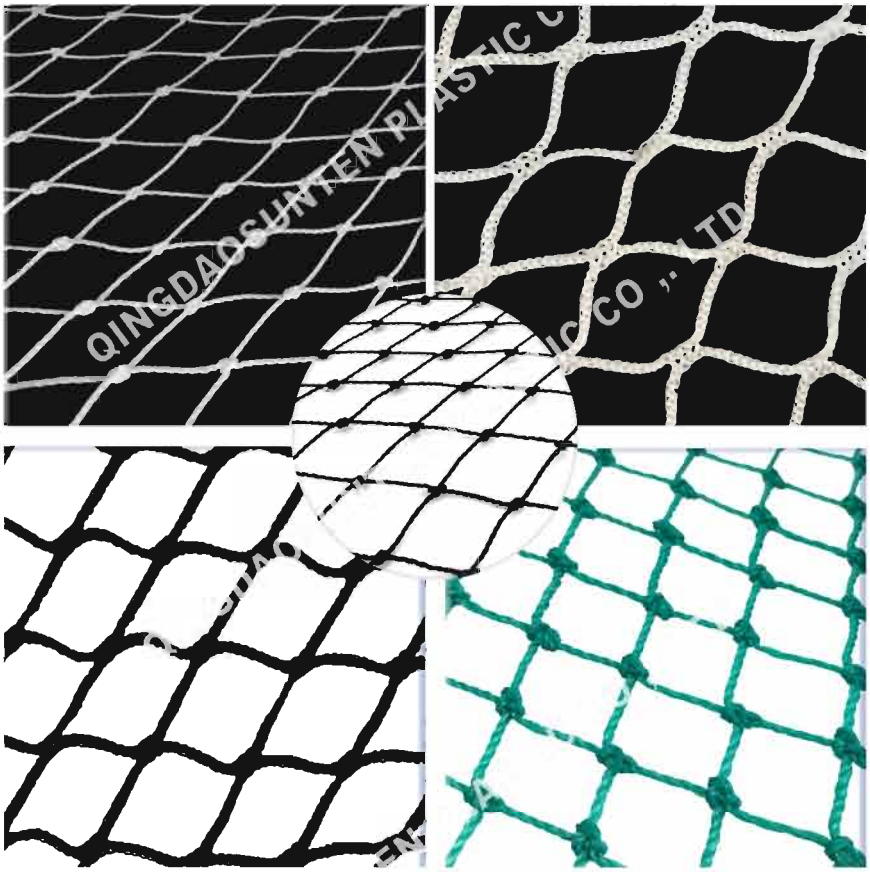

Raschel Warning Net

Raschel Warning Net is the net that is weaved by tape yarn in the raschel knitted method. Raschel Warning Net is manufactured from knitted polyethylene fabric that does not rot, mildew, or becomes brittle. It can be used for applications such as construction sites, warning and restricted areas, hazardous walk areas, demolition sites, roadways, or in the crowd control environment, stadiums, fairs, concerts, etc.

Basic Info.

Item Name	Raschel Warning Net, Warning Net, Warning Mesh
Material	PE (HDPE, Polyethylene) With UV-Stabilization
Shading Rate	50%
Color	Yellow and Orange
Weaving	Raschel weaving
Yarn	Tape Yarn (Flat Yarn)
Width	0.9m, 1m, 1.5m, 1.83m(6'), 2m, 2.44m(8''), 2.5m, 3m, 4m, 5m, 6m, 8m, 10m, etc.
Length	5m, 10m, 20m, 50m, 91.5m(100 yards), 100m, 183m, 200m, 500m, etc.
Feature	High Tenacity & UV Treatment & Water Resistant & Flame-Retardant (available)
Edge Treatment	Available With Hemmed Border and Metal Grommets
Packing	Each roll in strong polybag

www.suntenplastic.com

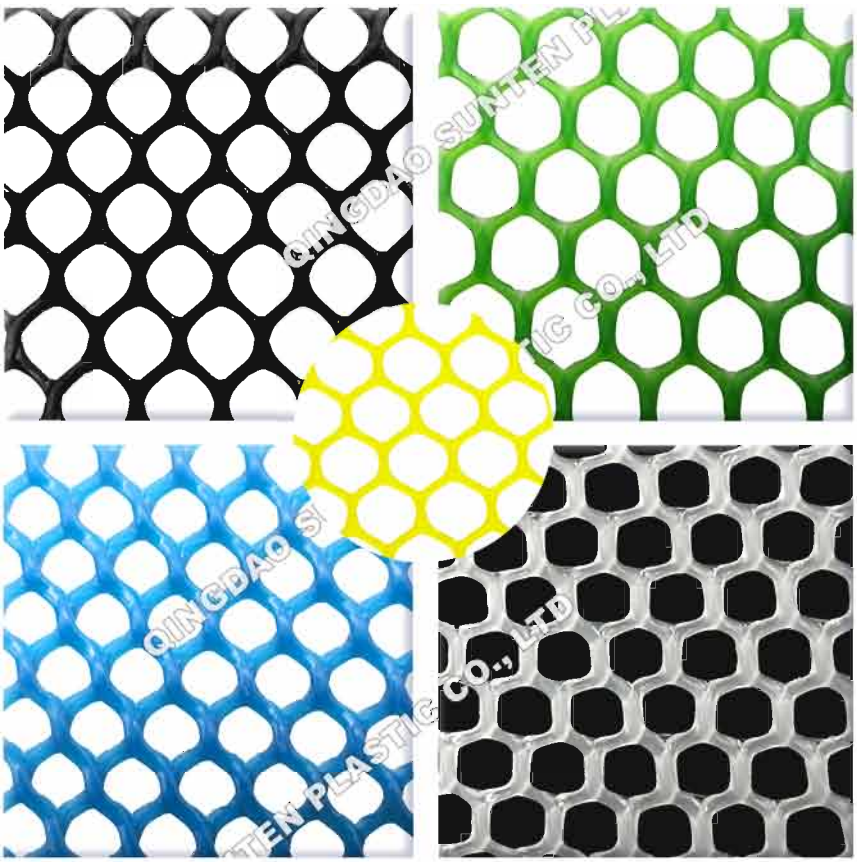

Balcony Net

Balcony Net is a protective net designed for balconies, terraces, and corridors to prevent objects from falling and ensure the safety of children and pets. It also works as a privacy screen and windbreaker while allowing fresh air and natural light to pass through. Made of durable, UV-resistant yarn with fine mesh, the net is strong, lightweight, and easy to install with hooks or ties. Available in various sizes and colors to suit different balcony layouts.

Basic Info.

Item Name	Balcony Net, Balcony Safety Net, Balcony Protection Net, Balcony Privacy Screen, Fall Protection Net, Anti-Drop Net
Material	HDPE(PE, Polyethylene) With UV Resin, Nylon, Polyester, etc
Mesh Size	For Anti-Drop: 1cm x 1cm, 1.5cm x 1.5cm, 2cm x 2cm, etc. For Standard: 3cm x 3cm, 5cm x 5cm, etc.
Size	2m x 3m, 2m x 5m, 3m x 5m, 1m x 5m, Customized Sizes Available, etc.
Twine Thickness	1mm~5mm, etc.
Color	Black, Green, GG(Green Grey), White, Beige(Brown), etc
Mesh Shape	Diamond or Square
Border Treatment	Available In Thicker Border Rope Going Through
Feature	High Tenacity & UV Resistant & Water Resistant & Flame-Retardant (available)
Hanging Direction	Both Horizontal & Vertical Direction Available
Packing	Polybag or Woven Bag or Box

www.suntenplastic.com

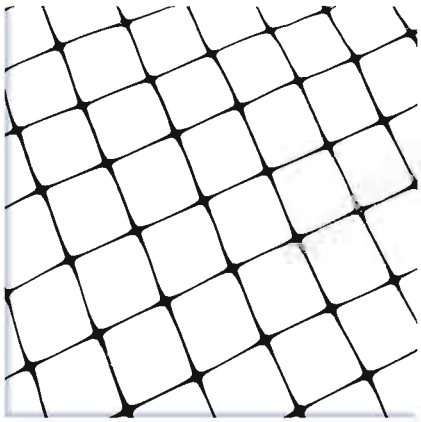

Poultry Net

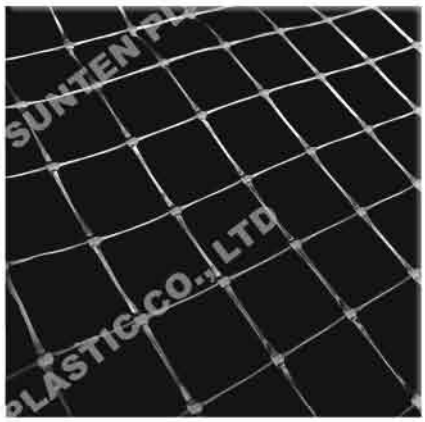

Poultry Net is a type of plastic warning barrier which is for caging poultry and isolating other animals or farm areas. The mesh hole for this plastic mesh is usually in hexagonal shape, and it is easy to install and take down.

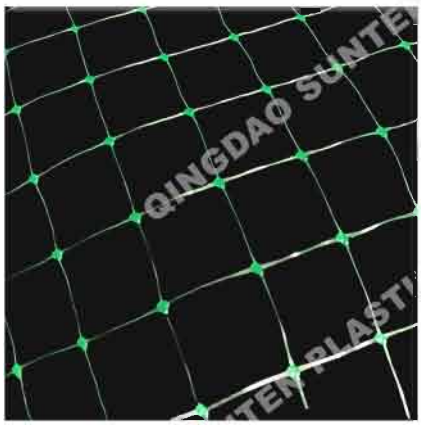

Basic Info.

Item Name	Poultry Net, Warning Fence, Safety Fence, Warning Barrier, Plastic Mesh, Farm Fence
Mesh Shape	Hexagonal
Material	PE(HDPE, Polyethylene) with UV
Mesh Hole	20mm x 20mm, 35mm x 35mm, etc
Width	0.6m-1.8m, such as 0.6m(2ft), 0.9m(3ft), 1m, 1.2m(4ft), etc
Length	15m(50ft), 30m(100ft), 35m, 50m, 100m, 300m, etc
Color	Black, Green, Dark Green(Olive Green), Orange, White, Red, Yellow, Blue, etc.
Feature	High Tenacity, UV Resistant, Anti-corrosion, Water Resistant, Re-usable, Highly Visible, Lightweight, Flexible
Hanging Direction	Vertical
Application	Barrier netting for caging poultry and isolating the other animals or farm areas, etc

www.suntenplastic.com

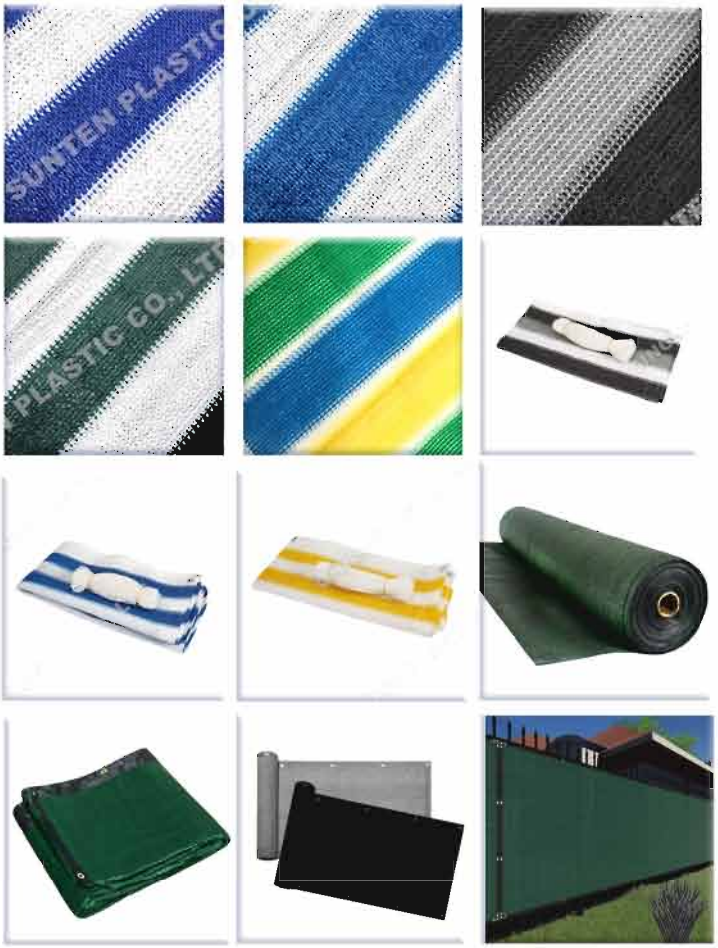

Deer/Mole Net

Deer/Mole Net is a heavy-duty protective net designed to keep deer and burrowing animals away from gardens, orchards, and lawns. The deer net features large, strong mesh to block deer without obstructing light or airflow, while the mole net is installed under turf to prevent moles and rodents from tunneling. Made of durable, UV-resistant HDPE yarn, both nets are easy to install and long-lasting. Available in various mesh sizes and rolls for different protection needs.

Basic Info.

Item Name	Deer Net, Deer Netting, Mole Net, Mole Netting, Garden Deer Fence, Orchard Net, Golf Course Mole Net, Animal Exclusion Net
Material	PP(Polypropylene) or PE(Polyethylene) + UV Resin
Mesh Size	Deer Net: 5cm~8cm (50*50mm, 60*60mm, 80*80mm, etc.); Mole Net: 15*15mm, 20*20mm, 25*25mm, etc.
Width	1m~5m
Length	50m~1000m
Twine Thickness	0.5mm~3mm. etc.
Color	Black, Transparent, Green, Olive Green, White, etc
Mesh Shape	Square or Diamond
Feature	High Tensile Strength, Aging Resistant, Anti-Erosion
Hanging Direction	Both Horizontal & Vertical Direction Available
Packing	Folded bale: Each piece in bag, several pieces in box. By roll: Each roll in one strong polybag.
Application	1. For anti bird in agriculture, gardening, Vineyard, etc. 2. For containment of poultry(As chicken Net, duck Net, etc) or Animal(As Deer Net/Netting, Mole Net/Netting, Rabbit Fence/Net/Netting, etc). 3. Reinforcement Ribs of Compound Materials.

www.suntenplastic.com

Privacy Net

Privacy Net is the shade net with hemmed border together with metal grommets usually. Privacy net is manufactured from knitted polyethylene fabric that does not rot, mildew, or becomes brittle. Due to its low light permeability yet good air permeability, it can be widely used for outdoor gardens, yards, backyards, balconies, etc.

Basic Info.

Item Name	Privacy Net, Privacy Netting, Privacy Screen, Privacy Screen Fence, PE Shade Net, Shade Cloth, Privacy Mesh, Windscreen Net, Windbreak Net
Material	PE (HDPE, Polyethylene) With UV-Stabilization
Shading Rate	90%~ 95%
Color	Olive Green(Dark Green), Black, Green, Blue, Orange, Red, Grey, White, Beige, Assorted Stripe color, etc
Weaving	Raschel Knitted
Needle	6 Needle, 8 Needle, 10 Needle, 12 Needle, etc.
Yarn	*Round Yarn + Tape Yarn(Flat Yarn) *Tape Yarn(Flat Yarn) + Tape Yarn(Flat Yarn) *Round Yarn + Round Yarn
Size	4ft(1.22m) x 25ft(7.62m), 4ft(1.22m) x 50ft(15.24m), 6ft(1.83m) x 25ft(7.62m), 6ft(1.83m) x 50ft(15.24m), 0.75m x 6m, 0.9m x 5m, 0.9m x 6m, etc
Feature	High Tenacity & UV Resistant for Durable Usage
Edge Treatment	With Hemmed Border and Metal Grommets(Available with tied rope)
Packing	By Folded Piece

Pickleball Net

Pickleball Net is a sports net in 22FT regulation size, ideal for outdoor club tournaments and professional matches. Crafted with high-density chemical fiber netting and rust-proof steel frame, it's tear-resistant and windproof, enduring all outdoor weather conditions for long-term use. The interlocking-buckle system enables tool-free assembly in 5 minutes, with velcro straps to keep the net taut and stable. Equipped with a carrying bag, it's easy to transport and store. This durable net is the perfect choice for clubs, courts and tournament organizers seeking reliable, high performance pickleball equipment.

Basic Info.

Item Name	Pickleball Net
Size	6.71 x 0.91M, with steel cable
Structure	Knotless or Knotted
Mesh Shape	Square
Material	Nylon, PE, PP, Polyester, etc.
Mesh Hole	35~45mm Square Mesh
Color	Black, Green, White, etc.
Feature	Superior Strength & UV Resistant & Waterproof
Packing	In Strong Polybag, then into master carton
Application	Indoor & Outdoor

Volleyball Net

Volleyball Net is one of the most widely-used sports nets. It is weaved in knotless or knotted structure usually. The main advantage of this type of net is its high tenacity and high safety performance. The volleyball net is widely used in many different applications, such as professional volleyball fields, volleyball training fields, school playgrounds, stadiums, sports venues, etc.

Basic Info.

Item Name	Volleyball Net, Volleyball Netting
Size	1m(Height) x 9.6m(length), with 12.5m length of steel cable
Structure	Knotless or Knotted
Mesh Shape	Square
Material	Nylon, PE, PP, Polyester, etc.
Mesh Hole	10cm x 10cm
Color	Black, Green, White, etc.
Feature	Superior Strength & UV Resistant & Waterproof
Packing	In Strong Polybag, then into master carton
Application	Indoor & Outdoor

Football Goal Net

Football Goal Net is one of the most widely-used sports nets. It is weaved in knotless or knotted structure usually. The main advantage of this type of net is its high tenacity and high safety performance. The football net is widely used in many different applications, such as the professional football field (football Pitches), football training fields, school playgrounds, stadiums, sports venues, etc.

Basic Info.

Item Name	Football Nets, Football Goal Nets, Soccer Nets, Football Netting, Ballstop Netting
Classification	5, 7, 11 Players
Size	7.32m x 2.44m(24ft x 8ft), 5.5m x 2m, 3m x 2m, 1.8m x 1.2m, 1.2m x 0.8m
Structure	Knotless or Knotted
Mesh Shape	Square, Hexagonal
Material	Nylon, PE, PP, Polyester, etc.
Mesh Hole	12cm x 12cm, 14cm x 14cm, etc.
Color	White, Green, Black, Blue, Red, Yellow, Orange, etc.
Feature	Superior Strength & UV Resistant & Waterproof
Packing	In Strong Polybag, then into master carton
Application	Indoor & Outdoor

Cricket Net

Premium Cricket Net is ideal for players of all levels, from beginners to professionals, suitable for training, practice and recreation. Crafted with high grade high-density PE or nylon multi-filament and advanced weaving technology, this Cricket Net features excellent durability, tear resistance and anti-UV performance, enduring outdoor sun and rain without fading or aging. With smooth edges for safety, it offers great ball rebound to simulate real matches, helping improve batting, bowling and fielding skills. Available in various sizes, easy to install and store with complete accessories, it's perfect for cricket clubs, training academies, schools and home use—your reliable choice for cost-effective, high-performance cricket practice equipment.

Basic Info.

Item Name	Cricket Net, Cricket Wicket Net, Cricket Boundary Net, Cricket Practice Net, Cricket Batting Cage
Structure	Knotless or Knotted
Material	PE, PP, Polyester, Nylon, etc.
Mesh Hole	20*20mm, 30*30mm, 40*40mm, 50*50mm, etc.
Diameter	1-6mm or Per Requirement
Color	White, Green, Black, Blue, Red, Yellow, etc.
Feature	Superior Strength & UV Resistant & Waterproof
Packing	In Strong Polybag, then into master carton
Application	Indoor & Outdoor

www.suntenplastic.com

Ice Hockey Net

Ice hockey net is built for competitive play and daily training. Made with a heavy duty steel frame and high strength nylon mesh, it withstands high speed shots and intense impacts. The standard 6'×4' size meets official regulations, while reinforced edges and sturdy joints ensure long term durability. Weather resistant and rustproof, it works well indoors and outdoors. The tight mesh securely catches pucks without rebounding. Easy to install and stable in use, it's ideal for rinks, clubs, schools, and personal training.

Basic Info.

Item Name	Ice Hockey Net,Ice Hockey Goal Net,Portable Ice Hockey Net,Regulation Ice Hockey Net
Size	6ft*4ft(183cm*122cm), 6.2ft*4.1ft(189cm*125cm)
Structure	Knotless or Knotted
Mesh Shape	Square, Hexagonal
Material	Nylon, PE, PP, Polyester, etc.
Mesh Hole	30mm*30mm, 35mm*35mm, 38mm*38mm, 63.5mm*63.5mm
Color	White, Green, Black, Blue, Red, Yellow, Orange, etc
Feature	Superior Strength & UV Resistant & Waterproof
Packing	In Strong Polybag, then into master carton
Application	Indoor & Outdoor

Ball Pocket

Ball Pocket is one type of woven bag for holding various types of balls. It is woven of braided rope by machine or by hand usually. The main advantage of this type of net is its high tenacity and high safety performance. The ball pocket is widely used in many different applications, such as professional training fields, school playgrounds, stadiums, sports venues, etc.

Basic Info.

Item Name	Ball Pocket, Ball Pocket Net
Size	According To Ball Type
Structure	Knotted
Material	Nylon, PE, PP, Polyester, etc.
Mesh Hole	According To Ball Type
Color	White, Red, Green, Blue, Orange, Black, etc.
Feature	Superior Strength & UV Resistant & Waterproof
Packing	In Strong Polybag, then into master carton
Application	Indoor & Outdoor

PP Mono Rope

PP Mono Rope is made from a group of high-tenacity polypropylene yarns that are twisted together into a larger and stronger form. PP Rope has high breaking strength yet is lightweight, so it can be used for a variety of applications, like Shipping, Industry, Sport, Packaging, Agriculture, Security, Decoration, etc.

Basic Info.

Item Name	PP Rope, Polypropylene Rope, Danline Rope, PP Danline Rope, Nylon Rope, Marine Rope, Mooring Rope, PP Mono Rope, PP Monofilament Rope
Structure	Twisted Rope(3 Strand, 4 Strand, 8 Strand)
Material	PP(Polypropylene) With UV Stabilized
Diameter	≥3mm
Length	10m, 20m, 50m, 91.5m(100yard), 100m, 150m, 183(200yard), 200m, 220m, 660m, etc- (Per Requirement)
Color	Green, Blue, White, Black, Red, Yellow, Orange, GG(Green Grey/Dark Green/Olive Green), etc
Twisting Force	Medium Lay, Hard Lay, Soft Lay
Feature	High Tenacity & UV Resistant & Water Resistant & Flame-Retardant (available) & Good Buoyancy
Special Treatment	*With the lead wire in the inner core for sinking quickly into the deep sea(Lead Core Rope) * Can make into “Polypropylene & Polyester Mixed Rope” for both high breaking strength and soft touching feeling
Application	Multi-Purpose, commonly used in fishing, sailing, gardening, industry, aquaculture, camping, construction, animal husbandry, Packing, and household(such as clothes rope).
Packing	(1) By Coil, Hank, Bundle, Reel, Spool, etc (2) Strong Polybag, Woven Bag, Box

www.suntenplastic.com

PP Multi Rope

PP Multi Rope is made from a group of high-tenacity multifilament yarns that are twisted together into a larger and stronger form. Multi Rope has high breaking strength yet is very soft on hands during handling. Besides, it is very easy to splice. It is very popular for mooring lines, anchor lines & fender lines but can be used for a whole range of applications(such as camping, sports, packing, agriculture, yachting, fishing, decoration, etc.)

Basic Info.

Item Name	PP Multifilament Rope
Structure	Twisted Rope(3 Strand, 4 Strand, 8 Strand)
Material	PP(Polypropylene)
Diameter	≥3mm
Length	10m, 20m, 50m, 91.5m(100yard), 100m, 150m, 183(200yard), 200m, 220m, 660m, etc- (Per Requirement)
Color	White, Black, Blue, Yellow, Green, Red, Orange, GG(Green Grey/Dark Green/Olive Green), etc
Twisting Force	Medium Lay, Hard Lay, Soft Lay
Feature	High Tenacity & UV Resistant & Chemical Resistant
Application	Multi-Purpose, commonly used in fishing, sailing, gardening, industry, aquaculture, camping, construction, animal husbandry, Packing, and decoration, etc.
Packing	(1) By Coil, Hank, Bundle, Reel, Spool, etc (2) Strong Polybag, Woven Bag, Box

PP Split Film Rope

PP Split Film Rope is made from a group of high-tenacity polypropylene fibrillated yarns that are twisted together into a strong and lightweight form. PP split film rope has high breaking strength yet is lightweight, so it can be used for a variety of applications, like shipping, industry, sport, packaging, agriculture, security, decoration, etc.

Basic Info.

Item Name	PP Split Film Rope, Polypropylene Split Film Rope
Structure	Twisted Rope(3 Strand, 4 Strand)
Material	PP(Polypropylene) With UV Stabilized
Diameter	≥3mm
Length	10m, 20m, 50m, 91.5m(100yard), 100m, 150m, 183(200yard), 200m, 220m, 660m, etc- (Per Requirement)
Color	Blue, Green, White, Black, Red, Yellow, Orange, GG(Green Grey/Dark Green/Olive Green), etc
Twisting Force	Medium Lay, Hard Lay, Soft Lay
Feature	High Tenacity & UV Resistant & Water Resistant & Flame-Retardant (available) & Good Buoyancy
Application	Multi-Purpose, commonly used in fishing, sailing, gardening, industry, aquaculture, camping, construction, animal husbandry, Packing, and household(such as clothes rope).
Packing	(1) By Coil, Hank, Bundle, Reel, Spool, etc (2) Strong Polybag, Woven Bag, Box

PE Twisted Rope

PE Twisted Rope is made from a group of high-tenacity polyethylene yarns polyethylene yarn that are twisted together into a larger and stronger form. PE Rope has high breaking strength yet is lightweight, so it can be used for a variety of applications, like Shipping, Industry, Sport, Packaging, Agriculture, Security, Decoration, etc.

Basic Info.

Item Name	PE Twisted Rope, PE Rope, Polyethylene Rope, HDPE Rope(High-Density Polyethylene Rope), Nylon Rope, Marine Rope, Mooring Rope, Tiger Rope, PE Mono Rope, PE Monofilament Rope
Structure	Twisted Rope(3 Strand, 4 Strand, 8 Strand)
Material	PE(HDPE, Polyethylene) With UV Stabilized
Diameter	≥1mm
Length	10m, 20m, 50m, 91.5m(100yard), 100m, 150m, 183m(200yard), 200m, 220m, 660m, etc- (Per Requirement)
Color	Green, Blue, White, Black, Red, Yellow, Orange, GG(Green Grey/Dark Green/Olive Green), etc
Twisting Force	Medium Lay, Hard Lay, Soft Lay
Feature	High Tenacity & UV Resistant & Water Resistant & Flame-Retardant (available) & Good Buoyancy
Special Treatment	With the lead wire in the inner core for sinking quickly into the deep sea(Lead Core Rope)
Application	Multi-Purpose, commonly used in fishing, sailing, gardening, industry, aquaculture, camping, construction, animal husbandry, Packing, and household(such as clothes rope).

PE Twine

PE Twine is a strong thread, light string, or cord composed of two or more thin polyethylene strands twisted, and then twisted together. PE String is widely used for many different applications, like Fishing, Packing, Agriculture, Construction, Decoration,etc.

Basic Info.

Item Name	PE String, PE Twine, PE Fishing Twine, Polyethylene Twine, Nylon Twine
Specification	380D/9Ply~144Ply, 600D/6Ply~144Ply (Per Requirement)
Type	Mono Yarn
Material	PE(HDPE, Polyethylene)
Category	Coil, Spool, Bobbin, Hank
Weight	100g, 200g, 250g, 500g, 1000g, 1/4LB, 1/2LB, 1LB, etc
Height	Spool or Bobbin: 4''(10cm), 6''(15cm), 8''(20cm), 10"(25cm) Hank: Around 26cm (Per requirement)
Color	GG(Green Grey/Dark Green/Olive Green), Green, Black, Blue, Red, Yellow, Orange, White, etc
Feature	High breaking strength, abrasion resistant, mildew, rot resistant
Application	Multi-Purpose, commonly used in fishing(weaving fishing net), packing, agriculture, construction, decoration, etc.
Packing	Each piece is wrapped with shrink film or polybag, then put into a woven bag or carton

www.suntenplastic.com

PE Braided Rope

PE Braided Rope is a premium braided rope with a distinctive diamond-patterned surface, offering excellent strength, flexibility, and a comfortable, non-slip grip. Manufactured from high-quality PE, the rope is resistant to abrasion, UV rays, and moisture, making it ideal for marine, outdoor, and industrial applications. Its tight braided construction prevents fraying and tangling, ensuring smooth handling and long service life. Available in various diameters, lengths, and colors to meet different needs.

Basic Info.

Item Name	PE Braided Rope, Kernmantle Rope, Safety Rope
Category	Diamond Braided Rope, Solid Braided Rope, Double Braided Rope, Hollow Braided Rope
Structure	8 Strands, 16 Strands, 32 Strands, 48 Strands
Material	PE(Polyethylene)
Diameter	≥2mm
Length	10m, 20m, 50m, 91.5m(100yard), 100m, 150m, 183m(200yard), 200m, 220m, 660m, etc-(Per Requirement)
Color	White, Black, Green, Blue, Red, Yellow, Orange, Assorted Colors, etc
Feature	High Tenacity & UV Resistant
Special Treatment	With the lead wire in the inner core for sinking quickly into the deep sea(Lead Core Rope)
Application	Multi-Purpose, commonly used in rescue(such as lifeline, winch rope), climbing, camping, fishing, shipping(single point mooring rope), packing, bag and luggage, clothing, sports equipment, engine starter rope, shoes, gifts, toys, and household(lanyard, etc).
Packing	(1) By Coil, Hank, Bundle, Reel, Spool, etc (2) Strong Polybag, Woven Bag, Box

Ski Rope

Ski Rope adopts high-density polyethylene (PE) as its core material, which is carefully selected to ensure excellent performance and long service life. Specially tailored for skiing and ski resort applications, it is lightweight and easy to handle, while maintaining strong toughness and tensile strength. The PE material ensures good cold resistance, effectively avoiding brittleness and cracking in low-temperature environments. It is also waterproof, anti-aging, and wear-resistant, not absorbing water or deforming under wind, snow, and sun exposure. This multi purpose rope is suitable for ski towing, resort dragging, and equipment fixing, has a smooth surface that protects hands, is easy to store and carry, and offers safe, reliable, and long-lasting support for ice and snow sports and commercial ski resort operations.

Basic Info.

Item Name	Ski Rope, PE Rope, Polyethylene Rope, HDPE Rope(High-Density Polyethylene Rope)
Material	PE(HDPE, Polyethylene) with UV stabilized
Structure	Hollow Braided
Diameter	≥1mm
Color	Green, Blue, White, Black, Red, Yellow, Orange, GG(Green Grey/DarkGreen/Olive Green), etc
Feature	High Breaking Strength, Low Stretch, Abrasion Resistant, UV Stabilized, Non-water Absorbent
Length	10m,20m,50m,91.5m(100yard),100m, 150m,183m(200yard), 200m, 220m,660m,etc

www.suntenplastic.com

Polyester Twisted Rope

Polyester Twisted Rope is made from a group of high tenacity of multifilament yarn that is twisted together into a larger and stronger form. Multi Rope has high breaking strength yet is very soft for hands during handling. Besides, it is very easy to splice. It is very popular for mooring lines, anchor lines & fender lines but can be used for a whole range of applications(such as camping, sports, packing, agriculture, yachting, fishing, and decoration, etc.)

Basic Info.

Item Name	Polyester Twisted Rope, PET Multifilament Rope, Twisted Rope
Structure	Twisted Rope(3 Strand, 4 Strand, 8 Strand)
Material	Polyester
Diameter	≥3mm
Length	10m, 20m, 50m, 91.5m(100yard), 100m, 150m, 183(200yard), 200m, 220m, 660m, etc- (Per Requirement)
Color	White, Black, Blue, Yellow, Green, Red, Orange, GG(Green Grey/Dark Green/Olive Green), etc
Twisting Force	Medium Lay, Hard Lay, Soft Lay
Feature	High Tenacity & UV Resistant & Chemical Resistant
Application	Multi-Purpose, commonly used in fishing, sailing, gardening, industry, aquaculture, camping, construction, animal husbandry, Packing, and decoration, etc.
Packing	(1) By Coil, Hank, Bundle, Reel, Spool, etc (2) Strong Polybag, Woven Bag, Box

www.suntenplastic.com

Polyester Braided Rope

Polyester Braided Rope is made by braiding synthetic fibers into a rope with high breaking strength. It is known to be more flexible and smoother to handle than twisted rope and is perfect for practically any use you may have. According to different braid, there are four types of braided rope: Diamond Braided Rope、Double Braided Rope、Solid Braid Rope、Hollow Braided Rope.

Basic Info.

Item Name	Polyester Braided Rope,Braided Rope, Safety Rope
Category	Diamond Braided Rope, Solid Braided Rope, Double Braided Rope, Hollow Braided Rope
Structure	8 Strands, 16 Strands, 32 Strands, 48 Strands
Material	Polyester(PET)
Diameter	≥2mm
Length	10m, 20m, 50m, 91.5m(100yard), 100m, 150m, 183m(200yard), 200m, 220m, 660m, etc-(Per Requirement)
Color	White, Black, Green, Blue, Red, Yellow, Orange, Assorted Colors, etc
Feature	High Tenacity & UV Resistant
Special Treatment	With the lead wire in the inner core for sinking quickly into the deep sea(Lead Core Rope)
Application	Multi-Purpose, commonly used in rescue(such as lifeline, winch rope), climbing, camping, fishing, shipping(single point mooring rope), packing, bag and luggage, clothing, sports equipment, engine starter rope, shoes, gifts, toys, and household(lanyard, etc).
Packing	(1) By Coil, Hank, Bundle, Reel, Spool, etc (2) Strong Polybag, Woven Bag, Box

www.suntenplastic.com

Nylon Twisted Rope

Nylon Twisted Rope is made from a group of high tenacity of multifilament yarn that is twisted together into a larger and stronger form. Multi Rope has high breaking strength yet is very soft for hands during handling. Besides, it is very easy to splice. It is very popular for mooring lines, anchor lines & fender lines but can be used for a whole range of applications(such as camping, sports, packing, agriculture, yachting, fishing, and decoration, etc.)

Basic Info.

Item Name	Nylon Twisted Rope, Polyamide Rope
Structure	Twisted Rope(3 Strand, 4 Strand, 8 Strand)
Material	Nylon(PA, Polyamide)
Diameter	≥3mm
Length	10m, 20m, 50m, 91.5m(100yard), 100m, 150m, 183(200yard), 200m, 220m, 660m, etc- (Per Requirement)
Color	White, Black, Blue, Yellow, Green, Red, Orange, GG(Green Grey/Dark Green/Olive Green), etc
Twisting Force	Medium Lay, Hard Lay, Soft Lay
Feature	High Tenacity, Good Shock Absorption, Wear Resistant
Application	Multi-Purpose, commonly used in fishing, sailing, gardening, industry, aquaculture, camping, construction, animal husbandry, Packing, and decoration, etc.
Packing	(1) By Coil, Hank, Bundle, Reel, Spool, etc (2) Strong Polybag, Woven Bag, Box

Nylon Braided Rope

Nylon Braided Rope is made by braiding synthetic fibers into a rope with high breaking strength. It is known to be more flexible and smoother to handle than twisted rope and is perfect for practically any use you may have. According to different braid, there are four types of braided rope: Diamond Braided Rope、Double Braided Rope、Solid Braid Rope、Hollow Braided Rope.

Basic Info.

Item Name	Nylon Braided Rope, Polyamide Rope
Category	Diamond Braided Rope, Solid Braided Rope, Double Braided Rope, Hollow Braided Rope
Structure	8 Strands, 16 Strands, 32 Strands, 48 Strands
Material	Nylon(PA/Polyamide)
Diameter	≥2mm
Length	10m, 20m, 50m, 91.5m(100yard), 100m, 150m, 183m(200yard), 200m, 220m, 660m, etc-(Per Requirement)
Color	White, Black, Green, Blue, Red, Yellow, Orange, Assorted Colors, etc
Feature	High Tenacity, Excellent Shock Absorption, Flexible & Wear Resistant
Special Treatment	With the lead wire in the inner core for sinking quickly into the deep sea(Lead Core Rope)
Application	Multi-Purpose, commonly used in rescue(such as lifeline, winch rope), climbing, camping, fishing, shipping(single point mooring rope), packing, bag and luggage, clothing, sports equipment, engine starter rope, shoes, gifts, toys, and household(lanyard, etc).
Packing	(1) By Coil, Hank, Bundle, Reel, Spool, etc (2) Strong Polybag, Woven Bag, Box

www.suntenplastic.com

Diamond Braided Rope

Diamond Braided Rope is made by braiding synthetic fibers into a rope with high breaking strength. It is known to be more flexible and smoother to handle than twisted rope and is perfect for practically any use you may have. Diamond Braided Rope is the lightest utility rope and is typically created with an inner core that provides additional strength.

Basic Info.

Item Name	Diamond Braided Rope, Safety Rope
Category	Diamond Braid
Structure	8 Strands, 16 Strands, 32 Strands, 48 Strands
Material	Nylon(PA/Polyamide), Polyester(PET), PP(Polypropylene), PE(Polyethylene), UHMWPE, Aramid
Diameter	≥2mm
Length	10m, 20m, 50m, 91.5m(100yard), 100m, 150m, 183m(200yard), 200m, 220m, 660m, etc-(Per Requirement)
Color	White, Black, Green, Blue, Red, Yellow, Orange, Assorted Colors, etc
Feature	High Tenacity & UV Resistant
Special Treatment	With the lead wire in the inner core for sinking quickly into the deep sea(Lead Core Rope)
Application	Multi-Purpose, commonly used in rescue(such as lifeline, winch rope), climbing, camping, fishing, shipping(single point mooring rope), packing, bag and luggage, clothing, sports equipment, engine starter rope, shoes, gifts, toys, and household(lanyard, etc).
Packing	(1) By Coil, Hank, Bundle, Reel, Spool, etc (2) Strong Polybag, Woven Bag, Box

www.suntenplastic.com

Double Braided Rope

Double Braided Rope is a premium rope constructed with two outer braided covers and an inner braided core, combining high strength with excellent abrasion resistance. The double-layer design protects the core from wear and UV damage, ensuring long-lasting performance in demanding conditions. Smooth and easy to handle, the rope resists kinking and tangling, making it ideal for safety ropes, mooring, climbing, and industrial use. Available in various diameters, lengths, and colors to meet different requirements.

Basic Info.

Item Name	Double Braided Rope, Double Braid Rope, Safety Rope
Category	Double Braided Rope
Structure	Double Braid (Outer Braided Cover + Inner Braided Core), 8 Strands, 16 Strands, 32 Strands
Material	Polyester (PET), Nylon (PA), PP (Polypropylene)
Diameter	≥2mm
Length	10m, 20m, 50m, 91.5m(100yard), 100m, 150m, 183m(200yard), 200m, 220m, 660m, etc- (Per Requirement)
Color	White, Black, Green, Blue, Red, Yellow, Orange, Assorted Colors, etc
Feature	High Tenacity, Excellent Abrasion Resistance, UV stabilization available up on request
Special Treatment	UV Stabilized; Lead Core (for quick sinking in deep sea) Available on Request
Application	Multi-Purpose, commonly used in safety ropes, rescue (lifeline, winch rope), mooring, climbing, camping, fishing, industrial lifting, and household use, etc.
Packing	(1) By Coil, Hank, Bundle, Reel, Spool, etc (2) Strong Polybag, Woven Bag, Box

www.suntenplastic.com

Solid Braided Rope

Solid Braided Rope features multiple strands interwoven in a tight, twist-free design for even load distribution and superior tensile strength. Its smooth outer finish reduces friction damage, while fray-resistant ends ensure clean cuts. Available in UV-resistant polyester or polypropylene, it withstands long-term outdoor exposure without degradation. Ideal for marine mooring, construction rigging, safety barriers, and general utility tasks, this lightweight, flexible rope is easy to handle and offers the perfect balance of strength and durability for both industrial and everyday applications.

Basic Info.

Item Name	Solid Braided Rope, Solid Braided Cord
Material	PP, Polyester, Nylon, UHMWPE, Aramid
Diameter	⩾2MM
Structure	Braided Rope (8 Strands, 12 Strands, 16 Strands, 32 Strands)
Length	50m, 100 yard, 100m, 150m, 200m, 220m, etc
Color	White, Black, Green, Blue, Red, Yellow, etc
Feature	High Tenacity & UV Resistant
Application	Multi-Purpose, commonly used in rescue(such as lifeline, winch rope), climbing, camping, fishing, shipping(single point mooring rope), packing, bag and luggage, clothing, sports equipment, engine starter rope, shoes, gifts, toys, and household(lanyard, etc).
Packing	(1) By Coil, Hank, Bundle, Reel, Spool, etc (2) Strong Polybag, Woven Bag, Box

www.suntenplastic.com

Hollow Braided Rope

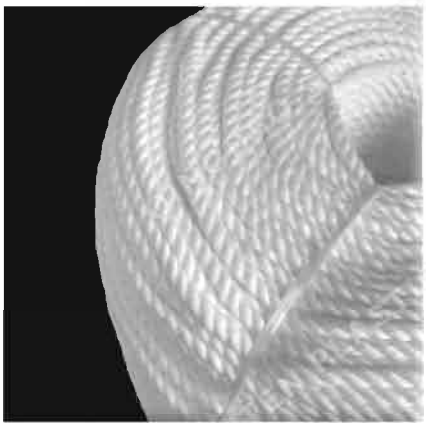

Hollow Braided Rope is a lightweight tubular braided rope with a hollow core, offering excellent softness, flexibility, and elasticity. The hollow construction makes it easy to compress and flatten, ideal for laces, drawstrings, camping cords, and decorative uses. Made of durable PE or polyester, the rope is smooth, knot-friendly, and resistant to abrasion and moisture. Available in various diameters, lengths, and colors, it can be customized for different applications.

Basic Info.

Item Name	Hollow Braided Rope, Tubular Braided Rope, Hollow Rope
Category	Hollow Braided Rope
Structure	8 Strands, 16 Strands, 32 Strands, 48 Strands
Material	PE (Polyethylene), Polyester (PET), Nylon (PA)
Diameter	≥2mm
Length	10m, 20m, 50m, 91.5m(100yard), 100m, 150m, 183m(200yard), 200m, 220m, 660m, etc-(Per Requirement)
Color	White, Black, Green, Blue, Red, Yellow, Orange, Assorted Colors, etc
Feature	High Tenacity & UV Resistant
Special Treatment	Hollow Core; Lead Core (for quick sinking in deep sea) Available on Request
Application	Multi-Purpose, commonly used in rescue(such as lifeline, winch rope), climbing, camping, fishing, shipping(single point mooring rope), packing, bag and luggage, clothing, sports equipment, engine starter rope, shoes, gifts, toys, and household(lanyard, etc).
Packing	(1) By Coil, Hank, Bundle, Reel, Spool, etc (2) Strong Polybag, Woven Bag, Box

www.suntenplastic.com

Kuralon Rope

Kuralon Rope is made from a group of high-tenacity of kuralon yarn that is twisted together into a larger and stronger form. Kuralon Rope has high breaking strength yet is very soft for hands during handling. Besides, it is very easy to splice. It is very popular for fishing but can be also used as a good type of packing rope because it is easy to knot.

Basic Info.

Item Name	Kuralon Rope, Kuralon Twine, Kuralon Fishing Twine, Kuralon Cord
Structure	Twisted Rope(3 Strand, 4 Strand)
Material	Kuralon
Diameter	≥2mm
Length	10m, 20m, 50m, 91.5m(100yard), 100m, 150m, 183m(200yard), 200m, 220m, 660m, etc- (Per Requirement)
Color	White
Twisting Force	Medium Lay, Hard Lay, Soft Lay
Feature	High Tenacity & UV Resistant & Chemical Resistant
Application	Widely used in fishing, packing, etc
Packing	(1) By Coil, Hank, Bundle, Reel, Spool, etc (2) Strong Polybag, Woven Bag, Box

www.suntenplastic.com

UHMWPE Rope

UHMWPE Rope is a high-strength, lightweight synthetic rope widely used in marine, fishing and lifting industries. It is made of ultra-high molecular weight polyethylene fiber, which has ultra-high breaking strength, good wear resistance and excellent UV resistance. With these excellent features, it is also suitable for making marine mooring rope, fishing rope, towing rope, rescue rope, lifting rope, outdoor safety rope, ship rope and industrial binding rope, etc.

Basic Info.

Item Name	UHMWPE Rope, UHMWPE Cord, Safety Rope, Marine Rope, Marine Mooring Rope
Material	UHMWPE With UV Resistant
Structure	Twisted, Braided
Diameter	≥1mm
Color	GG (Green Grey/Dark Green/Olive Green), Green, Black, Blue, Red, Yellow, Orange, White, etc
Length	10m, 20m, 50m, 91.5m (100yard) , 100m, 150m, 183m(200yard), 200m, 220m, 660m, etc
Feature	High Tenacity, Abrasion Resistant, Mildew & Rot Resistant, UV stabilization available on request
Packing	By Coil, Hank, Bundle, Reel, Spool, etc

www.suntenplastic.com

Aramid Rope

Aramid Rope is made by braiding aramid yarn into a rope with high breaking strength. It is not only flame-retardant but also with very high breaking strength than some other synthetic fibers.

Basic Info.

Item Name	Aramid Rope
Structure	Braid: 8 Strands, 16 Strands, 32 Strands, 48 Strands
Material	Aramid(Kevlar)
Diameter	≥2mm
Length	10m, 20m, 50m, 91.5m(100yard), 100m, 150m, 183(200yard), 200m, 220m, 660m, etc- (Per Requirement)
Color	Yellow
Feature	High Breaking Strength & Good Flame-retardant feature
Application	Multi-Purpose, commonly used in rescue(as lifeline), climbing, camping, sports equipment, , etc
Packing	(1) By Coil, Hank, Bundle, Reel, Spool, etc (2) Strong Polybag, Woven Bag, Box

www.suntenplastic.com

Combination Rope

Combination Rope is made from a group of high tenacity of synthetic yarn together with steel wire inside. Due to this strong structure, this type of rope is widely used in many applications that need high safety requirements, such as Kids' Playground, Stadium, Trawling, Fishing, Industry(Hoisting lifting, Winch Platform, etc.), Sports, Aircraft Cable, and Decoration, etc.

Basic Info.

Item Name	Combination Rope, Compound Steel Wire Rope, Playground Rope
Structure	3x19, 3x24, 6x6, 6x7, 6x8, 6x12, 6x19, 6x24, + IWRC(Steel Core)/FC(Fiber Core)
Material	Synthetic Fibers(PP, Polyester, Nylon, etc.) + Steel Wire
Diameter	8mm, 10mm, 12mm, 14mm, 16mm, 18mm, 20mm, 22mm...
Length	25m, 50m, 91.5m(100yard), 100m, 183(200yard), 220m, 500m, etc- (Per Requirement)
Color	Green, Blue, White, Black, Red, Yellow, Orange, Assorted Colors, etc
Lay	Right hand lay, Left hand lay
Twisting Force	Medium Lay, Hard Lay
Feature	High Tenacity &UV Resistant
Application	Multi-Purpose, commonly used in Kids' Playground, Stadium, Trawling, Fishing, Industry(Hoisting lifting, Winch Platform, etc.), Sport, Aircraft Cable, and Decoration, etc.
Packing	(1) By Coil, Reel, etc (2) Pallet

www.suntenplastic.com

Elastic Rope

Elastic Rope is an elastic cord composed of one or more elastic strands forming a core, usually covered in a woven nylon or polyester sheath. With good elasticity, the elastic cord is widely used in many different applications, such as bungee jumping, trampoline bands, sports equipment, industry, transportation, packing, bag and luggage, apparel, gifts, garments, hair decorations, household, etc.

Basic Info.

Item Name	Elastic Rope, Elastic Bungee Rope, Elastic Rope Cord, Round Elastic Rope, Elastic Cord
Material	Surface: Nylon(PA, Polyamide), Polyester, PP(Polypropylene) Inner core: Rubber, Latex
Diameter	1.5mm, 2mm, 3mm, 4mm, 6mm, 8mm, 10mm, 12mm, etc
Length	10m, 20m, 50m, 91.5m(100yard), 100m, 150m, 183(200yard), 200m, 220m, 660m, etc- (Per Requirement)
Color	White, Black, Green, Blue, Red, Yellow, Orange, Assorted Colors, etc
Feature	Excellent elasticity, High tenacity, UV Resistant, Water resistant
Application	Multi-Purpose, commonly used in bungee jumping, trampoline bands, sports equipment, industry, transportation, packing, bag and luggage, apparel, gifts, garments, hair decorations, household, etc.
Packing	(1) By Coil, Hank, Bundle, Reel, Spool, etc (2) Strong Polybag, Woven Bag, Box

www.suntenplastic.com

Jute Rope

Jute Rope is made of high-quality jute fiber with the characteristic of strong pulling force, lightweight, and no pollution. So it can be used for a variety of applications, like fishing, sailing, gardening, industry, aquaculture, camping, construction, mining, oil field, transportation, animal husbandry, packing, decoration, or as tug of war rope(Battle Rope), etc.

Basic Info.

Item Name	Jute Rope, Jute Hemp Rope, Jute Twine
Structure	Twisted Rope(3 Strand, 4 Strand)
Material	Jute
Diameter	Per Requirement
Length	10m, 20m, 50m, 91.5m(100yard), 100m, 150m, 183(200yard), 200m, 220m, 660m, etc- (Per Requirement)
Color	Natural, Green, etc
Twisting Force	Medium Lay, Hard Lay, Soft Lay
Feature	High breaking strength & Resistant to seawater immersion, acid, friction, alkali, corrosion & Not smooth, etc
Application	Multi-Purpose, commonly used in fishing, sailing, gardening, industry, aquaculture, camping, construction, mining, oil field, transportation, animal husbandry, packing, decoration, or as tug of war rope(battle rope), etc.
Packing	(1) By Coil, Hank, Bundle, Reel, Spool, etc (2) Strong Polybag, Woven Bag, Box

www.suntenplastic.com

Sisal Rope

Sisal Ropeis made of high-quality sisal fiber with the characteristic of strong pulling force, acid resistance, wear resistance, and alkali resistance. So it can be used for a variety of applications, like fishing, sailing, gardening, industry, aquaculture, camping, construction, mining, oil field, transportation, animal husbandry, packing, decoration, etc.

Basic Info.

Item Name	Sisal Rope,Sisal Twine
Structure	Twisted Rope(3 Strand, 4 Strand)
Material	Sisal
Diameter	Per Requirement
Length	10m, 20m, 50m, 91.5m(100yard), 100m, 150m, 183(200yard), 200m, 220m, 660m, etc- (Per Requirement)
Color	Natural, Bleached
Twisting Force	Medium Lay, Hard Lay, Soft Lay
Feature	High breaking strength & Resistant to seawater immersion, acid, friction, alkali, corrosion & Not smooth, etc
Application	Multi-Purpose, commonly used in fishing, sailing, gardening, industry, aquaculture, camping, construction, mining, oil field, transportation, animal husbandry, packing, decoration, etc.
Packing	(1) By Coil, Hank, Bundle, Reel, Spool, etc (2) Strong Polybag, Woven Bag, Box

www.suntenplastic.com

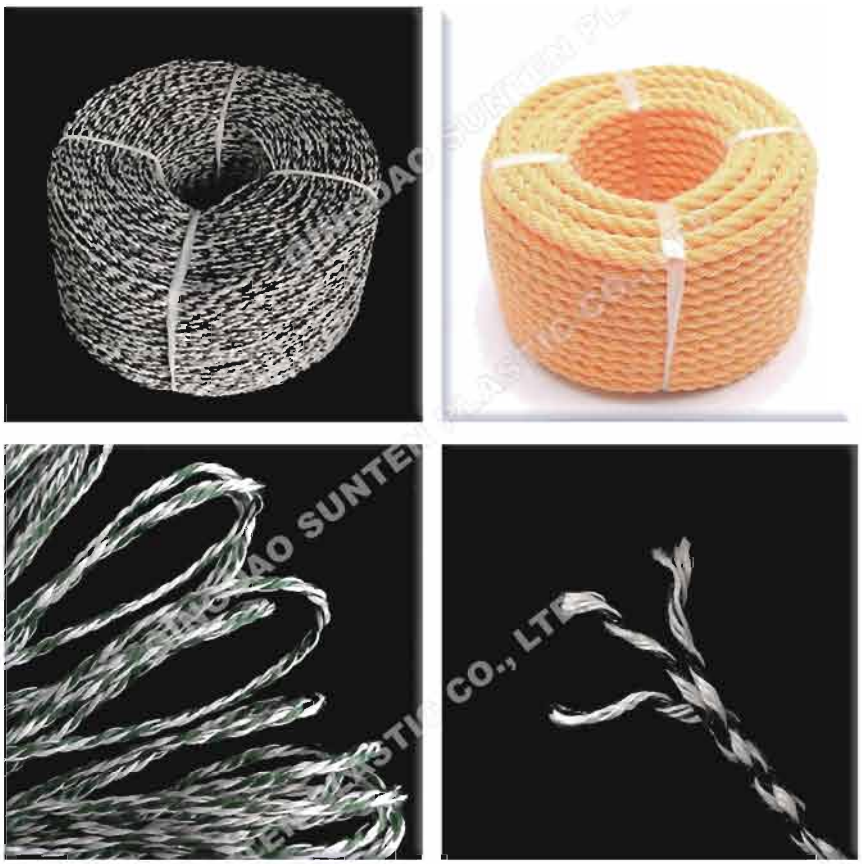

Manila Rope

Manila Rope is made of high-quality manila fiber with the characteristic of strong pulling force, acid resistance, wear resistance, and alkali resistance. So it can be used for a variety of applications, like fishing, sailing, gardening, industry, aquaculture, camping, construction, mining, oil field, transportation, animal husbandry, packing, decoration, etc.

Basic Info.

Item Name	Manila Rope, Manila Twine
Structure	Twisted Rope(3 Strand, 4 Strand)
Material	Manila
Diameter	Per Requirement
Length	10m, 20m, 50m, 91.5m(100yard), 100m, 150m, 183(200yard), 200m, 220m, 660m, etc- (Per Requirement)
Color	Natural, Bleached
Twisting Force	Medium Lay, Hard Lay, Soft Lay
Feature	High breaking strength & Resistant to seawater immersion, acid, friction, alkali, corrosion & Not smooth, etc
Application	Multi-Purpose, commonly used in fishing, sailing, gardening, industry, aquaculture, camping, construction, mining, oil field, transportation, animal husbandry, packing, decoration, etc.
Packing	(1) By Coil, Hank, Bundle, Reel, Spool, etc (2) Strong Polybag, Woven Bag, Box

www.suntenplastic.com

KP Rope

KP Rope is the abbreviation of "Kuralon + Polyethylene Rope" , it is a combination of Kuralon and Polyethylene yarn. This rope brings attributes of both kuralon and polyethylene into one, so it is widely used for fishing and aquaculture, but can be also used as a good type of packing rope.

Basic Info.

Item Name	KP Rope, PK Rope, KP TWine, PK TWine
Structure	Twisted Rope(3 Strand, 4 Strand)
Material	Kuralon + Polyethylene with UV
Diameter	≥2mm
Length	10m, 20m, 50m, 91.5m(100yard), 100m, 150m, 183(200yard), 200m, 220m, 660m, etc- (Per Requirement)
Color	Black with white, Green Grey with white, Orange with white, etc
Twisting Force	Medium Lay, Hard Lay, Soft Lay
Feature	High Tenacity & UV Resistant & Chemical Resistant
Application	Widely used in fishing, packing, etc
Packing	(1) By Coil, Hank, Bundle, Reel, Spool, etc (2) Strong Polybag, Woven Bag, Box

www.suntenplastic.com

Cotton braided

Cotton braided rope is crafted from 100% natural cotton fibers with tight braiding for a smooth, skin friendly surface. Its interwoven structure secures knots well and prevents slipping. It takes dye easily, available in ecru, bleached white and custom colors.Lightweight, flexible, biodegradable and non toxic, it works great for macramé, gift wrapping, crafts, gardening and pet toys. It fits indoor and light outdoor use.

Basic Info.

Item Name	Cotton Braided Rope, Cotton Braided Cord
Material	Cotton
Diameter	≥2MM
Structure	Braided Rope (8 Strands, 12 Strands, 16 Strands, 32 Strands)
Length	50m, 100 yard, 100m, 150m, 200m, 220m, etc
Color	White, Black, Green, Blue, Red, Yellow, etc
Feature	High Tenacity & Biodegradable
Application	Multi-Purpose, commonly used in interior decoration, hand weaving, gift tying, packaging and bundling, pet toys, light-duty gardening ties.
Packing	(1) By Coil, Hank, Bundle, Reel, Spool, etc (2) Strong Polybag, Woven Bag, Box

www.suntenplastic.com

Warning Rope (Delineator String)

Warning Rope (Delineator String) is a kind of warning enclosure that hangs reflective flags on ropes to play a warning role. Because the reflective flag can reflect strong light at night, it is widely used to delineate the perimeter of construction zones, road detours, or as a lane divider. Also used as an early indication of a truck/heavy breakdown.

Basic Info.

Item Name	Warning Ropes(Delineator String), Reflective String Flag
Flag Size	5cm x 5cm, 7.5 x 7.5cm, 9cm x 9cm, etc
Length	20m, 30m, 45m, 50m,60m, 91.5m(100yard), 100m, etc- (Per Requirement)
Color	Fluorescent Tangerine, Lemon Yellow, Lemon Green, Blue, White, Black, Red, Orange, GG(Green Grey/Dark Green/Olive Green), etc
Feature	Good reflective performance, High Tenacity & UV Resistant & Water Resistant
Application	Used to delineate the perimeter of construction zones, road detours, or as a lane divider. Also used as an early indication of a truck/heavy breakdown
Packing	Each piece in one polybag, 50 PCS per carton

www.suntenplastic.com

Lashing Strap

Lashing Straps (also known as Ratchet Tie-Downs or Cargo Control Straps) are designed for securing heavy loads during transport. Constructed from 100% high-tenacity polyester webbing and equipped with heavy-duty ratchet mechanisms, these straps provide excellent tensile strength and durability. They are resistant to UV rays and weather conditions, ensuring long-lasting performance in various environments. Designed for quick and efficient operation, our lashing straps effectively prevent cargo from shifting or falling during transit. Ideal for use in trucks, flatbed trailers, container lashing, and maritime transport. Available in a variety of lengths, widths, and break strengths to meet different load requirements. Custom printing and packaging options are available upon request. Ensure the safety and stability of your cargo with our reliable lashing solutions.

Basic Info.

Item Name	Lashing Strap, Ratchet Strap, Tie-Down Strap, Cargo Strap
Material	Polyester
Width	1", 2", etc
Length	3M, 5M, 6M, 8M, 10M, etc
Color	White, Black, Green, Blue, Red, Yellow, etc
Feature	High Breaking Strength & UV Resistant
Application	Typically used in the transportation and logistics industry and for fixing goods in industry.
Packing	(1) By Coil (2) Strong Polybag, Woven Bag, Box

www.suntenplastic.com

Fishing Twine/Mason Twine

Fishing Twine is a strong thread, light string, or cord composed of two or more thinner strands twisted, and then twisted together. Natural or synthetic fibers used for making twine include Nylon(PA/Polyamide),Polyester, PP(Polypropylene), PE(Polyethylene), Cotton, etc. Fishing Twine is widely used for many different applications, like Fishing, Packing, Agriculture, Construction, Decoration, Sewing, etc.

Basic Info.

Item Name	Nylon Twine, Polyester Twine, PP Twine, Mason Line, Sewing Thread, Mason Twine
Specification	210D/2Ply~130Ply
Type	Multifilament Twine
Material	Nylon(PA/Polyamide), Polyester, PP(Polypropylene), Cotton
Weight	30g ~ 1000g, 1/4LB, 1/2LB, 1LB, etc
Length	Per Requirement
Height	4''(10cm), 6''(15cm), 8''(20cm)
Spool	Plastic Spool(Black or White) or Paper Spool
Color	White, Black, Green, Blue, Red, Yellow, Orange, GG(Green Grey/Dark Green/Olive Green), etc
Feature	High breaking strength, abrasion resistant, mildew, rot resistant, easy to knot
Application	Multi-Purpose, commonly used in fishing(weaving fishing net), industry(FIBC sewing, etc), construction, packing(bundle belay, etc), and household(crafts knitting, etc).
Packing	Each spool hot shrink, 5 spools hot shrink together, or each spool hot shrink, then packed with inner box, finally into carton or woven bag

www.suntenplastic.com

Mono Fishing Line / Trimmer Line

Nylon Mono Fishing Line is made of 100% high-tenacity of nylon. Nylon Line has the advantage of super strength, extremely soft, and less twisting. Nylon Mono Fishing Lines are widely used for many different applications, like ocean fishing line, river fishing line, lake fishing line, fishing net line, nylon trimmer line, etc.

Basic Info.

Item Name	Nylon Mono Fishing Lines, Nylon Monofilament Lines, Nylon Trimmer Lines
Type	Monofilament Yarn
Diameter	0.08mm~5.00mm
Material	Nylon(PA/Polyamide)
Weight	250g, 500g, 1Kg, 2Kg, 5Kg, 10Kg, 1/8LB, 1/4LB, 1/2LB, 1LB, etc
Length	25m, 30m, 50m,100m, 150m, 300m, 500m, 1000m, 2000m, 5000m, 10000m, also available in fixed length cut lines(2cm ~6m)
Color	Transparent, White, Black, Green, Blue, Red, Yellow, Orange, etc
Feature	High breaking strength, abrasion resistant, corrosion resistant, smooth
Application	Multi-Purpose, commonly used as ocean fishing line, river fishing line, lake fishing line, fishing net line, nylon trimmer line, etc.
Packing	By Hank, Plastic Spool, Wooden Spool, PVC box, etc

www.suntenplastic.com

UHMWPE Braided Fishing Line

UHMWPE Braided Fishing Line is made by braiding UHMWPE fibers into a line with high breaking strength. UHMWPE Line has the advantage of super strength, extremely soft. Braided Fishing Lines can meet any need from advanced anglers and first-time braid users. This is widely used for many different applications, like ocean fishing line, river fishing line, lake fishing line, etc.

Basic Info.

Item Name	UHMWPE Braided Fishing, LineBraided Line, Braided Fishing Line
Type	Braided floating line
Material	UHMWPE
Structure	4 Strand, 8 Strand, 9 Strand, 12 Strand, 16 Strand, 24 Strand
Line No.	0.8, 1.0, 2.0, 3.0, 4.0, 5.0, 6.0, 8.0, 10.0, etc
Diameter	0.08mm - 0.60mm
Length	50m, 100m, 500m, 1000m, 5000m, etc
Strength	7-50Kg (6LB-100LB)
Color	Transparent, White, Black, Green, Blue, Red, Yellow, Orange, Assorted colors, etc
Feature	High breaking strength, low elongation, abrasion resistant, smooth
Application	Multi-Purpose, commonly used as ocean fishing line, river fishing line, lake fishing line, etc.
Packing	By Hank, Plastic Spool, Wooden Spool, PVC box, etc

www.suntenplastic.com

Nylon Braided Fishing Line

Nylon Braided Fishing Line is a high-performance fishing line braided from multiple nylon strands, offering excellent tensile strength, knot strength, and abrasion resistance. Its smooth surface reduces friction and casting resistance, while the low stretch provides high sensitivity for detecting bites. The line is durable, flexible, and suitable for both freshwater and saltwater fishing in rivers, lakes, and oceans. Available in various line numbers, diameters, lengths, and colors to meet different fishing needs.

Basic Info.

Item Name	Nylon Braided Fishing Line, Braided Fishing Line, Nylon Line
Type	Braided floating line
Material	Nylon
Structure	4 Strand, 8 Strand, 9 Strand, 12 Strand, 16 Strand, 24 Strand
Line No.	0.8, 1.0, 2.0, 3.0, 4.0, 5.0, 6.0, 8.0, 10.0, etc
Diameter	0.15mm - 0.80mm
Length	50m, 100m, 500m, 1000m, 5000m, etc
Strength	5-45Kg (10LB-100LB), etc.
Color	Transparent, White, Black, Green, Blue, Red, Yellow, Orange, Assorted colors, etc
Feature	High breaking strength, low elongation, abrasion resistant, smooth
Application	Multi-Purpose, commonly used as ocean fishing line, river fishing line, lake fishing line, etc.
Packing	By Hank, Plastic Spool, Wooden Spool, PVC box, etc

www.suntenplastic.com

Builder Line

Nylon Mono Builder Line is single-strand nylon monofilament specially made for construction marking layout. Made of virgin nylon raw material, it features high tensile strength, low stretch, good abrasion resistance and UV stability. Bright fluorescent colors deliver high visibility on job sites.

Basic Info.

Item Name	**Nylon Mono Builder Line**
Type	Monofilament Yarn
Material	Nylon(PA/Polyamide)
Diameter	0.08mm-5mm
Color	Transparent, White, Black, Green, Blue, Red, Yellow, Orange,etc
Weight	250g, 500g, 1kg, 2kg, 5kg, 10kg, 1/8LB, 1/4LB, 1/2LB, 1LB,etc
Feature	High Breaking Strength, Abrasion Resistant, Corrosion Resistant, Smooth
Application	Bricklaying, Masonry Marking, Flooring Alignment, Fencing Layout, Construction Surveying
Packing	By woven bag

www.suntenplastic.com

Sewing Thread

Sewing Thread is a strong thread, light string, or cord composed of two or more thinner strands twisted, and then twisted together. Natural or synthetic fibers used for making thread include Nylon(PA/Polyamide), Polyester, PP(Polypropylene), PE(Polyethylene), Cotton, etc. Sewing thread is widely used for many different applications, like bag or FIBC sewing, packing, construction, decoration, etc.

Basic Info.

Item Name	Sewing Thread
Specification	210D/2Ply~130Ply
Type	Multifilament Twine
Material	Nylon(PA/Polyamide), Polyester, PP(Polypropylene), Cotton
Weight	30g ~ 1000g, 1/4LB, 1/2LB, 1LB, etc
Length	Per Requirement
Height	4''(10cm), 6''(15cm), 8''(20cm), etc
Spool	Plastic Spool(Black or White)
Color	White, Black, Green, Blue, Red, Yellow, Orange, GG(Green Grey/Dark Green/Olive Green), etc
Feature	High breaking strength, abrasion resistant, mildew, rot resistant, easy to knot
Application	Multi-Purpose, commonly used in the bag or FIBC sewing, packing, construction, decoration, etc.
Packing	Each spool hot shrink, 5 spools hot shrink together, or each spool hot shrink, then packed with inner box, finally into a carton or woven bag

www.suntenplastic.com

Strapping Belt

Strapping Belt is made from high-tenacity of polypropylene or polyester that is used for packing goods. The packing strap has high breaking strength yet is lightweight, so it can be used for packing pallets, cartons, bags, etc. Besides, due to its high loading capacity and shining multi-color, it's also widely used for weaving baskets.

Basic Info.

Item Name	Strapping Belt, Packing Strap, Packing Belt, PP Strap, Pet Strap
Category	Transparent, Half-Transparent, Non-Transparent
Material	PP(Polypropylene), Polyester
Width	5mm, 10mm, 12mm, 13mm, 16mm, 19mm, 25mm, etc
Length	1000m, 1500m, 1800m, 2000m, 2200m, 2500m, etc- (Per Requirement)
Color	Green, Blue, White, Crystal, Black, Red, Yellow, Orange, Pink, Purple, Brown, etc
Surface Treatment	Embossed, Smooth
Core	Paper Core
Feature	High Tenacity & UV Resistant & Water Resistant & Printable (available)
Application	*Packing goods *Weaving Baskets
Packing	Each roll is wrapped with shrink film or kraft paper

PLASTIC AND STEEL PEGS

PVC Tarpaulin

PVC Tarpaulin is a plastic-coated waterproof cloth with high breaking strength. It is coated with polyvinyl chloride (PVC) paste resin with anti-aging content, anti-fungal content, anti-static content, etc. This method of production allows the fabric to be solid and tensile while maintaining the flexibility and lightness of the material. The PVC-coated tarpaulin is not only widely used in Tents, truck & lorry covers, waterproof warehouses, parking garage, but is also widely used in mining ventilation systems, oil booms, container bags, and other building construction industries, etc.

Basic Info.

Item Name	PVC Tarpaulin, PVC Coated Tarpaulin, PVC Canvas, PVC Canvas Fabric
Material	Polyester Yarn With PVC Coating
Weight	300g~1500g
Width	1.2m~5.1m
Length	10~100m
Thickness	0.35mm~1.5mm
Surface Treatment	Glossy, Semi-glossy, Matte, Semi-matte
Color	Green, GG(Green Grey, Dark Green, Olive Green), Blue, Red, White, or OEM
Density	20*20, 30*30, etc
Yarn	High Strength Yarn
Flame Retardant Level	B1, B2, B3
Special Requirement	Anti-UV, Lacquered, Anti-Mildew, Anti-Static, Anti-Scratch
Advantages	(1) High Breaking Strength (2) Anti-Scratching, Good Adhesion, more than 5 years of outdoor life
Application	Truck & Lorry Covers, Tents, Pool Covers, Vertical Blinds, Shade Sail, Projection Screen, Drop Arm Awnings, Air Mattresses, Flex Banners, Roller Blinds, High-Speed Door, Inflatable Water Tanks, Tent Window, Double Wall Fabric, Billboard Banners, Banner Stands, Inflatables Bouncers, Pole Bole Banner, etc.

www.suntenplastic.com

PE Tarpaulin

PE Tarpaulin is a double-coated PE film with a loosely woven polyethylene plastic strip in the middle. PE Tarpaulin has good heat and cold resistance, and good chemical stability. PE tarpaulin is light, clean, non-polluting, and easy to transport and store. PE tarpaulin has many applications, such as protecting unfinished buildings from wind, rain, or sunlight (reinforced polyethylene sheeting); as a temporary cover for construction materials; covering temporary fences to protect them from the weather and extend their service life; or it can also be made into tents, cargo covers, garden bag, etc.

Basic Info.

Item Name	PE Tarpaulin, PE Sheet, PE Tarp, PE Canvas, PE Canvas Fabric, PP Tarpaulin
Material	PE(Polyethylene) With UV Treatment
Weight	40g~400g
Regular Sizes	6x6ft, 6x9ft, 6x12ft, 6x15ft, 8x10ft, 8x12ft, 8x15ft, 9x12ft, 9x15ft, 9x18ft, 10x10ft, 10x12ft, 10x15ft, 10x18ft, 12x12ft, 12x15ft, 12x18ft, 15x15ft, 15x18ft, 15x20ft, 18x20ft, 18x24ft, 20x20ft, 20x30ft, 20x40ft, 30x30ft, 30x40ft, 40x40ft, 6"x100m, 2x3m, 3x4m, 3x5m, 4x5m, 4x6m, 5x8m, 6x8m, 6x10m, 2.5x3.6m, 3.6x5.4m, 5.4x7.2m, 7.2x9m, 10x50m, or OEM Per your requirement
Border Treatment	With Rope Sewing Inside and Metal Eyelets(Grommets) for Reinforcement(Black Plastic Triangle available in four corners)
Color	Blue, Orange, Green, GG(Green Grey, Dark Green, Olive Green), Silver, Red, Black, White, or OEM
Density	9*9 to 14*14
Special Requirement	Anti-UV, Lacquered, Anti-Mildew, Anti-Static, Anti-Scratch
Advantages	(1) High Breaking Strength (2) Anti-Scratching, Good Adhesion
Application	Multi-purpose: Truck & Lorry & Trailer Cover, Equipment Cover, Car & Boat Cover, Pool Cover, Ground Cover, Tents, Construction Cover, Emergency Shelter, Temporary Tents, Painting Tarp, Camping Cover, Canopy, Picnic Mats, etc.

www.suntenplastic.com

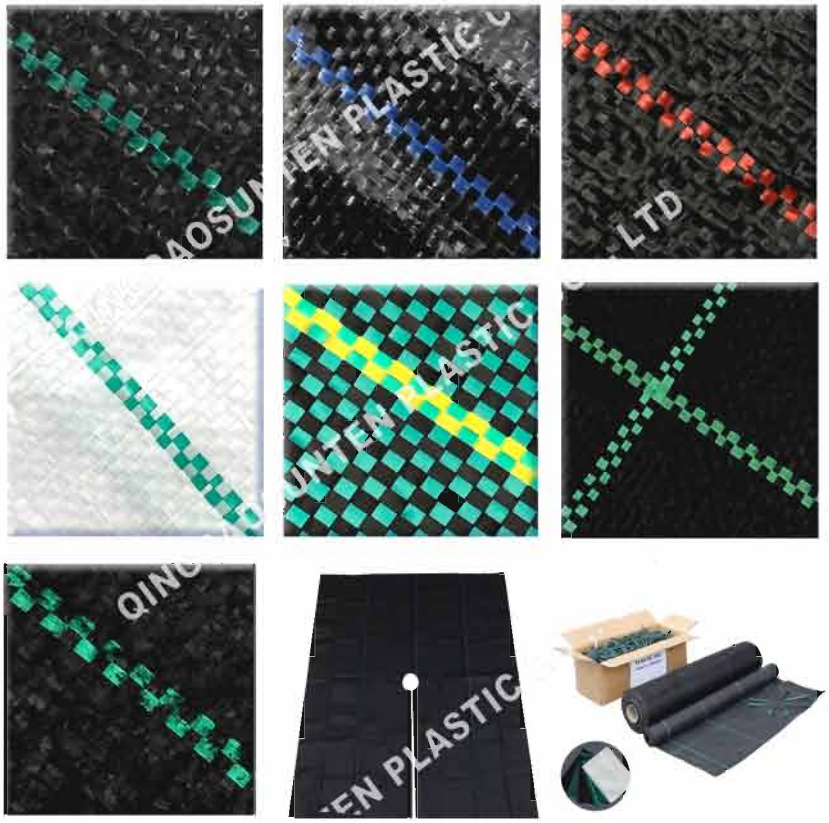

Impermeable Tarpaulin

Our PE Impermeable Tarpaulin is reinforced HDPE woven fabric double-coated with LDPE for full anti-seepage performance. It boasts high tensile & puncture resistance, stable structure against foundation settlement, and ultra-low water permeability to stop liquid leakage thoroughly. Added UV stabilizers extend outdoor service life, while acid & alkali resistance fits harsh soil environments. Lightweight and flexible, it is easy to cut, lay and hot weld on site. Widely used for fish ponds, reservoirs, landfill liners and water conservancy anti-leakage projects. Custom width, thickness and colors are available for all engineering demands.

Basic Info.

Item Name	HDPE Woven Waterproof Pond Liner Cloth, Ponder Liner, Impermeable Tarpaulin
Weight	55-220gsm
Material	PP(Polypropylene) with UV, PE(Polyethylene) with UV
Weaving	Circular, Water-Jet, Sulzer
Color	Black, Green, Black-green, White, Brown, etc
Density	8*8, 10*10,11*11, 12*12,11*13,11*14,12*16,etc
Width	0.4m, 0.5m, 0.6m, 0.8m, 0.9m, 1m, 1.2m, 1.5m, 1.8m,etc
Length	5m, 10m, 20m, 50m, 100m, 200m, 300m, 500m, etc
Application	Used for Fish Ponds, Reservoirs, Landfill Liners and Water Conservancy Anti-leakage Projects
Packing	By woven bag

www.suntenplastic.com

Weed Mat

WEED MAT(Ground Cover, Silt Fence) is mainly used in agriculture and horticulture to inhibit weed or grass growth and avoid direct sunlight. It has a solid woven structure that can withstand various weather conditions for long-lasting use, while still allowing air, water, and nutrients to flow for healthy soil and plants.

Basic Info.

Item Name	Weed Mat, Weed Control Mat, PP Ground Cover, PP Woven Fabric, Weed Barrier Fabric, Landscape Fabric, Anti Grass Cloth, Mulch Fabric, Silt Fence, PE Weed Mat, PP Weed Mat, Weed Barrier
Material	PP(Polypropylene) With UV, PE(Polyethylene) With UV
Weight	55~200GSM
Weaving	Circular, Water-Jet, Sulzer
Density	8*8, 10*10, 11*11, 12*12, 11*13, 11*14, 12*16, etc.
Special Treatment	Pre-Punched Hole Available
Feature	UV Stabilized For Durable Usage
Size	Width: 0.4m, 0.5m, 0.6m, 0.8m, 0.9m, 1m, 1.2m, 1.5m, 1.8m, 2m, 2.5m, 3m, 4m, etc Length: 5m, 10m, 20m, 50m, 100m, 200m, 300m, 500m, etc
Color	Black, Green, Black-green, White, Brown, etc
Marking Line	Style: Parallel or Crossed Color: Green, Blue, White, Red, etc
Packing	In Polybag or Box
Application	Agriculture planting, Gardening, Landscaping, Silt Fence, Geotextile, etc.

www.suntenplastic.com

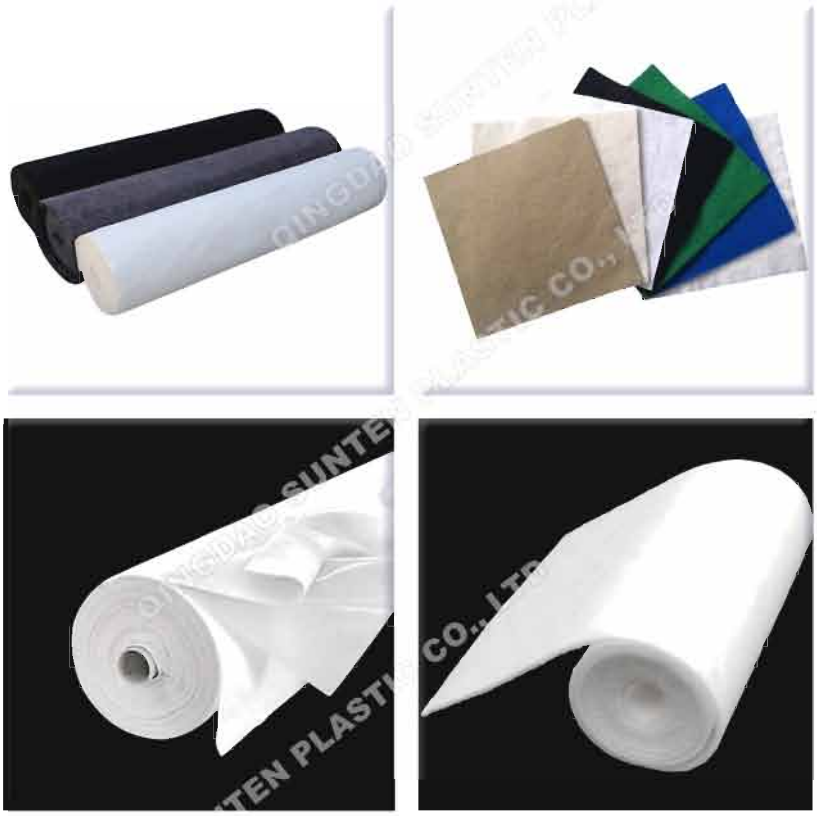

Non-Woven Fabric

Non-Woven Fabric is a type of polypropylene fabric that is made in a non-woven production process. In agriculture and horticulture, it is mainly used to inhibit weed or grass growth and avoid direct sunlight. It can withstand various weather conditions for long-lasting use, while still allowing air, water, and nutrients to flow for healthy soil and plants. Besides, non-woven fabric is also widely in many different applications, such as disposable medical products, healthcare products, shopping bags, household products, etc.

Basic Info.

Item Name	Non-Woven Fabric, Weed Mat, Weed Control Mat, PP Ground Cover, PP Non-Woven Fabric, Weed Barrier Fabric, Landscape Fabric, Anti Grass Cloth, Mulch Fabric, Silt Fence, PP Weed Mat, Weed Barrier, Non-Woven Geotextile
Material	PP(Polypropylene) With UV
Weight	9~250GSM
Special Treatment	Pre-Punched Hole Available
Feature	Degradable, good water and air permeability, tear-resistant, eco-friendly, non-toxic
Size	Width: 0.4m, 0.5m, 0.6m, 0.8m, 0.9m, 1m, 1.2m, 1.5m, 1.8m, 2m, 2.5m, 3m, 4m, etc Length: 5m, 10m, 20m, 50m, 100m, 200m, 300m, 500m, etc
Color	Black, Green, Yellow, Blue, White, Brown, Orange, etc
Packing	In Polybag or Box
Application	* Agriculture(50~100gsm): as weed mat to inhibit weed or grass growth, fruit bag, etc; * Household(50~120gsm): as interlining of furniture, spring mattress, bedding, and suitcase; * Healthcare(10~40gsm): as disposable medical products(such as mask), diapers, etc.

www.suntenplastic.com

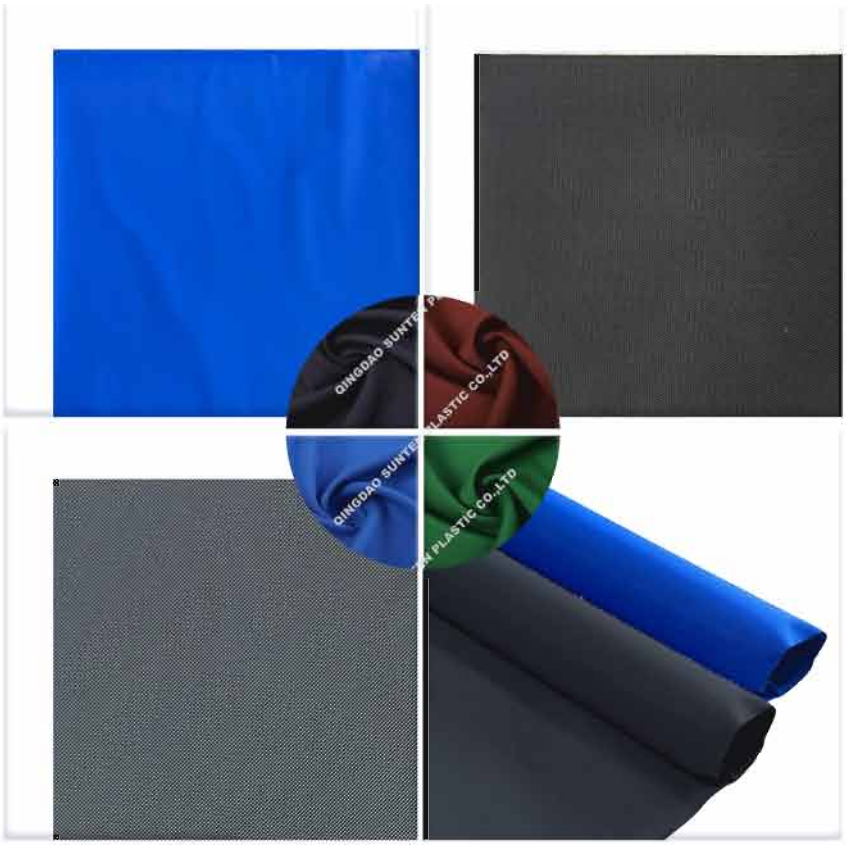

Geotextile

Geotextile is a type of polyester filament spun-bond non-woven Geotextile. In construction, it is widely used in the area of railways, highways, dams, coastal, and beaches for reinforcement, filtration, separation, drainage, etc, especially used in salt marshes and garbage burying fields.

Basic Info.

Item Name	Geotextile, Non-Woven Geotextile, Filament Spunbond Non-woven Geotextile,
Material	Polyester
Category	Long fibre filament needle punched geotextile, Short fibre filament needle punched geotextile
Weight	100~1500GSM(100gsm, 130gsm, 150gsm, 200gsm, 300gsm, 400gsm, 500gsm, 600gsm, etc)
Width	1m - 6m(per requirement)
Length	30m - 500m(per requirement)
Feature	High breaking strength, anti-aging, anti-acid and alkaline, abrasion resistant, good flexibility, permeability, filtration, and easy for construction
Color	White, Black, Grey, Green, Brown, etc
Packing	Polybag or Woven Bag
Application	Used in the area of railways, highways, dams, coastal, and beaches for reinforcement, filtration, separation, drainage, etc, especially used in salt marshes and garbage burying fields.

www.suntenplastic.com

Oxford Fabric

Oxford Fabric is a plastic-coated waterproof cloth with high breaking strength. It is coated with PVC or PU resin with anti-aging content, anti-fungal content, anti-static content, etc. This method of production allows the fabric to be solid and tensile while maintaining the flexibility and lightness of the material. The oxford fabric is not only widely used in tents, truck & lorry covers, waterproof warehouses, and parking garages, but is also widely used in building construction industries, etc.

Basic Info.

Item Name	Oxford Fabric, Polyester Fabric
Material	Polyester Yarn With PVC or PU Coating
Yarn	300D, 420D, 600D, 900D,1000D, 1200D,1680D, etc
Weight	200g~500g
Width	57", 58", 60", etc
Length	Per Requirement
Color	Green, GG(Green Grey, Dark Green, Olive Green), Blue, Red, White, Camouflaged(Camouflage fabric) or OEM
Color Fastness	3-5 grade AATCC
Flame Retardant Level	B1, B2, B3
Printable	Yes
Advantages	(1) High Breaking Strength (2) Anti-Scratching, Good Adhesion, more than 5 years of outdoor life
Application	Truck & Lorry Covers, Tents, Vertical Blinds, Shade Sail, Projection Screen, Drop Arm Awnings, Air Mattresses, Flex Banners, Roller Blinds, High-Speed Door, Tent Window, Double Wall Fabric, Billboard Banners, Banner Stands, Pole Bole Banners, etc.

www.suntenplastic.com

Silt Fence

Silt Fence is a temporary sediment control fabric used on construction sites to protect water quality in nearby rivers, streams, lakes, and seas from sediment (loose soil) in stormwater runoff. Due to its simple design and low cost, it is widely used on construction sites in North America, Australia, New Zealand, Singapore, etc.

Basic Info.

Item Name	Silt Fence, Filter Fence
Material	PP(Polypropylene) With UV, PE(Polyethylene) With UV
Weight	55~200GSM
Weaving	Circular, Water-Jet, Sulzer
Density	8*8, 10*10, 11*11, 12*12, 11*13, 11*14, 12*16, etc.
Feature	UV Stabilized For Durable Usage
Size	Width: 0.4m, 0.5m, 0.6m, 0.8m, 0.9m, 1m, 1.2m, 1.5m, 1.8m, 2m, 2.5m, 3m, 4m, etc Length: 5m, 10m, 20m, 50m, 100m, 200m, 300m, 500m, etc
Color	Black-green, Green, Black, etc
Packing	In Polybag or Box
Application	To protect water quality in nearby rivers, streams, lakes, and seas from sediment (loose soil) in stormwater runoff

www.suntenplastic.com

Fence Cloth

Fence Cloth is a tear-resistant industrial woven polypropylene material customized for passive boma game capture projects in tropical African and South American regions. The main advantage of this enclosure fabric is its strong tensile strength and anti-aging UV treated performance. PP Woven Fabric provides malleable barrier solutions adaptable to various sizes of wild herds and complex wilderness terrain. The fabric sections can be tensioned seamlessly to wrap the full capture zone and maintain tight load stability for safe animal herding and collection.

Basic Info.

Item Name	Fence Cloth, PP Woven Fabric, Woven Fabric, Animal Fence
Color	Black,White, Green, Black-green, Brown, etc
Material	PP(Polypropylene) With UV
Weaving	Circular, Water-Jet, Sulzer
Density	8*8,10*10,11*11.12*12,11*13,11*14 12*16.etc.
Weight	55~200GSM
Width	0.4m,0.5m,0.6m,0.8m,0.9m,1m,1.2m,1.5m,1.8m,2m,2.5m,3m, 4m,etc
Length	5m,10m,20m,50m,100m,200m,300m,500m,etc
Feature	UV Stabilized For Durable Usage
Application	Animal Fence

www.suntenplastic.com

Sound Barrier Sheet

Sound Barrier Sheet is a plastic-coated waterproof cloth with high breaking strength. It is coated with PVC resin with anti-aging content, anti-fungal content, anti-static content, etc. This method of production allows the fabric to be solid and tensile while maintaining the flexibility and lightness of the material. The soundproof fabric is not only widely used in tents, truck & lorry covers, waterproof warehouses, and parking garages, but is also widely used in building construction industries, etc.

Basic Info.

Item Name	Sound Barrier Sheet, Sound Proof Sheet, Sound Barrier Fabric, Sound Proof Tarpaulin
Material	Polyester Yarn With PVC Coating
Basic Fabric	500D*500D/9*9; 1000*1000D/9*9
Surface	Glossy, Matte
Weight	500g/Sq m~1200g/Sq m (±10g/Sq m)
Eyelet	Aluminum, Steel, Copper
Thickness	0.42mm~0.95mm (±0.02mm)
Edge Treatment	Heat welding, Stitching welding
Temperature Resistance	-30ºC--+70ºC
Width	0.6m~10m (±2cm)
Length	1.8m~50m (±20cm)
Common Sizes	1.8m × 3.4m, 1.5m × 3.4m, 1.2m × 3.4m, 0.9m × 3.4m, 0.6m × 3.4m, 1.8m × 5.1m, 1.5m × 5.1m, 1.2m × 5.1m, 0.9m × 5.1m, 0.6m × 5.1m
Color	Grey, Blue, Red, Green, White, or OEM
Color Fastness	Grade 3-5, AATCC
Flame Retardant Level	B1, B2, B3
Printable	Yes
Advantages	(1) High Breaking Strength (2) Anti-Scratching, Good Adhesion, more than 5 years of outdoor life
Application	Truck & Lorry Covers, Tents, Vertical Blinds, Shade Sail, Projection Screen, Drop Arm Awnings, Air Mattresses, Flex Banners, Roller Blinds, High-Speed Door, Tent Window, Double Wall Fabric, Billboard Banners, Banner Stands, Pole Bole Banners, etc.

www.suntenplastic.com

Steel Wire Composite Fencing Woven Fabric

Our premium Steel Wire Composite Fencing. Engineered with high-grade steel wire and advanced composite materials using professional weaving technology, this fence delivers exceptional durability, corrosion resistance, and UV protection. Built to withstand the diverse climates of both countries, it resists rust and aging while featuring an anti-climb design for enhanced security. Easy to install, cut, and maintain, it can be customized in size and mesh density to meet your specific needs. Fully compliant with local standards, it offers a cost-effective and reliable fencing solution for homeowners, businesses, and government projects.

Basic Info.

Item Name	Steel Wire Composite Fencing Woven Fabric, Galvanized Steel Wire Weed Control Fabric, Combination Net, Steel Net
Material	PP(Polyproplylene) With UV, PE(Polyethylene) With UV, Steel Wire,Galvanized Steel
Thickness	Weed Mat: 55-200GSM Steel Wire: 0.2-5MM
Width	0.4M, 0.5M, 1M, 1.2M, 1.5M, 2M, etc.
Length	5M, 10M, 20M, 50M, 100M, 150M, 200M, etc
Mesh Size	5*5CM, 6*6CM, 8*8CM, 10*10CM, 15*15CM, etc
Color	Superior Strength & UV Resistant & Waterproof
Packing	Black, Green, Black-green, White, Brown, etc.
Application	Weed Control and Root Protection in Orchards/Vegetable Gardens

www.suntenplastic.com

Flexible Pallets

Flexible Pallets (Woven Fabric) are manufactured with high-strength HDPE/PP materials, using crisscross weaving technology to form a dense and durable fabric structure. They are lightweight but tough, with outstanding tear resistance, moisture-proof and anti-corrosion properties, and are suitable for long term use in multiple scenarios. Whether for logistics stacking, warehouse storage, or agricultural product transportation, they can meet diverse goods handling needs. The foldable design enables space-saving storage, and the recyclable, eco-friendly features conform to global green development trends, making them a high-efficiency and sustainable packaging and transportation solution.

Basic Info.

Item Name	Flexible Pallets
Weaving	Circular, Water-Jet, Sulzer
Material	PP(Polypropylene) With UV, PE(Polyethylene) With UV
Color	Black,Green, Black-green, White, Brown, etc
Density	8*8,10*10,11*11.12*12,11*13,11*14 12*16.etc.
Weight	55~200GSM
Width	0.4m,0.5m,0.6m,0.8m,0.9m,1m,1.2m,1.5m,1.8m,2m,2.5m,3m, 4m,etc
Length	5m,10m,20m,50m,100m,200m,300m,500m,etc
Feature	UV Stabilized For Durable Usage
Application	For lifting goods, such as fruits, etc.

www.suntenplastic.com

Accessory: Plastic and Steel Pegs

Plastic and Steel Peg is one strong peg used for securing weed mats, artificial lawns, and other landscaping fabrics. With the sharp chiseled point, it is very easy to install and drive in. This peg should be used around every 50cm for an effective and tight hold. It is widely used as a fastener for tight weed mats, artificial grass, or other landscaping fabrics.

Basic Info.

Item Name	Accessory: Plastic and Steel Pegs, Weed Mat Pins, Weed Mat Peg, Ground Staples, Ground Cover Pegs, Plastic Pegs, Steel Pegs, Zinc Plated Pins, Galvanized Pins, Ground Nails, Plastic Stakes, Ground Fixing Pegs
Category	Plastic type("I" Shape), Galvanized type("U" Shape)
Color	Plastic Type: Black, Green, Olive Green(Dark Green), Blue, White, etc Galvanized Type: Silver
Length	10cm(4''), 15cm(6''), 20cm(8''), 30cm(12'')
Material	Plastic, Galvanized Wire
Feature	Sharp chiseled point, anti-aging, acid, and alkali resistant, eco-friendly and odorless
Packing	Several pieces per polybag, several bags per carton
Application	For fixing weed mats, artificial grass, or other landscaping fabrics.

BLOWN GREENHOUSE FILM
WOVEN GREENHOUSE FILM
MULCH FILM
SILAGE WRAP
BUILDING
CONSTRUCTION FILM
Film

Blown Greenhouse Film

Blown Greenhouse Film is a type of agricultural film which is used for the protection of vegetables or fruits inside the greenhouse. The greenhouse film can keep a moderate temperature in the greenhouse, so farmers can get healthier plants in the shortest time. With a moderate environment, it can increase 30~40% total crop yields by without the destruction of heavy rain or hail.

Basic Info.

Item Name	Greenhouse Film, Blown Greenhouse Film
Material	100% LLDPE With UV-Stabilization for a long time of usage
Color	Transparent white, Transparent blue, etc
Common Sizes	4m x 100m, 6m x 100m, 7m x 100m, 7.32(24ft) x 45m, 7.32(24ft) x 50m, 7.32(24ft) x 60m, etc
Width	Max 18m(per requirement)
Length	Max 300m(per requirement)
Thickness	120mic, 150mic, 200 mic, etc
Process	Blow Molding
Core	Paper Core
Function Choice	Anti-drip, anti-fog, anti-dust, anti-sulfur, light diffusion, etc
Tensile Strength	＞25 MPa
Elongation	> 600%
Drop Strength	> 450G
Packing	Each roll in a woven bag

www.suntenplastic.com

Woven Greenhouse Film

Woven Greenhouse Film is made of high-quality reinforced HDPE material with professional UV-stabilized additives. Different from ordinary flat PE film, it adopts integrated woven grid structure, featuring excellent tear resistance, tensile strength and hail resistance. It maintains high light transmittance to ensure sufficient sunlight for crop photosynthesis. Meanwhile, it offers good heat preservation, waterproof and anti-aging performance. Lightweight and flexible, this film is easy to install and suitable for vegetable, flower and fruit greenhouses, orchards and agricultural breeding shelters, serving as a durable and cost-effective agricultural covering solution.

Basic Info.

Item Name	Woven Clear Greenhouse Film, Clear Woven PE Greenhouse Cover
Length	100m, 120m, 150m, 200m, 300m, etc
Material	HDPE With UV
Width	0.5m-5m
Color	Transparent, white, blue, etc
Thickness	20-500mic
Packing	Each roll in a woven bag

www.suntenplastic.com

Mulch Film

Mulch Film is a type of agricultural film which is used for the protection of vegetables or fruits inside the greenhouse. The greenhouse film can keep a moderate temperature in the greenhouse, so farmers can get healthier plants in the shortest time. With a moderate environment, it can increase 30~40% total crop yields by without the destruction of heavy rain or hail.

Basic Info.

Item Name	Mulch Film
Material	100% LLDPE With UV-Stabilization for a long time of usage
Color	Transparent, Black, Black and White, Black/Silver
Category and Function	***Transparent Film:** Prevent moisture from evaporating and keep warm for the soil ***Black Film:** Absorb and block radiation to suppress weed germination, while overheating may result in burning seedlings to collapse and hyperthermia in fruit. ***Black and White Film(Zebra Film, on the same side):** The clear column is used for the plant growth and the black column is for killing the weeds. ***Black/Silver(Back and front):** Silver or white on the side facing up and black on the side facing down. The silver or white color reflects radiation to prevent the overheating of seedlings, plants, and fruit, enhances photosynthesis, and repels pests; and the black color prevents the penetration of light and reduces the germination of weeds. These films are recommended for vegetables, flowers, and orchards with single-row layouts or for the entire width of greenhouse gables. ***Perforated Film:** Regular holes are formed during the production process. Holes are used to planting crops thus reducing labor intensity and avoiding manual punching.
Width	0.5m-5m
Length	100,120m,150m,200m,300m,400, etc
Thickness	0.008mm-0.04mm, etc
Process	Blow Molding
Treatment	Perforated, Non-Perforated
Core	Paper Core
Packing	Each roll in a woven bag

www.suntenplastic.com

Silage Wrap

Silage Wrap is a type of agricultural film which is used for the protection and storage of silage, hay, forage, and maize for winter feed of herds. Silage film can keep the moisture of the grass from evaporation and then promote fermentation to raise nutrition and even enhance the tastefulness of the grass to the herds. It can reduce the waste of grass and eliminate unstable supply due to inappropriate storage and the bad influence of the weather. We have exported silage wrap to many large-scale farms around the world, especially for the USA, Europe, South America, Australia, Canada, New Zealand, Japan, Kazakhstan, Romania, Poland, etc.

Basic Info.

Item Name	Silage Wrap, Silage Film, Hay Bale Wrap Film, Packing Film, Silage Stretch Film
Brand	SUNTEN or OEM
Material	100% LLDPE With UV-Stabilization
Color	White, Green, Black, Orange, etc
Thickness	25 mic, etc
Process	Blow Molding
Core	PVC core, Paper core
Viscous Characteristics	Single-sided adhesive or double-sided adhesive, high viscosity
Size	250mm x 1500m, 500mm x 1800m, 750mm x 1500m, etc
Feature	Good moisture proof, tear-resistant, UV resistant, puncture resistant, excellent tensile property and elasticity, and best adhesive for durable usage
Packing	Each roll in PE bag & box, for 250mm x 1500m, around 140 rolls per pallet(L: 1.2m*W: 1m) for 500mm x 1800m, around 56 rolls per pallet(L: 1.1m*W: 1m) for 750mm x 1500m, around 46 rolls per pallet(L: 1.2m*W: 1m)

Building Construction Film

Building construction film is a practical and essential auxiliary material in modern construction projects. Usually made of high-quality polyethylene or polyester, it is lightweight, durable and easy to install. It has multiple functions such as moisture resistance, dust prevention and UV protection, which can effectively protect building materials and construction structures from damage. Widely used as a concrete curing membrane, moisture barrier or temporary protective cover, it is suitable for various residential, commercial and industrial construction scenarios, helping to ensure construction quality and improve work efficiency with high cost-effectiveness.

Basic Info.

Item Name	Building Construction Film, PE Film
Material	100% LLDPE With UV-Stabilization for a long time of usage
Width	0.5m-5m
Length	100m, 120m, 150m, 200m, 300m, etc
Color	Transparent
Thickness	0.008mm-0.04mm, etc
Process	Blow Molding
Treatment	Perforated, Non-Perforated
Core	Paper Core
Packing	Each roll in a woven bag

WOVEN BAG
BULK BAG
MESH BAG
Bags

Woven Bag

Woven Bag is a type of high-strength polypropylene or polyethylene woven bag. In logistics and packaging, it is widely used in the areas of grain storage, chemical products, building materials, and agricultural by products for packaging, transportation, storage, and protection, etc, especially used in fertilizer packaging and bulk grain transportation. It has excellent tensile strength and wear resistance, which can effectively protect the contents from damage during transportation and storage.

Basic Info.

Item Name	Woven Bag, PP Woven Packing Bag, Heavy Duty Woven Bag
Material	PE(Polyethylene), PP(Polypropylene)
Color	Transparent, White, Red, Black, etc
Thickness	50-200gsm
Type	Hot Cut,Cold Cut or Top Hemmed
Bottom	Single Fold or Double Fold
Width	From 20cm to 160cm Can be Customized
Length	20cm-300cm Can be Customized
Feature	High Tenacity & UV Resistant for Durable Usage
Application	For Packing

Bulk Bag

Factory Direct Bulk Bags / Heavy-Duty, 1-3 Ton Capacity, Customizable for Global Industrial B2B Needs. As a professional manufacturer, we supply high-quality bulk bags (FIBC - Flexible Intermediate Bulk Containers) tailored for large-volume industrial packaging, transportation and storage. Made with premium materials and strict quality control, our bulk bags are durable, safe and cost-effective, serving clients in chemical, construction, agriculture, mining and logistics industries worldwide.

Basic Info.

Item Name	Bulk Bag, FIBC Bulk Bag, Ton Bag, Heavy Duty Bulk Bag, FIBC Ton Bag
Material	PP(Polypropylene)
Thickness	120-250gsm
Capacity	1000-3000kg(1-3 ton)
Color	White, Black, Green, etc
Regular Size	85*85*90cm, 90*90*100cm, 95*95*110cm, 100*100*150cm
Fabric	With Coating or without
Application	As the Packing for Construction, Agriculture, Sugar, Salt, etc

Mesh Bag

Mesh Bag is crafted from polypropylene (PP) or polyethylene (PE), food-grade polymer materials that are completely safe and non-toxic. Utilising advanced weaving technology, these bags feature uniformly distributed breathable mesh holes with reinforced edges for enhanced durability. The unique ventilation design promotes optimal air circulation, effectively preventing moisture buildup that could lead to mould while maintaining produce freshness. With outstanding impact resistance, these bags can withstand the rigours of transportation. Ideal for packing root vegetables like onions and potatoes, they serve perfectly for both logistics and retail display, making them an essential eco-friendly packaging solution in modern agricultural supply chains.

Basic Info.

Item Name	Mesh Bag, Raschel Net Bag, Leno Mesh Bag,Onion Bag, Potato Bag
Material	Polyethylene (HDPE,PE),Polypropylene (PP) with UV
Color	Blue, Orange, Green, GG(Green Grey, Dark Green, Olive Green), Silver, Red, Black, White, or OEM
Bag Type	L-sewing ,Round Yarn, Flat Yarn,Raschel Mesh
Top	Hot Cut,Cold Cut or Top Hemmed
Bottom	Single Fold or Double Fold
Width	14"-30"(or 30-75cm)
Length	60cm,80cm,85cm,100cm,etc
Weight	55GSM to 140GSM Per Your Requirement
Feature	High strength, Durable, Non-toxic, Ventilated, Recyclable
Application	Fruit, Vegetable, Bean, Onion, Potato, Cabbage, Firewood, Seafood, etc

ARTIFICAL GRASS
ARTIFICIAL HEDGE
Artificial
Landscaping Products

Artificial Grass

Artificial grass, also known as synthetic turf, mainly consists of grass fibers, a backing fabric, and infill. The grass fibers are typically made from polymers such as polyethylene (PE), polypropylene (PP), and polyamide (PA, also known as nylon).PE grass fibers are soft and realistic, suitable for sports fields; PP is low-cost and wear-resistant, and is mostly used in recreational areas; PA combines sports and recreational performance. The backing structure provides support and stability, and the addition of UV stabilizers and flame retardants extends its lifespan. It has excellent all-weather performance and is unaffected by climate.

Basic Info.

Item Name	Artificial Turf, Artificial Grass, Synthetic Turf, Synthetic Lawn Carpet, Sport Grass, Golf Grass, Landscape Grass, Wall Decoration
Color	Green, Blue, Red, Orange, Purple or OEM
Material	Polyethylene (HDPE, PE), Polypropylene (PP), Nylon (Polyamide, PA)
Shape	Square, Irregular, Round
Turf Backing	BACKING A:PP+NET BACKING B:PP+NON-WOVEN
Stitches	14 ,16, 18, 20, 26, 30, 32, 40, etc.
Pile Height	7mm,10mm, 15mm, 20mm,25mm, 30mm, 35mm, 40mm, 45mm, 50mm,etc
Roll Width	1-6m
Application	Various Locations, Such as Kindergartens, Villas, Balconies, Golf Courses, Playgrounds, Football Fields, etc.

Artificial Hedge

Artificial grass fence is an ideal privacy decoration for backyards, balconies and villa boundaries. Made of UV-resistant PE grass and firm wire mesh, it features dense, lifelike grass blades that stay fresh green all year, never fading under strong sunlight or heavy rain. Unlike natural hedges, it needs no watering, trimming or fertilizer, saving tons of daily maintenance time. Lightweight and flexible, it can be freely cut to match fence sizes and fixed tightly with cable ties in minutes. Its thick grass layer blocks outside sight and weakens street noise, building a quiet, private green corner for families, safe for kids and pets to play nearby.

Basic Info.

Item Name	Green Grass Hedge, Artificial Hedge, Artificial Grass Fence
Type	Chain link Fence
Color	Light Green, Dark Green,etc
Material	PVC /Galvanized Wire
Width	1-2M
Length	5M, 10M, 15M, 20M, 25M, 50M, etc
Feature	Waterproof
Packing	Plastic Woven Bag
